### INTRODUCTION

The following Introduction provides a brief description of the structure of the transaction that constitutes the object of this offer document (the "**Offer Document**").

In order to fully assess the terms and conditions of the transaction, please read the following paragraph "Warnings" and the entire Offer Document.

The data and information relating to the Issuer contained in this Offer Document are based on publicly available data and information (including those available on the Issuer's website, www.astm.it) as at the date of publication of the Offer Document.

### 1. CHARACTERISTICS OF THE OFFER

The transaction described in the Offer Document consists of a voluntary total tender offer (the "**Offer**") made by NAF 2 S.p.A. (the "**Offeror**" or "**NAF 2**"), a company 100% owned by Nuova Argo Finanziaria S.p.A. ("**Nuova Argo Finanziaria**" or "**Nuova Argo**" or "**NAF**"), which is in turn a sole subsidiary of Aurelia S.r.l. ("**Aurelia**"), pursuant to and by effect of Article 102 of Legislative Decree no. 58 of 24 February 1998, as amended and supplemented ("**CLF**") and the implementing provisions contained in the regulations on issuers, adopted by Consob with resolution no. 11971 of 14 May 1999, as subsequently amended and supplemented ("**Issuers' Regulations**")—on all ordinary shares of the Issuer (the "**Shares**" or "**ASTM Shares**")—after deducting (a) the total number of 60,449,417 Shares, equal to 43.020% of the capital stock of ASTM, held by Nuova Argo Finanziaria (of which 58,501,677 directly, equal to 41.634% of the capital stock of ASTM and 1,947,740, equal to 1.3786% of the capital stock of ASTM, indirectly through Nuova Codelfa S.p.A. ("**Nuova Codelfa**")), (b) the 2,385,650 Shares, equal to 1.698% of the capital stock of ASTM, held of Mercure Investment S.à r.l. ("**Mercure**") and (c) the 10,741,948 own shares, equal to 7.645% of the capital stock of ASTM, held by the Issuer, without any indication of the nominal value, representing 47.638% of the capital stock of the Company (the "**Shares Subject to the Offer**").

For further information on the categories and quantities of the financial instruments under the Offer, please refer to Section C of the Offer Document.

The Offer represents the instrument by which the Offeror intends to acquire all of the Shares Subject to the Offer and, consequently, to proceed with the delisting from the *Mercato Telematico Azionario* ("**MTA**"), organized and managed by Borsa Italiana S.p.A. ("**Borsa Italiana**"), of the Shares (the "**Delisting**").

Therefore—should the relevant conditions occur—the Offeror does not intend to restore a float sufficient to ensure the regular trading of the Shares.

The effectiveness of the Offer is subject to all the following conditions (the "Conditions of the Offer"):

- a) that the acceptances to the Offer concern a total number of Shares such as to allow the Offeror to hold, following the Offer, a total shareholding of more than 90% of the Company's capital stock (the "**Threshold Condition**"), taking into account in the Offeror's shareholding the Shares held by the Persons Acting in Concert, the Treasury Shares and the Shares possibly acquired by the Offeror and the Persons Acting in Concert outside of the Offer itself in compliance with the applicable law;
- b) that no communications have been received, from any authority, within the second Trading Day prior to the Payment Date, where this is required by the applicable regulations, relating to the exercise of vetoes and/or remarks and/or the imposition of conditions on the Offer, also pursuant to and for the purposes of any applicable regulations on "golden power" as set out in Decree-Law no. 21 of 15 March 2012, and/or any other regulatory provision or measure that may be issued (the "**Authorization Condition**"); and

date, outside of the Offeror's sphere of control, involving significant negative changes in the political, financial, economic, currency, regulatory or market situation, whether domestic or international, which have substantially detrimental effects on the Offer and/or on the equity, financial, economic or earnings situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for 31December 2020, or (ii) events or situations concerning the ASTM Group outside the sphere of control of the Offeror and not known to the Offeror and/or the market as at the Date of the Offer Document that involve, or could reasonably involve, materially detrimental changes in the business of the ASTM Group and/or the equity, financial, economic or earnings situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for the year ended 31 December 2020, (the "MAC Condition"). It is understood that this MAC Condition also includes, among others, all the events, listed in points (i) and (ii) above, that may occur as a result of, or in connection with, the spread of the COVID-19 pandemic which, despite being a reality in the public domain as of the Date of the Offer Document, may entail consequences that are not currently foreseen or foreseeable in any way or in any area of business, including, but not limited to, any crisis, temporary and/or permanent blockade and/or closure of financial and manufacturing markets and/or restrictions on mobility in the context of motorway traffic, which would have a substantially detrimental effect on the Offer and/or changes in the equity, economic or financial situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for the year ended 31 December 2020.

The Offeror has identified the Threshold Condition referred to in letter a) above based on its desire to make a significant investment in the Shares and to bring about the Delisting of the Issuer. In the event that the Threshold Condition is not fulfilled, the Offeror reserves the unquestionable right to waive, at any time, the Threshold Condition and to purchase a lower quantity of Shares, provided that—upon completion of the Offero-the Offeror holds a total of more than 66.67% of the capital stock of ASTM net of Treasury Shares, counting in the Offeror's shareholding the Shares held by the Persons Acting in Concert and any Shares acquired by the Offeror and the Persons Acting in Concert outside of the said Offer in accordance with applicable legislation.

The Offeror reserves the right to waive, or modify, in whole or in part, one or more of the Conditions of the Offer at any time and at its sole discretion (and, as regards the Authorization Condition, to the extent permitted by law), in accordance with the provisions of article 43 of the Issuers' Regulations, by giving notice pursuant to article 36 of the Issuers' Regulations.

#### 2. LEGAL FRAMEWORK AND REASONS FOR THE OFFER

The Offer was communicated to Consob and the market by means of a notice issued on 20 February 2021, also pursuant to Art. 102, paragraph 1, CLF and Article 37, paragraph 1, of the Issuers' Regulations (the "Offeror's Communication").

Moreover, on 12 March 2021, the Offeror filed the Offer Document with Consob pursuant to Article 102, paragraph 3, of CLF and communicated it to the market by means of a specific press release.

The Offer represents the means by which the Offeror intends to acquire all the Shares Subject to the Offer and, consequently, to proceed with the Delisting.

Therefore—should the relevant conditions occur—the Offeror does not intend to restore a float sufficient to ensure the regular trading of the Shares.

In particular, by means of the Offer and the Delisting, the Offeror intends to allow for a reorganization of the Issuer aimed at further strengthening it, an operation that will be more easily achievable as an unlisted company.

In this regard, the Offeror believes that future programs relating to the Issuer, as also specified in Section G, Paragraph G.2.1 of the Offer Document, can be more easily and effectively pursued in a situation of total control and after removing ASTM's listed company status. In fact, this situation is normally characterized by lower costs and an increased degree of managerial and organizational flexibility in light of the advantages arising from the simplification of the ownership structure. In the event of the concentration of all the ordinary shares of ASTM in the possession of the Offeror and the Persons Acting in Concert with the Offeror, the limitations imposed by law in the presence of minority shareholders and

the ordinary costs deriving from the disclosure obligations associated with listed company status would be eliminated. Further operational flexibility could be achieved in the context of the private capital market, both in relation to the structuring of new operations aimed at growth through external lines and in relation to the management of existing initiatives.

Following the completion of the Offer (including the possible fulfillment of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF and/or exercise of the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF and of the Purchase Right pursuant to art. 111 of CLF), the Offeror intends to continue to support the development of the Issuer, consolidating and enhancing the scope of its current activities and at the same time taking advantage of any future growth opportunities in Italy and abroad, in line with a strategic policy aimed at enhancing the business in the medium-long term.

The Offeror therefore does not rule out the possibility of assessing in the future, at its own discretion, any market opportunities aimed at the aforementioned internal and/or external growth of the Issuer, including the opportunity to carry out extraordinary transactions, such as, purely by way of example, acquisitions, sales, mergers, spin-offs, concerning the Issuer or any of its assets or business units and/or capital increases, the execution of which could have dilutive effects on the Issuer's shareholders.

The Offer will not change in any way the industrial approach adopted by the ASTM Group in the management of motorway infrastructures under concession, nor will it affect the implementation of investment plans or the fulfillment of maintenance obligations set out in the concession agreements, thus fully safeguarding the financial soundness of each single licensee.

If the Delisting is not achieved after completion of the Offer, the Offeror reserves the right to achieve the objective of the Delisting, subject to the approval of the competent corporate bodies, by means of the merger by incorporation of the Issuer into the Offeror (unlisted company), or into another unlisted company of the group headed by Nuova Argo Finanziaria. The merger by incorporation of the Issuer into the Offeror would be a transaction between related parties subject to the relevant applicable regulations and could qualify, if necessary, as a "merger with indebtedness" with the consequent application of art. 2501–*bis* of the Italian Civil Code. It should be noted that in this scenario, NAF 2—which would hold an equity investment in the Issuer (possibly together with the Persons Acting in Concert) such as to ensure the approval of the Merger by the Extraordinary Shareholders' Meeting of the Issuer—would maintain its voting right at the ASTM Shareholders' Meeting.

In any case, the Offeror reserves the right to evaluate in the future, at its discretion, the implementation of any further extraordinary operations and/or corporate and business reorganization that may be considered appropriate, in line with the objectives and reasons of the Offer, as well as with the objectives of strengthening ASTM, both in the absence of removal of the Issuer's ordinary shares from the stock market listing, and in the event of Delisting. In the latter case, the Offeror reserves the right to proceed, subject to approval by the competent corporate bodies, with the reverse merger of NAF 2 into ASTM, without prejudice to the applicability of Article 2501–*bis* of the Italian Civil Code.

In any case, it should be noted that, as at today's date, no formal decisions have been taken by the competent bodies of the companies that might be involved in such possible extraordinary transactions.

#### 3. CONSIDERATION FOR THE OFFER AND MAXIMUM DISBURSEMENT

The Offeror will pay to each Tendering Shareholder a Cash Consideration equal to EUR 25.60 for each Share tendered in acceptance of the Offer.

The Consideration is net of stamp duty, if applicable, and of any fees, commissions and expenses which will be borne by NAF 2. The substitute tax on capital gains, if due, will be borne by the Tendering Shareholders.

The Consideration has been determined, therefore, on the assumption that the Issuer does not approve or implement, before the Payment Date, any distribution of ordinary or extraordinary dividends from profits or reserves; in such case the Consideration shall be automatically reduced by an amount equal to the dividend per Share.

As explained in Section E, Paragraph E.1.1, of the Offer Document, the Consideration reflects: (i) a premium equal to 28.8% with respect to the official price of the Shares as of 19 February 2021, (the last Trading Day prior to the dissemination of the Offeror's Communication); and (ii) a premium equal to

36.3% with respect to the volume-traded weighted average of the official prices recorded by the Shares during the six months preceding the Announcement Date (inclusive).

It is specified that, in the determination of the Consideration, no appraisals were obtained and/or used that were prepared by independent parties or aimed at assessing its fairness.

The Consideration reflects the following premiums with respect to the official prices of the Shares for the reference periods indicated in the following table:

#### 4. MARKETS WHERE THE OFFER IS MADE

The Offer is being made in Italy, as the Shares are listed on the MTA, which is organized and managed by Borsa Italiana, and, except as indicated below, is subject to the disclosure and procedural requirements of Italian law.

The Offer is also being made in the United States of America pursuant to Section 14(e) of the U.S. Securities Exchange Act of 1934 ("**Exchange Act**") and Regulation 14E under the Exchange Act, subject to the exemptions contemplated by Rule 14d-1 under the Exchange Act ("**Cross-Border Exemptions**").

