Enel SpA's business

Enel SpA which operates in the electricity and gas sector, is organized under the legal form of joint stock company and has its registered office at viale Regina Margherita 137, Rome.

Enel SpA, in its role as industrial holding company, defines the strategic objectives at the Group level and that of its subsidiaries and coordinates their business operations. The activities which Enel SpA, in its role as entity that provides guidance and coordination, provides to the other companies of the Group, may be summarized as follows:

- corporate governance;
- extraordinary finance and financial planning;
- tax planning and strategy;
- risk assesment management;
- legal policies;
- guidelines pertaining to mangement training and compensation policies;
- institutional relationships;
- guidelines on the matter of accounting;
- strategic marketing.

In the context of the Group, Enel SpA performs, directly and through its subsidiary Enel Finance International NV, the function of centralized treasury (with the exception of the Endesa Group) ensuring access to the money and capital markets. Moreover, the company provides, directly and through its subsidiary Enel Insurance NV, coverage for insurance risks.

2. Reference accounting standards

This Financial Statement of Enel SpA as of September 30, 2015 was drafted in accordance with the determination and measurement criteria set forth in international accounting standards (International Accounting Standards - IAS and International Financial Reporting Standards - IFRS) issued by the International Accounting Standards Board (IASB) and the IFRIC and SIC interpretations, recognized in the European Union pursuant to EC regulation no. 1606/2002 in force as of the close of the period.

In particular, such criteria are in line with those adopted for the preparation of the Company's Annual Financial Statement as of December 31, 2014, to which reference is made for an extensive description of the same. It should be noted that the application of the accounting standards which became applicable starting on January 1, 2015 did not have any effect on this Financial Statement.

This Financial Statement is comprised of the Income Statement, the Balance Sheet (Accounting prospectuses) and explanatory notes the purpose of which is to describe the composition of the main financial statement items as well as the most significant changes that took place over the course of the first nine months of year 2015. The Financial Statement as of September 30, 2015 therefore does not contain all of the information required for the annual Financial Statement and, therefore, must be read in conjunction with the annual Financial Statement as of December 31, 2014.

The currency used for the presentation of the financial data is the Euro, the functional currency of the company, and the amounts set forth in the comments are expressed in Euro millions, except where otherwise indicated.

Under the Consob provisions issued on this matter, the Income Statement and the Balance Sheet indicate transactions with related parties, identified in accordance with international accounting standards and the relevant Consob provisions. It should be noted that such transactions are concluded in the Company's interest and are governed at market/arm's length conditions or, in other words, at conditions that would apply between two independent parties.

Information on the Income statement

Revenues

3.a Revenues from services - Euro 165 million

The "Revenues from services" are comprised as follows:

| Euro millions | | | | |
|--|--|------|------|-----------|
| | | 2015 | 2014 | 2015-2014 |
| Services | | | | |
| Group companies | | 165 | 195 | (30) |
| Third parties | | - | - | - |
| Total revenues from sales and services | | 165 | 195 | (30) |

Revenues for the sale and services as of September 30, 2015 total Euro 165 millions and refer exclusively:

- to services rendered to the subsidiaries in the context of its guidance and coordination function;
- 2) to the charge-back of costs of various types incurred and attributable to the subsidiaries.

With respect to the same period in the previous year, revenues from the sale and services, which are affected by the new organizational structure adopted by the Group and the Parent Company's new remuneration model, have fallen by Euro 30 million.

3.b Other revenues and income - Euro 3 million

The other revenues and income, totaling Euro 3 million, refer essentially to seconded personnel and, compared to the first nine months of 2014, have declined by Euro 1 million.

Costs

4.a Purchases of consumables - Euro 1 million

Costs for "Purchases of consumables" totaling Euro 1 million in 2015, refer to the purchase from third party suppliers of various types of consumables.