U.S. investors should note that the disclosure and procedural requirements applicable to the Offer differ significantly from those that would apply to a US tender offer, including the requirements that would apply in the absence of the Cross-Border Exemptions. Moreover, the Conditions of the Offer do not provide for the possibility for Tendering Shareholders to withdraw their acceptance during the Acceptance Period, including in the event of Reopening of the Terms following a possible waiver of the Threshold Condition, other than in the cases of revocation allowed by the Italian law for accepting competing offers. In addition, the rules relating to "*Going Private Transactions*" under Rule 13e–3 under the Exchange Act shall not apply to the Offer.

Provided that market conditions are met, and within the limits allowed by the applicable regulations, including Rule 14e-5 under the Exchange Act, as well as in compliance with the practice applicable in Italy, the Offeror (and/or the Persons Acting in Concert) reserves the right to purchase, after the Announcement Date, also outside of the Offer, Shares of the Issuer on the market with the aim to further increase its stake in the capital stock of the Issuer. To the extent that the information relating to these purchases is made available to the public in Italy, the same information will be made public by means of a press release or equivalent means of communication in order to also inform the Issuer's shareholders in the United States. No purchases will be made outside of the Offer in the United States of America by, or on behalf of, the Offeror and/or the Persons Acting in Concert. If purchases are made at prices in excess of the Consideration, the latter will be adjusted accordingly.

Neither the United States Securities Exchange Commission (SEC) nor any other state regulatory authority in the United States has approved or disapproved this Offer, nor will it comment on the adequacy or completeness of the Offer Document or any other document relating to the Offer.

The Offer is not and will not be made or disseminated in Canada, Japan and Australia, or in any other country in which such an Offer is not permitted in the absence of authorization by the competent authorities or other compliance by the Offeror (collectively, the "**Other Countries**").

The Offer shall not constitute and shall not be construed as an offer of financial instruments addressed to persons residing in the Other Countries. No instrument may be offered and/or sold in the Other Countries without specific authorization in accordance with the applicable provisions of the local law of such Countries or on the basis of specific exemptions and/or derogations from such provisions.

Acceptance of the Offer by parties residing in countries other than Italy and the United States of America may be subject to specific obligations or restrictions provided for by legal or regulatory provisions. It is the sole responsibility of the recipients of the Offer to comply with such regulations and, therefore, to verify their existence and applicability by contacting their advisors and complying with such regulations prior to joining the Offer.

For further details on the promotion of the Procedure in the United States of America, please refer to Section F, Paragraph F.4 of the Offer Document.

For the notice to holders of Shares residing in the United States of America, please refer to Section A, Paragraph A.14 of the Offer Document.

#### A. IMPORTANT INFORMATION

#### A.1 Conditions for the effectiveness of the Offer

The effectiveness of the Offer is subject to all the following conditions (the "Conditions of the Offer"):

- a) that the acceptances to the Offer concern a total number of Shares such as to allow the Offeror to hold, following the Offer, a total shareholding of more than 90% of the Company's capital stock (the "**Threshold Condition**"), taking into account in the Offeror's shareholding the Shares held by the Persons Acting in Concert, Treasury Shares and the Shares possibly acquired by the Offeror and the Persons Acting in Concert outside of the Offer itself in compliance with the applicable law;
- b) that no communications have been received, from any authority, within the second Trading Day prior to the Payment Date, where this is required by the applicable regulations, relating to the exercise of vetoes and/or remarks and/or the imposition of conditions on the Offer, also pursuant to and for the purposes of any applicable regulations on "golden power" as set out in Decree-Law no. 21 of 15 March 2012, and/or any other regulatory provision or measure that may be issued (the "**Authorization Condition**"); and
- c) That, by the second Trading Day prior to the Date of Payment of the Consideration, there has been no occurrence of: (i) extraordinary and unforeseeable events or situations as at today's date, outside of the Offeror's sphere of control, involving significant negative changes in the political, financial, economic, currency, regulatory or market situation, whether domestic or international, which have substantially detrimental effects on the Offer and/or on the equity, financial, economic or earnings situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for the year ended 31 December 2020, or (ii) events or situations concerning the ASTM Group outside the sphere of control of the Offeror and not known to the Offeror and/or the market as at the Date of the Offer Document that involve, or could reasonably involve, materially detrimental changes in the business of the ASTM Group and/or the equity, financial, economic or earnings situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for the year ended 31 December 2020, (the "MAC" Condition). It is understood that this MAC Condition also includes, among others, all the events, listed in points (i) and (ii) above, that may occur as a result of, or in connection with, the spread of the COVID-19 pandemic which, despite being a reality in the public domain as of the Date of the Offer Document, may entail consequences that are not currently foreseen or foreseeable in any way or in any area of business, including, but not limited to, any crisis, temporary and/or permanent blockade and/or closure of financial and manufacturing markets and/or restrictions on mobility in the context of motorway traffic, which would have a substantially detrimental effect on the Offer and/or changes in the equity, economic or financial situation of the ASTM Group compared to the situation shown on the Issuer's consolidated financial statements for the year ended 31 December 2020.

The Offeror has identified the Threshold Condition referred to in letter a) above based on its desire to make a significant investment in the Shares and to bring about the Delisting of the Issuer. In the event that the Threshold Condition is not fulfilled, the Offeror reserves the unquestionable right to waive, at any time, the Threshold Condition and to purchase a lower quantity of Shares, provided that—upon completion of the Offero-the Offeror holds a total of more than 66.67% of the capital stock of ASTM net of Treasury Shares, counting in the Offeror's shareholding the Shares held by the Persons Acting in Concert and any Shares acquired by the Offeror and the Persons Acting in Concert outside of the said Offer in accordance with applicable legislation.

The Offeror reserves the right to waive, or modify, in whole or in part, one or more of the Conditions of the Offer at any time and at its sole discretion (and, as regards the Authorization Condition, to the extent permitted by law), in accordance with the provisions of article 43 of the Issuers' Regulations, by giving notice pursuant to article 36 of the Issuers' Regulations.

Pursuant to article 36 of the Issuers' Regulations, the Offeror will communicate the fulfillment or non-fulfillment of the Conditions of the Offer, or, if one or more Conditions of the Offer have not been fulfilled, the possible waiver of such Condition(s), and shall give notice within the following deadlines:

- a) with regard to the Threshold Condition, preliminarily, with the notice on the provisional results of the Offer which will be released by the evening of the last day of the Acceptance Period and, in any case, by 7:59 a.m. of the first Trading Day following the end of the Acceptance Period;
- b) with regard to the Authorization Condition, by 7:59 a.m. of the Trading Day preceding the Consideration Payment Date; and
- c) with regard to the MAC Condition, by 7:59 a.m. of the Trading Day preceding the Consideration Payment Date.

If even one of the Conditions of the Offer is not fulfilled and the Offeror does not exercise its right to waive it, the Offer will not be completed. In such a scenario, any Shares tendered in acceptance of the Offer will be made available to the Tendering Shareholders by the Trading Day following the date on which the failure to complete the Offer is first notified. The Shares will thus return to the possession of the Tendering Shareholders by means of the Intermediary Depositaries, without any charge or expense to them.

For further information, please refer to Section F of the Offer Document.

#### A.2 Approval of the Issuer's financial reports and interim management reports

On 19 March 2021, the Board of Directors of the Issuer met and approved the draft financial statements and the consolidated financial statements as at 31 December 2020.

The financial report for the year ended 31 December 2020—including the Issuer's consolidated financial statements and financial statements as at 31 December 2020—shall be available in accordance with legal and regulatory terms following approval by the competent corporate bodies of ASTM on the Issuer's website <u>www.astm.it</u>.

The Shareholders' Meeting of the Issuer, called to approve the above-mentioned financial statements of ASTM, is scheduled for 29 April 2021, with subsequent dissemination of the related press release which will be made available on the Issuer's website www.astm.it.

Section B, Paragraph B.2.6 of the Offer Document, shows the accounting information relating to the ASTM Group taken from the consolidated financial statements for the year ended 31 December 2020, approved by the ASTM Board of Directors on 19 March 2021.

#### A.3 Information on the financing of the Offer

The maximum disbursement in case of full acceptance of the Offer by all the holders of the Shares will be equal to EUR 1,713,609,728.

#### A.3.1 Methods of financing the Offer

In order to meet the financial requirements deriving from the payment obligations connected with the Offer, calculated on the assumption of total acceptance of the Offer by all the holders of the Shares, and therefore equal to the Maximum Disbursement, the Offeror will make use of a loan granted by JPMorgan Chase Bank N.A., Milan Branch, in its capacity as, inter alia, underwriter and by a pool of lending banks (together with JPMorgan Chase Bank N.A., Milan Branch, the "Lending Banks"), pursuant to the Financing Agreement entered into on 29 March 2021 (the "Financing Agreement Signing Date").

Pursuant to the Financing Agreement, the Lending Banks have made available to the Offeror a line of credit for an amount of up to EUR 1,765,000.00 to be used, inter alia, to finance the issuance of the performance guarantees, the payment of the Consideration to be paid by the Offeror for the purchase of the Shares Subject to the Offer and the additional transaction costs and financial charges that the Offeror would incur in the event of a successful outcome of the Offer.

Also under the terms of the Financing Agreement, some of the Lending Banks have made a line of credit available to ASTM, in the event of a successful outcome of the Offer, to be used, inter alia, to refinance ASTM's existing debt.

The credit lines granted under the Financing Agreement shall be repaid in a lump sum at maturity, which shall originally occur 12 months after the earlier of (i) the date falling six months after the Signing Date

of the Financing Agreement, and (ii) the first Payment Date on which the Offeror acquires a total of more than 66.67% in the capital stock of ASTM (including the Shares held by Persons Acting in Concert and any shares purchased from the Offeror and from Persons Acting in Concert outside of the Offer itself in accordance with the applicable regulations) net of Treasury Shares (the "Acquisition Date"), and which may be extended at the option of the Offeror for two successive periods of six months each up to a maximum of two years from the earlier of the Signing Date of the Financing Agreement and the Acquisition Date.

The Financing Agreement provides for the application of an interest rate equal to the sum of a margin, the value of which is subject to quarterly increases of 0.25% p.a., from a minimum of 0.75% p.a. (until the third month following the Acquisition Date) up to a maximum of 2.50% p.a., and the EURIBOR rate.

Finally, it should be noted that the Financing Agreement includes, among the commitments undertaken by the Offeror, the completion of the Merger within 15 months from the Signing Date of the Financing Agreement. Should the Offer be successful but the Merger is not completed within the contractually envisaged timeframe, a significant event would occur under the terms of the Financing Agreement and would give the Lending Banks the right to demand the immediate repayment of the loan. In this situation, the Offeror shall act promptly to acquire alternative medium–long term funding sources.

For further information on the Merger, please see Section A.5.1 of the Offer Document.

For further information on the financing arrangements, please refer to Section G, Paragraph G.1 of the Offer Document.

#### A.3.2 Performance guarantee

On 1 April 2021, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A., as banks issuing the performance guarantee under the Financing Agreement, issued the Cash Confirmation Letter in favor of the Offeror, pursuant to Article 37-*bis* of the Issuers' Regulations.

Pursuant to the Cash Confirmation Letter, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have irrevocably and unconditionally undertaken to make available, to the Intermediary Appointed to Coordinate the Collection of Acceptances, the amount due by the Offeror as consideration for the Shares tendered in acceptance of the Offer up to a maximum total amount equal to the Maximum Disbursement. Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. will disburse the aforementioned amounts at the simple request of the Intermediary Appointed to Coordinate the Collection of Acceptances, without benefit of prior enforcement by the Offeror and without prejudice to any exceptions, so as to enable the latter to make the payments due on the relevant payment dates on behalf of the Offeror.

In addition to the above, pursuant to the Financing Agreement, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have also undertaken—in the event of a Purchase Obligation pursuant to art. 108, paragraph 1, of CLF or a Purchase Obligation pursuant to art. 108, paragraph 2, of CLF and the fulfillment of the relevant legal requirements—to issue an additional performance guarantee to fulfill the Offeror's obligation pursuant to Art. 108, paragraph 1, of CLF or the Purchase Obligation pursuant to Art. 108, paragraph 2, of CLF or the Purchase Obligation pursuant to Art. 108, paragraph 2, of CLF or the Purchase Obligation pursuant to Art. 108, paragraph 2, of CLF.

Finally, under the terms of the Financing Agreement, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have also undertaken—in the event that the Offeror exercises the Purchase Right pursuant to art. 111 of the CLF and the relevant legal requirements are met—to issue an additional performance guarantee of the Offeror's obligations to pay the entire price of all the Shares that will be acquired by the Offeror in execution of the Purchase Right.

For further information, please refer to Section G, Paragraph G.1.2 of the Offer Document.

## A.4 Issuer's related parties

It should be noted that, pursuant to the law and to the regulation containing provisions on transactions with related parties adopted by Consob with resolution no. 17221 of 12 March 2010, as subsequently amended and in force as at the Date of the Offer Document (the "**Related Parties Regulations**"), the Offeror is a related party of the Issuer given that both are subject to the common control of Nuova Argo

#### Finanziaria.

As regards the relevant direct and indirect shareholders of the Offeror, as at the Date of the Offer Document, (i) Nuova Argo Finanziaria, which directly controls the Issuer, and (ii) Aurelia, which indirectly controls the Issuer through Nuova Argo Finanziaria, are to be considered related parties of the Issuer, pursuant to the Related Parties Regulations.

Finally, it should be noted that the directors of the Offeror are related parties, since:

- Alberto Rubegni holds the office of Chairman of ASTM, a company in which he holds 0.018% of ASTM capital stock, Managing Director of Nuova Argo Finanziaria, Chairman of SINA S.p.A., Chairman of IGLI S.p.A., Director of SINELEC S.p.A., IGLI do Brasil Partecipacoes LTDA, Itinera Infrastructure and Concessions Inc., as well as holding the position of Sole Director of Nuova Codelfa;
- Stefano Mion is a Director of ASTM and Nuova Argo Finanziaria; moreover, for the sake of completeness, it should be pointed out that Stefano Mion is Senior Managing Director and Co-Head of Ardian Infrastructure Americas (a company belonging to the group headed by Ardian SAS).

For a graphical representation of the Offeror's chain of command as at the Date of the Offer Document, see Paragraph B.1.4 of the Offer Document.

#### A.5 Reasons for the Offer and future plans of the Offeror in relation to the Issuer

The Offer represents the means by which the Offeror intends to acquire all the Shares Subject to the Offer and, consequently, to proceed with the Delisting.

Therefore—should the relevant conditions occur—the Offeror does not intend to restore a float sufficient to ensure the regular trading of the Shares.

More specifically, through the Offer and the Delisting, the Offeror intends to make possible a reorganization of the Issuer aimed at further strengthening it, an operation that can be more easily pursued by taking the status of unlisted company.

In this regard, the Offeror believes that the future programs relating to the Issuer, as also specified in Section G, Paragraph G.2.1 of the Offer Document, can be more easily and effectively pursued in a situation of total control and loss of listed company status by ASTM. In fact, this situation is normally characterized by lower costs and an increased degree of managerial and organizational flexibility in light of the advantages arising from the simplification of the ownership structure. In the event of the concentration of all the ordinary shares of ASTM in the possession of the Offeror and the Persons Acting in Concert with the Offeror, the limitations imposed by law in the presence of minority shareholders and the ordinary costs deriving from the disclosure obligations associated with listed company status would be eliminated. Further operational flexibility could be achieved in the context of the private capital market, both in relation to the structuring of new operations aimed at growth through external lines and in relation to the management of existing initiatives.

Following the completion of the Offer (including the possible fulfillment of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF and/or exercise of the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF and of the Purchase Right pursuant to art. 111 of CLF), the Offeror intends to continue to support the development of the Issuer, consolidating and enhancing the scope of its current activities and at the same time taking advantage of any future growth opportunities in Italy and abroad, in line with a strategic policy aimed at enhancing the business in the medium-long term.

The Offeror therefore does not rule out the possibility of assessing in the future, at its own discretion, any market opportunities aimed at the aforementioned internal and/or external growth of the Issuer, including the opportunity to carry out extraordinary transactions, such as, purely by way of example, acquisitions, sales, mergers, spin-offs, concerning the Issuer or any of its assets or business units and/or capital increases, the execution of which could have dilutive effects on the Issuer's shareholders.

The Offer will not change in any way the industrial approach adopted by the ASTM Group in the management of motorway infrastructures under concession, nor will it affect the implementation of investment plans or the fulfillment of maintenance obligations set out in the concession agreements,

thus fully safeguarding the financial soundness of each single licensee.

The macroeconomic context which the Offeror has taken into account in the decision to make the Offer and in the determination of the Consideration is that following the outbreak of COVID-19 pandemic. From the Offeror's point of view, the pandemic has had a significant and structural impact on the Issuer's activities and on its economic and financial profitability, as shown also by the evolution of share prices. This impact can be seen directly from the traffic trend on the main motorway concessions belonging to the Issuer, whose significant decrease, and recovery to levels comparable to pre-COVID-19 pandemic levels, which is expected by the Offeror only in the medium term, imply a structural decrease in the Issuer's valuation.

#### A.5.1 Merger

#### (A) Merger in the absence of Delisting

In the event that the Offeror (together with the Persons Acting in Concert) does not achieve a shareholding threshold in the Issuer of over 90% and therefore the Delisting is not achieved, the Offeror reserves the right to achieve the Delisting, subject to approval by the competent corporate bodies, by means of merger by incorporation of the Issuer into the Offeror (unlisted company), or into another unlisted company in the group headed by Nuova Argo Finanziaria. The merger by incorporation of the Issuer into the Offeror would be a transaction between related parties subject to the relevant applicable regulations and could qualify, if necessary, as a "merger with indebtedness" with the consequent application of art. 2501-*bis* of the Italian Civil Code. It should be noted that in this scenario, NAF 2— which would hold an equity investment in the Issuer (possibly together with the Persons Acting in Concert) such as to ensure the approval of the Merger by the Extraordinary Shareholders' Meeting of the Issuer—would maintain its voting right at the ASTM Shareholders' Meeting.

The shareholders of the Issuer that did not take part in adopting the resolution approving the merger would have the right of withdrawal, pursuant to art. 2437–*quinquies* of the Italian Civil Code, since in exchange they would receive shares not listed on a regulated market. If the withdrawal right is exercised, the liquidation value of the shares would be determined pursuant to art. 2437–*ter*, paragraph 3 of the Italian Civil Code, making exclusive reference to the arithmetic mean of the closing prices during the six months prior to the publication of the notice of call of the meeting convened to approve the Merger.

In specific, it is noted that, assuming a closing price of the Shares equal to Euro 25.60 per Share for every Trading Day after 29 March 2021, and also assuming, for purposes of illustration, that the meeting notice for the shareholders' assembly called to approve the Merger is published on 30 May 2021, or, alternatively, on 30 Jun 2021, the withdrawal value would be equal to Euro 23.11 per Share for the former, and to Euro 23.94 per Share for the latter. The Offeror assumes that the price for every single ASTM Share is equal to the Consideration starting from the Offer Document Date, in the opinion of Offeror, the Consideration represents the only certain valuative reference in regard to the future value of the Shares.

It is also noted that: (i) the withdrawal value, as determined above, could differ, even significantly, from the Consideration; and (ii) the Issuer's shareholders who decided not to exercise the withdrawal right would be holders of financial instruments that are not traded on any regulated market, with consequent difficulties in liquidating their investment in the future.

In any case, the Offeror reserves the right to evaluate in the future, at its discretion, the implementation of any further extraordinary operations and/or corporate and business reorganization that may be considered appropriate, in line with the objectives and reasons of the Offer, as well as with the objectives of strengthening ASTM, both in the absence of removal of the Issuer's ordinary shares from the stock market listing, and in the event of Delisting. In the latter case, the Offeror reserves the right to proceed, subject to approval by the competent corporate bodies, with the reverse merger of NAF 2 into ASTM, without prejudice to the applicability of Article 2501–*bis* of the Italian Civil Code.

#### Impact of the Merger on the level of indebtedness

If the Merger is completed, the total residual debt borne by the merging companies would flow into the merged company. Therefore, the Issuer's assets would be a source of repayment of the aforementioned debt and, consequently, holders of Shares of the Issuer who had not joined the Offer or exercised the right of withdrawal would become holders of a stake in the capital stock of a company with a level of indebtedness higher than that prior to the Merger.

Following the Announcement Date, the Fitch and Moody's rating agencies issued, respectively, on 26 February 2021, and 8 March 2021, comments, available on the www.astm.it website, in the "Investor Center – Credit rating" section, on the potential effects of the increase in the level of indebtedness on the credit score of the Issuer. These comment notes from the Fitch and Moody's ratings agencies assume that the Offeror comes to hold 100% of the issuer's capital and thus the assumption of the entire debt.

In this regard, without prejudice to the possible application of the provisions of art. 2501-bis of the Italian Civil Code on mergers following acquisition with indebtedness, on the basis of the information available on the date of this Offer Document, the Offeror is of the opinion that, despite the increase in the level of indebtedness, the Issuer has a capital size and income capacity such as to ensure the sustainability of its financial debt also following the Merger, all the more so if the Merger takes place in the event that the Offeror comes to hold a stake of less than 100% of the Issuer's capital and therefore with the assumption of a lower level of indebtedness than that assumed in the analysis of the Fitch and Moody's rating agencies.

It should be noted that in order to meet the repayment obligations in relation to the amounts due under the Financing Agreement (including capital and interest), it is not excluded that recourse will be made, as appropriate, to the use of cash flows deriving from the possible distribution of dividends and/or available reserves (where they exist), the Issuer and/or, in the event of a Merger, the use of the Issuer's cash flows.

#### (B) Post-Delisting merger

In the event that Delisting has been obtained, the Offeror reserves the right to proceed, subject to the relative approval by the competent corporate bodies, to the reverse merger of NAF 2 into ASTM, without regard to the applicability of Art. 2501 – *bis* of the Italian Civil Code.

Shareholders of the Issuer who: (i) remain such in the event of the offeror's achievement (together with the Persons acting in concert) of a stake of between 90% and 95% of the issuer's capital stock, and (ii) have not contributed to the resolution approving the Merger, it would be the right of withdrawal exclusively to the use of one of the cases provided for by art. 2437 civ., with the exception of the cases referred to in Art. 2437, paragraph 2, of the Italian Civil Code, as required by art. 6 of the Statute, i.e. in cases of extension of the time limit and introduction or removal of restrictions on the movement of shares. The liquidation value of the shares subject to withdrawal, where provided for, would be determined in accordance with Art. 2437-ter, paragraph 2, of the Italian Civil Code, taking into account the size of the Issuer's assets and its income prospects as well as the possible market value of the shares.

In this regard, it should be noted that the withdrawal value, as determined above, may differ, even to a significant extent, from the Consideration.

In the event that the Merger is completed, the total residual debt borne by the merging companies would flow into the merged company. Therefore, the issuer's assets would be a source of repayment of the aforementioned debt and, consequently, holders of Shares of the Issuer who had not joined the Offer or exercised the right of withdrawal, would become holders of a stake in the capital stock of a company with a level of indebtedness *before* the Merger.