4.b Services, leases and rentals - Euro 113 million

Costs for "Services, leases and rentals" are comprised as follows.

| Euro millions | First nine months | | | | | |
|------------------------------------|-------------------|------|-----------|--|--|--|
| | 2015 | 2014 | 2015-2014 | | | |
| Services | 101 | 111 | (10) | | | |
| Leases and rentals | 12 | 15 | (3) | | | |
| Total services, leases and rentals | 113 | 126 | (13) | | | |

The "Services", totaling Euro 101 million, refer to services rendered by third parties in the amount of 66 Euro million (75 Euro millions in the first nine months of 2014) and by companies of the Group totaling 35 Euro million (36 Euro million in the first nine months of 2014).

In particular, the decrease in costs for services rendered by third party companies, in the amount of Euro 9 million, is attributable to the decrease in advertising, propaganda and press expenses, resulting from the new organizational structure implemented by the Group, which entailed the transfer of a portion of communication activities from the Holding to the Countries.

The decline in costs for services rendered by companies of the Group, totaling Euro 1 million, is attributable essentially to the decrease in both costs of

personnel seconded from the various companies of the Group and costs for "miscellaneous services" provided by a number of subsidiaries, in part offset by the higher costs for information technologies services supplied by the subsidiary Enel Italia Srl.

The "Leases and rentals" amount to Euro 12 million and have decreased by Euro 3 million compared to the previous period; the change is attributable essentially to the lower costs for rentals and leases of real estate properties owned by the subsidiary Enel Italia Srl.

4.c Personnel - Euro 114 million

The cost of labor totals Euro 114 million, up by Euro 27 million compared to the same period in the previous year, attributable essentially to the rise in the item "Wages and salaries" and the related social costs (Euro 4 million), as well as the rise in costs related to the Long Term Incentive plan (Euro 5 million).

It should also be noted that the average number of employees rose by 313 units as a result of the new organizational structure adopted by the Group.

| Euro millions | First nine months | | | | | | |
|---------------------------------------|-------------------|------|-----------|--|--|--|--|
| | 2015 | 2014 | 2015-2014 | | | | |
| Wages and salaries | 69 | 51 | 18 | | | | |
| Social security costs | 21 | 19 | 2 | | | | |
| Post-employment benefits | 5 | 3 | 2 | | | | |
| Other costs and other incentive plans | 19 | 14 | 5 | | | | |
| Total | 114 | 87 | 27 | | | | |

4.d Depreciation, amortization and impairment losses - Euro 6 million

The item "Depreciation, amortization and impairment losses" totaling Euro 6 million in 2015 is comprised exclusively of amortizations of properties, plants and equipment and intangible assets and is unchanged compared to the same period of the previous year.

4.e Other operating expenses - Euro 15 million

The other operating costs, totaling Euro 15 millions, show an increase of Euro 2 million attributable essentially to lower releases (Euro 5 million), compared to 2014, of the fund for litigation, in part offset by the decline (Euro 4 million) in other operating costs related to non-recurring cost items that arose in the same period the previous year.

The operating income is negative in the amount of Euro 81 million and, compared to the same period the previous year, has worsened by Euro 47 million attributable essentially to the joint effect of lower revenues from the supply of services rendered to the companies of the Group, greater costs of personnel and the decrease in costs for the leases and rentals.

5. Income from equity investments - Euro 1,545 million

Income from equity investments, in the amount of Euro 1,545 million, refer to dividends approved by resolution by the Shareholders' Meetings of the subsidiaries and affiliates in the amount of Euro 1,544.7 million and the other companies in which equity stakes are held in the amount of 0.7 Euro millions.

| Euro millions | First | First nine months | | | | | | |

| Total costs | (3,419) | (2,614) | (805) |
| TOTAL NET FINANCIAL INCOME/(COSTS) | (559) | (721) | 162 |

The net financial costs, totaling Euro 559 million, reflect essentially the interest paid on the financial indebtedness (Euro 722 million) offset by net proceeds on derivative instruments hedging interest rates (Euro 43 millions) and interest earned and other income from financial assets (totaling Euro 120 million).