The Offeror also does not exclude the possibility of evaluating, at its discretion, the implementation – in addition to or as an alternative to the Merger operations (with the Issuer) – of any other extraordinary transactions that may be considered appropriate in the light of the objectives and reasons of the Offer such as, but not limited to, acquisitions, further and different mergers and/or capital increases.

On the Date of the Offer Document, the Offeror has not made any formal decision in relation to the foregoing.

It should be noted that in order to meet the repayment of the amounts due under the Financing Agreement (including capital and interest), it is not excluded that recourse will be made, as appropriate, to the use of cash flows deriving from the possible distribution of dividends and/or available reserves (where they exist), the Issuer and/or, in the event of a Merger, the use of the Issuer's cash flows.

#### A.6 Notifications and authorizations for the execution of the Offer

The Offer is not in itself conditional on obtaining any authorization.

In order to make the Offer, it is necessary to issue the prior notification provided for in respect of intragroup transactions by Decree-Law no. 21 of 15 March 2012, containing provisions on the subject of special powers of the Government, as subsequently amended and modified.

In this regard, it should be noted that, on 26 February 2021, the Offeror proceeded to issue, at the Prime Minister's Office, the notification provided for by Legislative Decree no. 21/2012 concerning the Offer (the **"Golden Power Notification**"). In fact, the effectiveness of the Offer is subject to the fulfillment, or waiver (to the extent permitted by law), of the Authorization Condition, i.e., inter alia, to the fact that, by 7:59 a.m. on the Trading Day prior to the Consideration Payment Date, no communications have been received from the Prime Minister's Office concerning the exercise of vetoes and/or objections and/or the imposition of conditions on the Offer, pursuant to and for the purposes of the provisions of Law Decree no. 21/2012.

For further information, please refer to Section C, Paragraph C.3 of the Offer Document.

# A.7 Application of articles 39-*bis* (Opinion of the Independent Directors) and 40-*bis* (Reopening of the Terms) of the Issuers' Regulations

The provisions providing for the preparation of the opinion of the Issuer's independent directors who are not related parties of the Offeror pursuant to Article 39-*bis*, paragraph 1, letter a), no. 1), of the Issuers' Regulations apply to this Offer, since Nuova Argo (Person acting in Concert with the Offeror and holder of the entire capital stock of NAF 2) holds a stake higher than the threshold set out in Article 106 of CLF.

Therefore, pursuant to Article 39-*bis* of the Issuers' Regulations, prior to the approval of the Issuer's Notice, the independent directors of the Issuer who are not related parties of the Offeror will need to draft the Opinion of the Independent Directors, containing their assessments of the Offer and the fairness of the Consideration.

As also indicated in Section F, Paragraph F.1.1 of the Offer Document, it should be noted that, by the Trading Day following the Payment Date, the Acceptance Period shall be reopened for five Trading Days, namely for the sessions of 18, 19, 20, 21 and 24 May 2021, unless the Acceptance Period is extended if the Offeror, upon publication of the Notice of Results of the Offer, announces that it has waived the Threshold Condition.

The Consideration will remain unchanged and, therefore, the Offeror will pay each Tendering Shareholder during the Reopening of the Terms a cash Consideration of EUR 25.60, which will be paid on the fifth Trading Day following the end of the Reopening of the Terms period, i.e., on 31 May 2021, unless the Acceptance Period is extended.

Pursuant to article 40-*bis*, paragraph 1, letter a) of the Issuers' Regulations, the terms for accepting the Offer will be reopened for a further period of five Trading Days from the day following the Payment Date, if the Offeror, having reached the threshold of 66.67% of the capital stock of ASTM net of Treasury Shares, with the Offer's stake including the Shares held by Persons Acting in Concert and any Shares acquired from the Offeror and from Persons Acting in Concert outside of the Offer itself but in accordance with applicable regulations, but not the threshold of 90%, resulting in the non-fulfillment of the Threshold Condition, communicates that it wishes to waive the aforementioned Threshold Condition.

# A.8 Declaration of the Offeror in relation to the Purchase Obligation pursuant to Art. 108, paragraph 2, of CLF and the right to restore the float pursuant to Art. 108 of CLF

The Offeror intends to carry out the Delisting of the Shares. Consequently, in the event that, as a result of the Offer, including the Reopening of the Terms if applicable, the Offeror (together with the Persons Acting in Concert) comes to hold, as a result of acceptances to the Offer and any purchases made outside of the Offer, pursuant to applicable legislation, by the end of the Acceptance Period, as may be reopened following the Reopening of the Terms, a total shareholding of more than 90%, but less than 95%, of the Issuer's capital stock, the Offeror hereby declares its intention not to restore a float sufficient to ensure regular trading of the Shares.

For the purposes of calculating the threshold provided for by Art. 108, paragraph 2, of CLF, the Treasury

Shares are added to the total stake held by the Offeror and the Persons Acting in Concert considered jointly.

If the conditions are met, NAF 2 will therefore fulfill its obligation to purchase the remaining Shares from the shareholders of the Issuer who so requested, pursuant to art. 108, paragraph 2, of CLF (the "**Purchase Obligation pursuant to art. 108, paragraph 2, of CLF**"). The consideration for the fulfillment of the Purchase Obligation procedure pursuant to Art. 108, paragraph 2, of CLF will be determined pursuant to Art. 108, paragraph 3 or paragraph 4 being applicable depending on the number of Shares tendered in response to the Offer, and, as applicable, may be equal to the Consideration or determined by Consob in accordance with the criteria set out in Article 50, paragraphs 4 and 5, of the Issuers' Regulations<sup>2</sup>.

The Offeror will indicate in the notice on the final results of the Offer, which will be published by the Offeror, pursuant to Article 41, paragraph 6, of the Issuers' Regulations (the "Notice on the Results of the Offer"), whether or not the conditions are fulfilled for the Purchase Obligation under Article 108, paragraph 2, of CLF. In such a case, the Notice on the Results of the Offer will contain indications on (i) the number of residual Shares (both in terms of number of Shares and in percentage value compared to the entire capital stock of the Issuer); (ii) the terms and conditions under which NAF 2 will execute the Purchase Obligation pursuant to article 108, paragraph 2, of CLF; and (iii) the terms and the timing of the Delisting of the Shares.

Following the satisfaction of the conditions of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF, Borsa Italiana—pursuant to article 2.5.1, paragraph 6, of the Stock Exchange Regulations—will order the Delisting starting from the first Trading Day following the Payment Date of the Consideration relating to the procedure aimed at executing the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF, without prejudice to the provisions of Paragraph A.9. Therefore, following the execution of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF, the Shares will be delisted and the shareholders of the Issuer who have decided not to tender their Shares and who have not requested NAF 2 to purchase their Shares, pursuant to art. 108 of CLF, will be holders of financial instruments that are not traded on any regulated market, with consequent possible difficulties in liquidating their investment in the future.

For further information, please refer to Section G, Paragraph G.3 of the Offer Document.

# A.9 Declaration by the Offeror to avail itself of the purchase right under Art. 111 of CLF and declarations regarding the Purchase Obligation under Art. 108, paragraph 1 of CLF

In the event that, upon completion of the Offer, including the Reopening of the Terms if applicable, the Offeror (together with the Persons Acting in Concert) comes to hold, as a result of the acceptances to the Offer and of any purchases made outside of the Offer pursuant to applicable laws and regulations, by the end of the Acceptance Period, as reopened following the Reopening of the Terms if applicable, and as a result of the execution of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF, a total stake equal to at least 95% of the Issuer's capital stock, the Offeror hereby declares its intention to exercise its right to purchase the remaining Shares pursuant to Article 111 of CLF (the "**Purchase Right**").

NAF 2, if the conditions are met, by exercising the Purchase Right, will also fulfill the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF, vis-à-vis the Issuer's shareholders who have so requested (the "**Purchase Obligation pursuant to art. 108, paragraph 1, of CLF**"), thus implementing a single procedure (the "**Joint Procedure**").

The Purchase Right will be exercised as soon as possible after the conclusion of the Offer or of the

<sup>&</sup>lt;sup>2</sup> Explanatory note for the benefit of non-Italian shareholders (not included in the Italian Tender Offer Document) of the criteria set out in Article 50, paragraphs 4 and 5, of the Issuers' Regulations. The criteria provide that Consob will take into account (i) the Consideration, also in light of the amount of acceptances received, (ii) the weighted average trading share prices of the Shares in the prior six month period, (iii) the value attributed to the Shares or to the Issuer by any existing valuation reports prepared by independent experts based on criteria commonly accepted in financial analysis as of a date no more than six months prior to event triggering the Purchase Obligation and (iv) any other purchases of Shares in the prior twelve months period made by the Offeror or its concert parties.

procedure for the execution of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF.

For the purposes of calculating the threshold provided for by Art. 108, paragraph 1, of CLF and Art. 111 of CLF, the Treasury Shares are added to the total stake held by the Offeror and the Persons Acting in Concert considered jointly.

The consideration due for the Shares acquired through the exercise of the Purchase Right and the execution of the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF will be determined pursuant to art. 108, paragraphs 3 or 4, of CLF, with paragraph 3 or paragraph 4 being applicable depending on the number of Shares tendered in response to the Offer, and, as applicable, may be equal to the Consideration or determined by Consob according to the criteria set forth in article 50, paragraphs 4 and 5, of the Issuers' Regulations.

The Offeror will disclose, in a specific section of the Notice of Results of the Offer, whether or not the conditions for the exercise of the Purchase Right have been satisfied. If affirmative, information will also be provided on: (i) the quantity of residual Shares (both in terms of number of Shares and percentage value in relation to the entire capital stock); (ii) the terms and conditions by which the Offeror will exercise the Purchase Right and simultaneously fulfill the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF, implementing the Joint Procedure; and (iii) the terms and timing of the Delisting of the Issuer's Shares.

Pursuant to art. 2.5.1, paragraph 6, of the Stock Exchange Regulations, in the event of exercise of the Purchase Right, Borsa Italiana shall order the suspension and/or Delisting of the Issuer's Shares, taking into account the timeframe contemplated for the exercise of the Purchase Right.

For further information, please refer to Section G, Paragraph G.3 of the Offer Document.

#### A.10 Possible low float

In the event that, upon completion of the Offer, including the Reopening of the Terms if applicable, the conditions set out in art. 108, paragraph 2, of CLF, are not satisfied, and the Offeror waives the Threshold Condition and comes to hold a total of more than 66.67% of ASTM's capital stock— net of Treasury Shares – including in the Offeror's stake the Shares held by the Persons Acting in Concert and any Shares acquired by the Offeror and the Persons Acting in Concert outside of the said Offer in accordance with applicable legislation—it cannot be ruled out that a low float situation may occur, such that regular trading of the Shares may not be guaranteed. In such a case, Borsa Italiana may order the suspension and/or the delisting of the Shares pursuant to article 2.5.1 of the Stock Exchange Regulations.

In this regard, it should be noted that, even in the presence of a low float, the Offeror does not intend to implement measures aimed at restoring the minimum float conditions for regular trading of the Shares, as the applicable legislation does not impose any obligation in this regard.

In the event of delisting of the Shares, it should be noted that the owners of the Shares who did not accept the Offer will be owners of financial instruments that are not traded on any regulated market, with consequent difficulties in liquidating their investment in the future.

For further information, please refer to Section G, Paragraph G.3 of the Offer Document.

#### A.11 Potential conflicts of interest between the parties involved in the Offer

With reference to the relationships between the parties involved in the Offer, the following should be noted.

- Alberto Rubegni holds the office of Chairman of ASTM, a company in which he holds 0.018% of the capital stock, Managing Director of Nuova Argo Finanziaria, Chairman of NAF 2, Chairman of SINA S.p.A., Chairman of IGLI S.p.A., Director of SINELEC S.p.A., IGLI do Brasil Partecipacoes LTDA, Itinera Infrastructure and Concessions Inc., as well as Sole Director of Nuova Codelfa;
- Stefano Mion is a Director of ASTM, Nuova Argo Finanziaria and NAF 2; moreover, for the sake of completeness, it should be pointed out that Stefano Mion is Senior Managing Director and Co-Head of Ardian Infrastructure Americas (a company belonging to the group headed by Ardian SAS).

In addition: (i) J.P. Morgan Securities plc acts as sole financial advisor to Nuova Argo in relation to the Offer, and will therefore receive commissions in relation to the financial services provided; (ii) J.P. Morgan AG acts as arranger and bookrunner, and (iii) JPMorgan Chase Bank N.A., Milan Branch acts as underwriter of the financing (for information on this, please refer to Section G of the Offer). In the performance of its activities, JPMorgan Chase Bank N.A., Milan Branch or other companies of the J.P. Morgan Group provide and may provide in the future advisory, corporate finance or investment banking financial services as well as grant and may in the future grant further financing, or provide various services, to the Offeror or the ASTM Group. It should also be noted that the J.P. Morgan Group holds less than 1% of the Issuer's capital stock. In the ordinary course of business, the J.P Morgan Group could actively trade ASTM's debt and equity securities on its own behalf or on behalf of clients and, consequently, take long or short positions in such securities at any time.

It should be noted that in the context of the Offer:

- (i) UniCredit Bank A.G., Milan Branch, acts as an Intermediary Appointed to Coordinate the Collection of Acceptances of the Offer, and
- (ii) UniCredit S.p.A. holds the role of bank guarantor for the Offeror's exact fulfilment of the obligations to pay the Consideration.

UniCredit Bank A.G., Milan Branch and UniCredit S.p.A. are therefore in a situation of potential conflict of interest, as they will receive fees as consideration for the services provided in relation to their roles. In addition, UniCredit S.p.A., as of the Date of the Offer Document, has financing relations with the Issuer, and in the future may, also through subsidiaries or related companies, provide lending, consulting, corporate finance and/or investment banking services in favor of the Issuer and the other companies of its group, in exchange for which it may receive commissions.

### A.12 Possible alternative scenarios for shareholders to whom the Offer is addressed

For the sake of clarity, the possible scenarios for the Issuer's current shareholders are illustrated below, in the event that the Offer:

- (i) is completed (a) as a result of the fulfillment of the Conditions of the Offer or, alternatively (b) as a result of the Offeror waiving the Conditions of the Offer, distinguishing the case of acceptance of the Offer from the case of non-acceptance of the Offer; or it is not completed as a result of the Conditions of the Offer not being fulfilled and without the Offeror waiving them.
- (ii) is not completed as a result of the Conditions of the Offer not being met without the Offeror waiving them.

#### A.12.1 Possible alternative scenarios for the holders of the Shares

#### (A) Acceptance of the Offer

In case of fulfillment of the Conditions of the Offer (or in case of waiver of the Conditions of the Offer by the Offeror) and, therefore, completion of the Offer, the Issuer's shareholders who have accepted the Offer during the Offer Period will receive the Consideration equal to EUR 25.60 for each Share tendered in acceptance of the Offer.

The Consideration will be paid on the fifth Trading Day following the end of the Acceptance Period and, therefore, on 17 May 2021 (unless the Acceptance Period is extended in accordance with applicable regulations).

In such case and as also indicated in Section F, Paragraph F.1.1, of the Offer Document, pursuant to article 40–*bis*, paragraph 1, letter a) of the Issuers' Regulations, the terms for accepting the Offer will be reopened for a further period of five Trading Days from the day following the Payment Date, i.e., for days 18, 19, 20, 21 and 24 May 2021, if the Offeror, having reached the threshold of 66.67% of the capital stock of ASTM net of Treasury Shares, with the Offeror's stake including the Shares held by Persons acting in Concert and any Shares purchased from the Offeror and from Persons Acting in Concert outside of the Offer itself but in accordance with the applicable regulations, but not the threshold of 90%, resulting in the non–fulfillment of the Threshold Condition, communicates that it wishes to waive the aforementioned Threshold Condition.

It should be recalled that the ASTM Board of Directors meeting on 19 March 2021, which approved the draft financial statements relating to the company's financial year ending on 31 December 2020, did not propose the distribution of any dividends, reserving the right to evaluate the possibility of calling a Shareholders' Meeting by the end of the 2021 financial year to propose a possible distribution of reserves should the economic and epidemiological outlook improve. Therefore, should – after the closure of the Acceptance Period (including any Reopening of the Terms) – a Shareholders' Meeting be held to decide on the possible distribution of the dividends, these dividends would not be paid to Shareholders who accept the Offer.

#### (B) Non acceptance of the Offer

In case of fulfillment of the Conditions of the Offer (or in case of waiver by the Offeror of the Conditions of the Offer) and, therefore, of completion of the Offer, the shareholders of the Issuer who have not accepted the Offer during the Acceptance Period would face one of the possible scenarios described below.

(B.1) Acquisition of a shareholding of at least 95% of the Issuer's capital stock, both as a result of acceptances of the Offer and of any purchases made outside of the Offer pursuant to applicable regulations by the end of the Acceptance Period, as possibly extended or reopened following the Reopening of the Terms, or the execution of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF

In the event that, following the completion of the Offer, as a result of the acceptances to the Offer and of any purchases of Shares made outside of the said Offer in accordance with the applicable regulations during the Acceptance Period and/or during the period of Reopening of the Terms and/or in execution of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF, the Offeror and the Persons Acting in Concert will hold a total stake equal to at least 95% of the Issuer's capital stock, the Offeror will initiate (also on behalf of the Persons Acting in Concert) the Joint Procedure for the exercise of the Purchase Right and the execution of the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF. In such a case, the holders of Shares who have not adhered to the Offer will be obliged to transfer to the Offeror the ownership of the Shares held by them and, accordingly, for each Share held by them they will receive a consideration determined pursuant to article 108, paragraph 3 or 4, CLF, with paragraph 3 or paragraph 4 applying depending on the number of Shares tendered in acceptance of the Offer, and, as applicable, may be equal to the Consideration or determined by Consob in accordance with the criteria set out in article 50, paragraphs 4 and 5, of the Issuers' Regulations.

It should be noted that, for the purposes of calculating the thresholds set out in Articles 108 and 111 of CLF, the Treasury Shares are added to the total stake held by the Offeror and the Persons Acting in Concert considered jointly.

Following the fulfillment of the prerequisites for the Purchase Right and the Purchase Obligation of the Shares pursuant to Article 108, paragraph 1, of CLF, pursuant to Article 2.5.1, paragraph 6, of the Stock Exchange Regulations, Borsa Italiana will order the suspension and/or delisting of the Issuer's ordinary shares, taking into account the timeframe contemplated for the exercise of the Purchase Right.

(B.2) Acquisition of a shareholding of more than 90%, but less than 95% of the Issuer's capital stock, both as a result of acceptances of the Offer and of any purchases made outside of the Offer pursuant to applicable regulations by the end of the Acceptance Period, as possibly extended or reopened following the Reopening of the Terms

In the event that, upon completion of the Offer, as a result of acceptances to the Offer and of purchases of Shares possibly made outside the said Offer in accordance with applicable regulations during the Acceptance Period and/or during the period of Reopening of the Terms, the Offeror and the Persons Acting in Concert come to hold a total stake of more than 90%, but less than 95%, of the Issuer's capital stock, the Offeror hereby declares its intention not to restore a float sufficient to ensure regular trading of the Issuer's Shares.

In such a circumstance, the Purchase Obligation pursuant to Art. 108, paragraph 2 of CLF, will be fulfilled by the Offeror at a consideration per Share determined pursuant to Art. 108, paragraphs 3 or 4, CLF, with paragraph 3 or paragraph 4 applying depending on the number of Shares tendered in response to the Offer, and, as applicable, may be equal to the Consideration or determined by Consob according to the criteria set out in Article 50, paragraphs 4 and 5, of the Issuers' Regulations. The Offeror will

communicate the possible satisfaction of the conditions for the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF in compliance with the applicable regulations.

It should be noted that, for the purposes of calculating the thresholds set out in Article 108 of CLF, the Treasury Shares are added to the total stake held by the Offeror and the Persons Acting in Concert considered jointly.

It should be noted that, following the fulfillment of the conditions for the Purchase Obligation under Art. 108, paragraph 2, of CLF, pursuant to Article 2.5.1, paragraph 6, of the Stock Exchange Regulations, Borsa Italiana will order the delisting of the Issuer's ordinary shares from the stock exchange starting from the Trading Day following the day of payment of the consideration for the Purchase Obligation under Art. 108, paragraph 2, of CLF. Therefore, following the fulfillment of the conditions of the Purchase Obligation under art. 108, paragraph 2, of CLF. Therefore, following the Shares who did not accept the Offer and who did not request the Offeror to purchase their Shares under the Purchase Obligation under art. 108, paragraph 2, of CLF (without prejudice to the provisions set out in point (3) below), will be owners of financial instruments that are not traded on any regulated market, with the consequent difficulty of liquidating their investment.

# (B.3) Failure of the Offeror to reach a stake higher than 90% of the capital stock

The Issuer's Shareholders who did not accept the Offer would remain owners of (listed) Shares. Without prejudice to the considerations and warnings regarding the possible low float referred to in Paragraph A.10, which could lead to the Delisting, the Offeror reserves the right to achieve the objective of the Delisting through the merger by incorporation of the Issuer into the Offeror (unlisted) or into another unlisted company of the group headed by Nuova Argo Finanziaria.

In this regard, referring to Paragraph A.5.1 above with reference to the Merger and to Section G, Paragraph G.2.1 for further information, it is noted that:

- the Issuer's Shareholders who did not take part in the resolution approving the Merger would have the right of withdrawal pursuant to art. 2437-*quinquies* of the Italian Civil Code, since—as a consequence of the exchange—they would receive shares of the acquiring company which are not listed on a regulated market;
- (ii) the liquidation value of the shares subject to withdrawal would be determined pursuant to Article 2437-*ter*, paragraph 3, of the Italian Civil Code, with reference to the arithmetic average of the closing prices during the six months preceding the publication of the notice of call of the meeting called to resolve on the Merger; in particular, it should be noted that, assuming a closing price of the Shares equal to Euro 25.60 per Share for each Trading Day after 29 March 2021, and also assuming, for illustrative purposes, that the notice of a shareholders' meeting called to approve the merger by Delisting is published on 30 May 2021, or, alternatively, on 30 June 2021, the withdrawal value would be equal to Euro 23.11 per Share, in the former case, and to Euro 23.94 per Share in the latter. The Offeror assumed that the price of each individual Share of ASTM is equal to the Consideration from the Date of the Offer Document because, in the opinion of the Offeror, the Consideration represents the only certain evaluative reference regarding the future value of the Shares.

\* \* \* \* \*

By way of illustration only, the following table provides an indication of how the Consideration that an ASTM shareholder might receive in the event of a divestment of its shares in ASTM is determined in the (among other) potential divestment scenarios set out below.

Potential investors should bear in mind that the table below does not illustrate all possible divestment scenarios that might materialize in the context of or after the Offer. The scenarios below are based, inter alia, on certain assumptions regarding potential future events that may occur, and actions that the Offeror may decide to take; there is no guarantee that such events will actually occur or that such actions will actually be taken. As a consequence, potential investors should not place undue reliance on the scenarios below.

## A.13 Issuer's Statement

By effect of and pursuant to the combined provisions of Articles 103, paragraph 3, of CLF and Article 39 of the Issuers' Regulations, the Issuer is required to issue to the market, by the last Trading Day before the first day of the Acceptance Period, an announcement containing all useful information for the evaluation of the Offer and its own assessment of the Offer (the "**Issuer's Press Release**"), which shall be accompanied by the Opinion of the Independent Directors.