The decrease in net financial costs compared to the same period in the previous year, totaling Euro 162 million, was generated essentially by the lower interest on financial debts (Euro 65 million), the positive net change related to transactions in derivative instruments related to Enel SpA (Euro 46 million), and the decrease in other interest payable and costs (Euro 53 million).

7. Income taxes - Euro (161) million

The income taxes accrued as of September 30, 2015 are positive in the amount of Euro 161 million and are attributable to the balance of the economic items that are relevant for tax purposes.

Information on the Balance sheet

Assets

8. Non-current assets - Euro 42.245 million

Non-current assets rise by Euro 497 million compared to the value registered as of December 31, 2014. Such trend is essentially attributable to the rise in the item "Derivatives" (Euro 498 million) due to the valuation as of September 30, 2015 of financial derivative contracts (comprised of derivatives on interest rates in the amount of Euro 450 million and on exchange rates in the amount of Euro 2,027 million).

Set forth below are the changes in the equity investments over the course of 2015:

Over the course of 2015, the value of investments in subsidiaries, associates and other companies rose, following the recapitalization of the company Enel Oil & Gas SpA which took place in January, in the amount of Euro 2 million applied by the latter to increase the item "Other reserves" of the shareholders' equity that was necessary for the same in order to meet its operating and financial requirements.

9. Current assets - Euro 10,220 million

The current assets show, compared to December 31, 2014, a decline of Euro 3,073 million attributable mainly to the decrease in available liquidity (Euro 3,025 million). Reference is made to the comments on the net financial position as regards such latter change.

Liabilities

10. Shareholders' equity - Euro 24,970 million

Shareholders' equity totals Euro 24,970 million and is down by Euro 166 million compared to December 31, 2014. Such change is attributable to the distribution of the dividend for year 2014 in the amount of Euro 0.14 per share (totaling Euro 1,316 million), as approved by the Shareholders' Meeting held on May 28, 2015, as well as the total earnings entered in the first nine months of 2015 (Euro 1,150 million).

11. Non-current liabilities - Euro 18,041 million

Non-current liabilities show, compared to December 31, 2014, a decline of Euro 2,588 million attributable mainly to the decrease in long-term borrowings (Euro 2,799 million), as a result of the redemption, in the first quarter of year 2015, of two retail debenture borrowings in the amount of Euro 2,300 million, partially offset by the increase in the item "Derivatives" (Euro 139 million) attributable to the valuation as of September 30, 2015 of the financial derivative contracts (comprised of derivatives on interest rates in the amount of Euro 568 million and on exchange rates in the amount of Euro 2,055 million).

12. Current liabilities - Euro 9,454 million

Current liabilities show, compared to December 31, 2014, an upward change of Euro 178 million attributable essentially to the increase in current portion of long-term borrowing (Euro 695 million), partially offset by the decline in "other current financial liabilities" resulting from lower interest accruals on debenture borrowing (Euro 243 million) and the decrease in the other current liabilities (Euro 222 million).

13. Net financial position - Euro 13,283 million

Set forth below is a summary of Enel SpA's net financial position as of September 30, 2015, as compared with the situation determined as of December 31, 2014, in line with the CONSOB provisions dated July 28, 2006:

Enel SpA's net financial debt as of September 30, 2015 totals Euro 13,283 million and shows an increase of Euro 672 million.

The main transactions concluded in 2015, which impacted upon net financial debt were:

- the redemption of two retail debenture loans in the amount of Euro 2,300 million;
- the repayment of the Intercompany Short Term Deposit Agreement (short-term credit line with Enel Finance International NV) in the amount of Euro 500 million.

It should be noted that the cash, totaling Euro 3,947 million, shows, compared to December 31, 2014, a decrease totaling Euro 3,025 million, due mainly to the

reimbursement of the above-mentioned borrowings, the increase in the net short-term creditor position on intercompany bank accounts in place with the Companies of the Group totaling Euro 1,516 million, higher Cash Collateral received in the amount of Euro 1,256 million for dealings in over-the-counter derivative contracts on interest rates and exchange rates.