### A.14 Notice to Holders of Shares Resident in the United States

The Offer is being made in Italy, as the Shares are listed on the MTA, which is organized and managed by Borsa Italiana, and, except as indicated below, is subject to the disclosure and procedural

requirements of Italian law.

The Offer is also being made in the United States of America pursuant to Section 14(e) of the U.S. Securities Exchange Act of 1934 ("**Exchange Act**") and Regulation 14E under the Exchange Act, subject to the exemptions contemplated by Rule 14d–1 under the Exchange Act ("**Cross–Border Exemptions**").

U.S. investors should note that the disclosure and procedural requirements applicable to the Offer differ significantly from those that would apply to a US tender offer, including the requirements that would apply in the absence of the Cross-Border Exemptions. Moreover, the Conditions of the Offer do not provide for the possibility for Tendering Shareholders to withdraw their acceptance during the Acceptance Period, including in the event of Reopening of the Terms following a possible waiver of the Threshold Condition, other than in the cases of revocation allowed by the Italian law for accepting competing offers. In addition, the rules relating to "*Going Private Transactions*" under Rule 13e–3 under the Exchange Act shall not apply to the Offer.

Provided that market conditions are met, and within the limits allowed by the applicable regulations, including Rule 14e-5 under the Exchange Act, as well as in compliance with the practice applicable in Italy, the Offeror (and/or the Persons Acting in Concert) reserves the right to purchase, after the Announcement Date, also outside of the Offer, Shares of the Issuer on the market with the aim to further increase its stake in the capital stock of the Issuer. To the extent that the information relating to these purchases is made available to the public in Italy, the same information will be made public by means of a press release or equivalent means of communication in order to also inform the Issuer's shareholders in the United States. No purchases will be made outside of the Offer in the United States of America by, or on behalf of, the Offeror and/or the Persons Acting in Concert. If purchases are made at prices in excess of the Consideration, the latter will be adjusted accordingly.

Neither the United States Securities Exchange Commission (SEC) nor any other state regulatory authority in the United States has approved or disapproved this Offer, nor will it comment on the adequacy or completeness of the Offer Document or any other document relating to the Offer.

The Offer is not and will not be made or disseminated in Canada, Japan and Australia, or in any other country in which such an Offer is not permitted in the absence of authorization by the competent authorities or other compliance by the Offeror (collectively, the "**Other Countries**").

The Offer shall not constitute and shall not be construed as an offer of financial instruments addressed to persons residing in the Other Countries. No instrument may be offered and/or sold in the Other Countries without specific authorization in accordance with the applicable provisions of the local law of such Countries or on the basis of specific exemptions and/or derogations from such provisions.

Acceptance of the Offer by parties residing in countries other than Italy and the United States of America may be subject to specific obligations or restrictions provided for by legal or regulatory provisions. It is the sole responsibility of the recipients of the Offer to comply with such regulations and, therefore, to verify their existence and applicability by contacting their advisors and complying with such regulations prior to joining the Offer.

For further details on the promotion of the Procedure in the United States of America, please refer to Section F, Paragraph F.4 of the Offer Document.

# A.15 Critical issues related to the national and international macroeconomic context; the health emergency linked to the COVID-19 pandemic

As of the Date of the Offer Document, the national and international macroeconomic environment is seriously affected by the health emergency linked to the COVID-19 pandemic. Therefore, considerable uncertainties remain regarding the evolution and effects of this pandemic, the adoption of measures by the authorities regarding the resumption of production activities and the economic recession that could ensue.

With regard to the Offeror's corporate business, no significant impact is expected, considering that NAF 2 has never carried out any economic activity, as explained in Paragraph B.1.7.

With regard to the Issuer, the COVID-19 pandemic significantly reduced national and international mobility and consequently had a significant impact on the business of the ASTM Group, leading to a

sharp drop in operations and commercial activities. Specifically, measures taken to counteract the spread of the COVID-19 virus, such as, primarily, restrictions regarding domestic and international travel, as well as the decreased propensity of much of the population to travel given the health risk, have had and will continue to have a significant impact on the mobility-related industry.

From the Offeror's point of view, the pandemic has had a significant and structural impact on the Issuer's activities and on its economic and financial profitability, as shown also by the evolution of share prices. This impact can be seen directly from the traffic trend on the main motorway concessions belonging to the Issuer, whose significant decrease, and recovery to levels comparable to pre-COVID-19 pandemic levels, which is expected by the Offeror only in the medium term, imply a structural decrease in the Issuer's valuation.

With reference to the future plans on the management of the Issuer (as also described in Section G Paragraph G.2 of the Offer Document), the Offeror, taking into account the existing circumstances and the circumstances which are reasonably foreseeable as at the Date of the Offer Document, does not expect significant changes related to the impact of the COVID-19 pandemic.

"Total assets" recorded an increase of EUR 26,895 thousand, mainly due to the effect of the investments made during the year for the purchase of: (i) 477,002 ASTM shares for a total disbursement of EUR 13,228 thousand; (ii) 744,395 SIAS S.p.A. shares for a total disbursement of EUR 11,154 thousand.

It should be noted that on 31 December 2019, the subsidiary ASTM incorporated SIAS S.p.A. with legal effect on the same date, but with accounting and tax effect backdated to 1 January 2019.

"Total liabilities" recorded an increase equal to EUR 26,895 thousand, mainly due to (i) the increase in "Payables to banks," equal to EUR 17,997 thousand, due to the taking out in 2019 of a new loan for EUR 5,000 thousand with UBI Banca S.p.A. and two short-term loans with Unicredit S.p.A. and UBI Banca S.p.A. for respective EUR 10,000 thousand, aimed at the investments mentioned above; (ii) the increase in "Payables to companies subject to control by the parent companies," equal to EUR 2,290 thousand, attributable to the transfer to Nuova Argo of the pro-rata share of the tax losses carried forward by the spun-off company Argo Finanziaria S.p.A.

It should be noted that the aforementioned loans are not secured by mortgages or other guarantees.

The following table provides details of the breakdown of the composition of the net financial debt as at 31 December 2019 and 2018, determined in accordance with CONSOB Communication No. 6064293 of 28 July 2006, and in compliance with ESMA/2013/319 recommendations.

Operating activities generated liquidity of EUR 17,125 thousand in the year ended 31 December 2019, and EUR 12,984 thousand in the year ended 31 December 2018. This positive change is mainly attributable to: (i) to the increase in "Profit (loss) for the fiscal year," and (ii) to the increase in "Variations in net working capital."

Investment activities absorbed cash of EUR 24,386 thousand in the year ended 31 December 2019, and EUR 7,150 thousand in the year ended 31 December 2018, mainly due to higher cash flows absorbed by equity investments in ASTM and SIAS S.p.A., amounting to EUR 13,228 thousand and EUR 11,153 thousand, respectively.

Funding activities generated liquidity of EUR 6,897 thousand in the year ended 31 December 2019, while they absorbed cash of EUR 5,000 thousand in the year ended 31 December 2018. With reference to the 2019 fiscal year, we mainly point out the effects of the new loans with Unicredit S.p.A. and UBI Banca S.p.A., mentioned above, the shareholders' payment in capital account for EUR 12,500 thousand and the distribution of dividends for EUR 23,600 thousand.

As at the date of the Offer Document, ASTM is indirectly and solely controlled by Aurelia, through Nuova Argo Finanziaria, pursuant to Article 2359 of the Italian Civil Code and Article 93 of CLF. Moreover, ASTM is subject to management and coordination activities by Nuova Argo Finanziaria, pursuant to Articles 2497 et seq. of the Italian Civil Code.

The shareholder agreements that are currently in place do not affect the control of ASTM, which is indirectly and solely exercised by Aurelia, through Nuova Argo, pursuant to Article 93 of CLF.

As at the Offer Document Date, the following shareholders' agreements have been published, pursuant to Article 122 of CLF and Article 130 of the Issuers' Regulations:

(i) the Shareholders' Agreement signed on 27 September 2018, by Aurelia and Mercure, aimed at regulating the terms and conditions of their relationship as shareholders of Nuova Argo Finanziaria and concerning, among other things, governance and share transfers of Nuova Argo Finanziaria and ASTM. On 13 June 2019, in the context of the merger by incorporation of SIAS S.p.A. into ASTM, which was approved by their respective Boards of Directors on the same day,

<sup>&</sup>lt;sup>3</sup> Of which 8,571,040 shares are directly held, 2,149,408 shares are held through SINA S.p.A. and 21,500 shares are held through ATIVA S.p.A.

<sup>&</sup>lt;sup>4</sup> Source: Bloomberg (September-2020).

Aurelia and Mercure signed an amendment agreement to the Shareholders' Agreement (the "**Amendment Agreement**") that integrated and updated the text of certain provisions of that agreement to take into account the effects of the merger by incorporation of SIAS S.p.A. into ASTM;

- Aurelia SHA signed, on 13 June 2019, by Aurelia, Mercure and Nuova Argo Finanziaria and which became effective as from 31 December 2019, (effective date of the said merger by incorporation of SIAS S.p.A. into ASTM), aimed at regulating certain governance profiles and the transfer of ASTM shares directly owned by Aurelia;
- (iii) the New Shareholders' Agreement signed on 8 September 2020, by Mercure, Nuova Argo and Aurelia to regulate certain aspects relating to the acquisition of equity investments in ASTM by Mercure as well as certain aspects of governance and the transfer of ASTM shares directly owned by Mercure;
- (iv) the Aurelia Commitment signed on 20 February 2021, by Aurelia, party of the first part, and Nuova Argo Finanziaria and NAF 2, party of the second part—the provisions of which, on the same date, Mercure declared its intention to make use of, pursuant to Article 1411 of the Italian Civil Code—with which Aurelia undertook (a) a commitment to Nuova Argo Finanziaria and NAF 2, inter alia, to tender all the 8,912,271 Shares held by it in ASTM, as well as (b) some irrevocable commitments as controlling shareholder of Nuova Argo;
- (v) the Mercure Commitment signed on 20 February 2021, by Mercure, party of the first part, and Nuova Argo Finanziaria and NAF 2, party of the second part—the provisions of which, on the same date, Mercure declared its intention to make use of, pursuant to Article 1411 of the Italian Civil Code—with which Mercure has undertaken (a) the commitment, in the event of a positive outcome of the Offer, inter alia, to contribute to Nuova Argo all the Shares it holds in ASTM at a unit value equal to the Consideration of the Offer, as well as (b) certain irrevocable commitments as a minority shareholder of Nuova Argo;
- (vi) the Reallocation Commitment signed on 20 February 2021, by Aurelia and Mercure whereby they have agreed, subject to the approval of their respective competent bodies and in the event of a successful outcome of the Offer and completion of the Merger, to the transfer from Aurelia to Mercure of a number of shares in Nuova Argo (at a price to be determined on the basis of the equity value of Nuova Argo calculated by multiplying the number of Shares held by Nuova Argo and NAF 2 by the Consideration, net of the indebtedness of Nuova Argo and NAF 2 pre-merger), such that Aurelia and Mercure will hold an equity interest in Nuova Argo equal to 50.5% and 49.5% of the relevant capital stock respectively, without prejudice to Aurelia's sole control over Nuova Argo and, indirectly, over ASTM. In the context of the restructuring under the Reallocation Commitment, therefore, the consideration for NAF shares under the Reallocation Commitment will be such as to make it possible to implicitly value the ASTM shares held by NAF in a manner consistent with the ASTM valuation underlying the Consideration.

For the sake of completeness, it should be noted that on 20 February 2021, Aurelia and Mercure have agreed on certain guidelines, effective subject to the Delisting of the Company, concerning certain amendments to the Shareholders' Agreement (aimed at simplifying the functioning of ASTM's corporate bodies). It is understood that these amendments will not have any impact on the governance and structure of ASTM (which will remain under the sole control of Aurelia) and will be limited to taking into account the termination of ASTM's status as a listed company.

For further information on the provisions of Aurelia SHA, of the Shareholders' Agreement, of the new Shareholders' Agreement, of the Aurelia Commitment, of the Mercure Commitment, and of the Reallocation Commitment, please refer to Section H, Paragraph H.2 of the Offer Document, as well as to the relevant extracts published pursuant to Article 122 of CLF and Articles 129 and 130 of the Issuers' Regulations contained in Section M of the Offer Document.,

"Total revenues" increased by Euro 37,378 thousand (+2%), mainly as a result of: (i) the increase (+48%) revenues "motorway sector – IFRIC 12 design and construction" that refer to the design and construction of goods free of charge; and (ii) the increase (+17%) of the "EPC sector" revenues *(engineering, procurement and construction) attributable to the considerable growth* in the volumes of activities carried out abroad by the Itinera Group mainly in the United States and the Middle East. These increases are partially offset by the reduction in revenues "motorway sector – operating activities" (-16%) due to the decrease in motorway traffic volumes resulting from the spread of the COVID-19 pandemic. With regard to revenues "motorway sector – operating activities" the aforementioned effect is due to the reduction in net toll revenues, from Euro 1.123.659 thousand at 31 December 2019 to Euro 847.528 thousand at 31 December 2020, partially offset by the effects of the consolidation with effect from 1 January 2020 of the toll revenues of the ATIVA Group, equal to Euro 99,200 thousand.

"Payroll costs" (+14%) increased by Euro 55,827 thousand, of which Euro 40.7 million due to the increase in the number of resources in *the EPC* sector *(engineering, procurement and construction) and* Euro 27.5 million due to the change in the consolidation area. These increases were offset by euro 12.4 million from the reduction in the cost of staff in the concessionaire sector.

"Costs for services" (+24%) the main increases are due to: (i) higher costs incurred in the EPC sector (engineering, procurement and construction) as a result of the increase in production: (ii) higher costs incurred for the construction of free reversible goods (IFRIC 12); and (iii) the consolidation of the economic balances of the ATIVA Group as of 1 January 2020 and the Tubosider Group from July 2020.

The "Costs for raw materials" (+10%) are mainly related to subsidiaries that are part of the *EPC (engineering, procurement and construction)* sectors. The increase recorded compared to the year ended 31 December 2019 is related to the higher volumes of production executed and the change in the consolidation area.

The "Gross Operating Profit (EBITDA)" fell by 31% from Euro 792.399 thousand at 31 December 2019 to Euro 547.784 thousand at 31 December 2020. This effect is mainly due to the decrease in revenues "motorway sector – operational management"; in particular in the item net toll revenues and the increase in "Personnel Costs", "Costs for Services" and "Costs for Raw Materials", as described above. Specifically, despite the decrease in volumes, in particular of the "motorway sector – operational management" the Group to maintain the full operation of the managed infrastructures and compliance with safety regulations for users and their employees, has recorded an increase in the incidence of the main cost items compared to revenues.

"Amortization, Depreciation and write-downs" are reduced (-30%), mainly as a result of lower depreciation of goods free of charge reversible due to lower traffic volumes and due to the loss of depreciation related to the SALT A12 section, the concession of which expired on July 31, 2019.

"Other provisions for risks and charges" are reduced (-67%), mainly as a result of a smaller provision (Euro 27.3 million at 31 December 2020, against Euro 83.4 million at 31 December 2019) for the subsidiaries SATAP SpA (trunk A21) and SALT p.A. (trunk A12) for the so-called "concessionary risk", which refers to the risk related to disputes in place or that could arise with the granant also with reference to the management of motorway sections that have expired.

"Financial income" is reduced by 52%. With reference to the 2019 financial year, this item included Euro 19.5 million relating to *the fair value valuation of the non-controlling interest previously held in the* ATIVA Group.

The "Profit (loss) for the period" is positive for Euro 143.772 thousand, down 15% compared to the year ended 31 December 2019, mainly due to the above.

It should be pointed out that in the year ended 31 December 2019 the "Profit (loss) of the period" had been negatively affected by the loss of the Brazilian subsidiary Ecorodovias Infraestrutura e Logistica of Euro 41.1 million.

"Non-current assets", amounting to Euro 4.787.177 thousand at 31 December 2020 (down 9.4% compared to 31 December 2019), are mainly made up of concessions for free reversible goods. The change in non-current assets is mainly attributable to the reduction in other non-current financial assets as a result of the reclassification from "Other non-current financial assets" to "current financial assets" of receivables relating to the value of motorway investments not depreciated on the date of expiry of the concessions of the subsidiaries ATIVA S.p.A., SATAP S.p.A. (trunk A21), SALT S.p.A. (trunk A12), as well as receivables accrued for investments made after the expiry of the investments to be settled to the outgoing concessionaire by the taking over dealership.

"Current assets", amounting to Euro 2.626.954 thousand at 31 December 2020, increased by 13.5% compared to 31 December 2019 mainly due to the registration of accrued receivables for investments made after the expiry of the concessions of the subsidiaries ATIVA S.p.A., SATAP S.p.A. (trunk A21), SALT S.p.A. (trunk A12), equal to Euro 729.7 million, only partly offset by the reduction in liquid assets and equivalent means.

The reduction in "Equity", from Euro 2.959.877 thousand at 31 December 2019 to Euro 2.933.325 thousand at 31 December 2020, it took place mainly as a result of the negative change in the main exchange differences related to the subsidiary Itinera S.p.A. and its subsidiaries, and to the jointly controlled subsidiaries Primav Infraestrutura S.A. and Ecorodovias Infraestrutura e Logistica S.A. and the related Road Link Holdings Ltd.

The following table details the composition of net financial debt at 31 December 2020 and 2019, as determined in accordance with CONSOB Communication No 6064293 of 28 July 2006 and in accordance with ESMA/2013/319 recommendations.

The improvement in net financial debt of Euro 503.767 thousand is largely attributable to the change in "Current Financial Receivables", as a result of the registration of the takeover credits accrued on the expired concessions of the subsidiaries ATIVA S.p.A., SATAP S.p.A. (trunk A21) and SALT S.p.A. (trunk A12), these credits (equal to Euro 729.7 million at 31 December 2020) are related to the value of motorway investments not depreciated on the expiry date of the concessions, as well as accrued credits for investments made after the expiry of the investments to be paid to the outgoing concessionaire by the taking over concessionaire.

The change in the item "Current bank debts", equal to Euro 206.193 thousand and euro 147.038 thousand at 31 December 2020 and 31 December 2019 respectively, it is attributable, for Euro 57.8

million, to the use by Autostrada Asti Cuneo S.p.A., Itinera S.p.A., Halmar International LLC and Storstroem Bridge JV of the available credit lines and for Euro 1.4 million to new loans disbursed to Halmar International LLC.

The items "Current part of non-current debt" and "Non-current bank debts", totalled Euro 1.465.214 thousand at 31 December 2020 and Euro 1.300.119 thousand at 31 December 2019, mainly refer to loans concluded by the ASTM Group.

The reduction in "Other current financial debts" is mainly due to the repayment of the 2010–2020 bond and the payment of interest and interest on other bonds of Euro 548.3 million.

Almost all medium- to long-term financing contracts in place at 31 December 2020 provide for compliance with certain usual economic and financial parameters (covenants) for loans of this nature. These parameters, until 31 December 2020, are met.

The item "Bonds issued", equal to Euro 1.041.629 thousand and Euro 1.040.228 thousand at 31 December 2020 and 2019 respectively, includes the values relating to:

Operating activities generated liquidity for Euro 476.947 thousand in the year ended 31 December 2020 and Euro 632.006 thousand in the year ended 31 December 2019. This negative change is mainly attributable to: (i) the reduction in EBITDA from Euro 792.399 thousand in the year ended 31 December 2019 to Euro 547.784 thousand in the year ended 31 December 2020; partially offset by (ii) higher cash flows generated by net working capital from positive Euro 17,731 thousand in the year ended 31 December 2019 to positive Euro 106.047 thousand in the year ended 31 December 2020.

Investment activities absorbed liquidity for Euro 610.580 thousand in the year ended 31 December 2020 compared to Euro 441.262 in the year ended 31 December 2019. This change is mainly attributable to:

- To the higher cash flows absorbed by net investments in euro 283.290 thousand reversible assets in the year ended 31 December 2019 to Euro 403.797 thousand in the year ended 31 December 2020;
- To the higher cash flows absorbed by net investments in non-current financial assets, from Euro 125.847 thousand in the year ended 31 December 2019 to Euro 189.681 thousand in the year ended 31 December 2020; with reference to the 2020 financial year: (i) the purchase of SITAF S.p.A. shares that absorbed liquidity for Euro 272.020 thousand; and (ii) the sale of Milano Serravalle shares that generated liquidity for Euro 78,308 thousand. With regard to the 2019 financial year, the main points are: (a) the acquisition of the stake equal to 10.19% of the capital stock of SITAF S.p.A. for Euro 53.6 million and the purchase of the stake equal to 31.17% of the

capital stock in SITAF S.p.A. for Euro 48.9 million; (b) the disbursement relating to the purchase of TE/TEM shares, amounting to Euro 22.8 million.

These effects were partially offset by lower cash flows absorbed by net investments in intangible and tangible assets, from Euro 32,125 thousand in the year ended 31 December 2019 to Euro 17,102 thousand in the year ended 31 December 2020.

Financial activity absorbed liquidity for Euro 192.570 thousand in the year ended 31 December 2020 compared to Euro 146.414 in the year ended 31 December 2019. ### Transactions with related parties

Below are the main relationships held by the Issuer with its related parties, identified according to the criteria defined by the procedure issued for related party transactions, in implementation of the provisions of art. 2391- bis civ. / IAS 24 and by the Regulation adopted by CONSOB by resolution no. 17221 of 12 March 2010 and subsequent amendments. This procedure, published in the "Procedures

and Documents" section available on the www.astm.it website, identifies the rules governing the approval, management and information to the public of transactions with related parties carried out by the ASTM Group, either directly or through subsidiaries, in order to ensure the transparency and substantive and procedural correctness of the transactions themselves.

The following table shows the economic and capital balances, of a commercial and financial nature, arising from relations with related parties.

In fact, the effectiveness of the Offer is dependent, inter alia, on the fact that, by 7:59 a.m. of the Trading Day prior to the Date of Payment of the Consideration, no communications have been received from the Presidency of the Council of Ministers concerning the exercise of vetoes and/or objections and/or the setting of conditions with regard to the Offer, pursuant to and for the purposes of the provisions of Decree Law No. 21/2012.

Unless indicated below, as at the Date of the Offer Document, the Offeror and (to the best of the knowledge of the Offeror) the Persons Acting in Concert have not entered into repurchase agreements, securities lending agreements, usufruct or pledge agreements covering the ASTM Shares, nor have they entered into any other commitments underpinned by the ASTM Shares (such as, purely by way of example, option, future, swap or forward contracts on such financial instruments), either directly or through trust companies, intermediaries or subsidiaries.

# E.1 INDICATION OF THE UNIT CONSIDERATION AND ITS DETERMINATION

The Offeror will pay to each Tendering Shareholder a Consideration equal to Euro 25.60 for each Share tendered in acceptance of the Offer and acquired by the Offeror.

The Consideration is net of stamp duty, if applicable, and of any fees, commissions and expenses which will be borne by NAF 2. The substitute tax on capital gains, if due, will be borne by the Tendering Shareholders in the Offer.

The Consideration has been determined on the assumption that the Issuer does not approve and implement, before the Payment Date, the distribution of ordinary or extraordinary dividends from profits or reserves; in this case, the Consideration shall be automatically reduced by an amount equal to the dividend per Share.

Except as illustrated below, it should be noted that, in determining the Consideration, the Offeror and the Persons Acting in Concert did not make use of independent appraisals aimed at assessing the fairness of the said Consideration. In particular, the Consideration has been determined by the Offeror (also on behalf of the Persons Acting in Concert), based on the market performance of the ASTM stock over the period of 1, 3, 6, 12 months prior to the Announcement Date.

# E.1.2.1 Criteria for the determination of the Consideration

In order to determine the Consideration, several methods and valuation criteria were identified, taking into account the specific features of the Issuer and in line with the best national and international

valuation practices for transactions of the same type. These methodologies, however, should not be analyzed individually, but considered an inseparable part of a unitary evaluation process.

Analyzing the results obtained from each methodology independently, without considering the evaluation process as a whole, would in fact result in the loss of significance of the entire evaluation process.

In light of these considerations, the following evaluation methodologies were identified:

- (i) stock quote method;
- (ii) analysis of ASTM's target prices published by brokers and major investment banks;

The Consideration was established by referring first of all to the stock quotes. This method determines the value of the company being valued, as market capitalization deriving from the prices of securities traded on regulated stock markets. In particular, this method is considered relevant for the valuation of listed companies. Professional theory and practice also suggest, in view of the potential short-term volatility, to take into account the results deducible from the stock quotes, including through the calculation of averages over different time frames weighted for the relevant trading volumes.

The quotes noted were observed in the context of various time periods prior to 19 February 2021, (inclusive), as on 20 February 2021, the Board of Directors of Nuova Argo approved the terms and conditions of the Offering and, on the same date, the financial markets were closed.

Stock quotes related to volume-weighted averages of 1-, 3-, 6-, and 12-month ASTM prices were considered. The choice of these reference periods is explained by the need to neutralize any short-term fluctuations in the level of the share price. In all periods considered, the Offeror has experienced a trend in weighted average stock market prices that are lower or slightly higher than the stock market price recorded on 19 February 2021.

In the context of the stock quote analysis, the Offeror also took note of the Issuer's stock price performance prior to the onset of the COVID-19 pandemic (specifically, prior to and including 21 February 2020) (<sup>8</sup>) and considered that their trend did not express, for the reasons already specified above, a value of the Issuer that can be considered reliable at today's date because it cannot be replicated in the short term. This is evidenced by the fact that the stock market prices of the Issuer relating to volume-weighted averages of 1-, 3-, 6-, 12-month prices in the time periods prior to 19 February 2021, (inclusive) were always lower than the prices recorded in the same time periods prior to 21 February 2020, (inclusive). This fact attests to the systemic nature of the incidence of the pandemic and excludes, in the Offeror's view, the possibility of considering stock quotes prior to the onset of the pandemic as an indicative tool of ASTM's current fundamental value.

The target prices of the ASTM stock resulting from research published by brokers and leading national and international investment banks, disclosed after the publication of the Issuer's financial results on 30 September 2020, i.e., after the month of November 2020 (inclusive), identified as the last period in which the Issuer provided the market with significant updates in relation to its operating activities such as to have a positive impact on the target prices, were also taken into account.

In this context, the simple average of the target prices considered in the analysis was EUR 25.57 (9) per ASTM share.

<sup>&</sup>lt;sup>8</sup> This date is conventionally identified by the Offeror as the day before the first death in Italy due to the COVID-19 pandemic (Source: OECD).

<sup>&</sup>lt;sup>9</sup> Reports from the following banks were considered: Intesa San Paolo (4 February 2021, 28.30 euros per share), Intermonte (3 February 2021, 20.00 euros per share), MainFirst (3 February 2021, 27.60 euros per share), Mediobanca (1 February 2021, 28.10 euros per share), Equita (27 January 2021, 27.20 euros per share), Banca Akros (18 January 2021, 26.00 euros per share), Societé Generale (16 November 2020, 23.40 euros per share), Kepler Cheuvreux (16 November 2020, 24.50 euros per share), Bank of America (13 November 2020, 25.00 euros per share) (Source: Bloomberg).

The analysis of the individual researches published by the brokers showed a substantial homogeneity of the various value components considered by the analysts for the purpose of determining the target prices, which include, inter alia, based on what is considered significant by each analyst, the approval—during the 2021 fiscal year—of the cross-financing transaction between the Asti-Cuneo motorway and SATAP-A4, the awarding by the ASTM Group of some tenders (10), as well as the consolidation of both the controlling position in SITAF S.p.A. and control of EcoRodovias.

Finally, no valuation methods were used in determining the Consideration, such as, inter alia, the *DCF* method with a Sum of The Parts valuation approach. This is mainly due to the lack of updated Issuer's industrial plans and related long-term economic and financial projections; moreover, the Offeror has not drawn up an independent industrial plan for the Issuer. The resulting uncertainty made the reliability of the *DCF* method of low significance in the context of the criteria followed in determining the Consideration.

# E.2 INDICATION OF THE TOTAL VALUE OF THE OFFER

The following table sets forth: i) the key indicators per share relating to the fiscal years ended 31 December 2020, and 31 December 2019, of the Issuer, ii) the key multipliers calculated based on the Offer Consideration and relating to the fiscal years ended 31 December 2020, and 31 December 2019, of the Issuer.

# Market Multiples Considerations in the Valuation of ASTM

ASTM is an industrial holding company that operates mainly in the highways concession sector (in Italy and Brazil) and in the EPC sector. ASTM has a peculiar business mix which is not very common in other listed companies and that makes it difficult to use the valuation metrics resulting from the application

<sup>&</sup>lt;sup>10</sup> More specifically, this concerns the tender for the freeway sections A12 Sestri Levante-Livorno, A11/A12 Viareggio-Lucca, A10 Savona-Ventimiglia and the tender for the freeway sections A21 Turin-Piacenza, A5 Turin-Quincinetto, the A4/A5 Ivrea-Santhià link road and the Turin bypass freeway system.

<sup>&</sup>lt;sup>11</sup> Relating to profit for the 2019 and 2018 fiscal years, respectively.

<sup>&</sup>lt;sup>12</sup> Related to the pro-forma numbers for the consolidation of SITAF S.p.A. and EcoRodovias based on public information, as prepared by the Offeror.

#### Freeway concession sector

Evaluations of highway concession operators take into account such parameters as:

- geographic location of concessions;
- average remaining duration of concessions;
- applicable regulatory systems with reference to, among other things, the performance profile and risk allocation between the grantor and the concessionaire;
- contractual model used (e.g. traffic and revenues risk, availability payment, shadow tolls)
- greenfield or brownfield nature of concessions;
- technical and infrastructural characteristics of the asset under concession (e.g. city freeways, long-distance highways, geographical features, age and type, tunnels, viaducts);
- risk and debt capital structure;
- any exchange rate risk (should the concessions be located in different countries);
- presence of consolidated or unconsolidated concessions (e.g. minorities);
- impact of recent extraordinary finance transactions.

#### EPC Sector

In contrast, assessments in the EPC sector depend on the following elements:

- geographic location of ongoing projects and backlog;
- type of contracts (e.g., lump sum, cost-plus-fee, measurement);
- captive or market risk activities

In view of the above, as stated, the Offeror believes that the market multiples method is of very limited relevance.

In addition, there are no operators comparable to ASTM on the Italian stock exchange, since neither Atlantia nor Autostrade Meridionali can be considered as such, for the following specific reasons.

A comparison with Atlantia's multiples does not appear possible due to:

- a heterogeneous business mix (freeway concessions, airports and payment services) and different from that of ASTM;
- a high incidence of non-operating debt deriving from extraordinary transactions (e.g. Abertis, Hoctief);
- an average remaining term of concessions at the consolidated level of 15 years compared to an average remaining term of 9 years for ASTM (source: Moody's);

the presence of significant surplus assets (e.g. Hochtief, Getlink) and minorities (e.g. Abertis/ACS).

The valuation of Autostrade Meridionali cannot be used due to the following reasons:

- characteristics of the issuer (small Italian freeway operator);
- uniqueness of the concession in the portfolio (among other things, already expired in 2012); insignificant trading volume.

It should also be noted that Autostrade Meridionali has a negative EV/EBITDA as the company's cash on hand is greater than its market capitalization, resulting in a negative Enterprise Value.

This situation derives from the fact that the only concession of the company (Tangenziale di Napoli and Tangenziale di Napoli-Salerno) expired on December 31, 2012 and, from that date, the management was extended until 2020.

In 2020, the concession was awarded to a third party and therefore the concessionaire company will soon have to transfer its only *asset* to the new entrant, making prospective flow considerations insignificant.

Although it is possible to calculate multiples relating to the price/capitalization of the company, for when described above, these parameters are not significant.

The criterion of multiples is of limited use even if the analysis is extended to companies listed on European stock exchanges.

In fact, taking the following main European operators as a reference, the main differential elements and individual specificities that make the use of market multiples insignificant are highlighted:

Vinci

- is an operator mainly active in contracting with a marginal exposure to concessions (around 20% of turnover), in particular highways and airports;
- the average remaining duration of the concessions is 14 years;

#### Eiffage

- is primarily a construction company that also operates in the engineering and French highway concession sectors, mainly through special-purpose concession operators. Construction activities account for approximately 85% of turnover, with freeway concessions accounting for the remaining 15%;
- the average residual duration of the concessions is 15 years;

ACS

 is an operator whose turnover derives approximately 80% from the EPC and concessions sector, while the remaining 20% comes from service activities;

Sacyr

- is an operator active in engineering and construction (around 52% of turnover), whilst around 20% derives from the Industrial Services sector (e.g. Repsol, Localiza). Revenues from the concessions sector, mainly greenfield under construction, represent only 28% of the total;
- the average remaining duration of the concessions is 13 years.

Notwithstanding the above, the following table shows some market multiples of the only listed European companies which, albeit to a limited extent, can be considered comparable with ASTM.

The above table does not include references to the multiples on cash flow and shareholders' equity as these are quantities that are not used as benchmarks in the freeway concessions sector.

## E.5 INDICATION, IF KNOWN, OF THE VALUES ATTRIBUTED TO THE FINANCIAL INSTRUMENTS OF THE ISSUER ON THE OCCASION OF FINANCIAL OPERATIONS CARRIED OUT IN THE LAST FISCAL YEAR AND IN THE CURRENT FISCAL YEAR (SUCH AS MERGERS AND SPIN-OFFS, CAPITAL INCREASES, PUBLIC OFFERS, ISSUES OF WARRANTS, TRANSFERS OF SIGNIFICANT PACKAGES)

As far as the Offeror is aware, during the fiscal year ended 30 December 2020, and the current fiscal year, with the exception of the merger by incorporation of SIAS S.p.A. into ASTM, no financial transactions were carried out—such as mergers and demergers, capital increases, public offers, warrant issues and transfers of significant packages—that led to a valuation of the Shares. In this context, it should be underlined that the assessments made by the financial advisors in the context of the merger by incorporation of SIAS S.p.A. into ASTM reflected a macroeconomic environment prior to the outbreak of the COVID–19 pandemic and were aimed at the relative valuation of SIAS S.p.A. with respect to the Issuer. The valuations carried out in the context of ASTM's partial voluntary tender offer for SIAS S.p.A., announced on 13 June 2019, were aimed at valuing only the assets of SIAS S.p.A. and reflected the same macroeconomic environment. The Offeror has not taken these valuations into account in the context of determining the Consideration.

## E.6 INDICATION OF THE VALUES AT WHICH PURCHASE AND SALE TRANSACTIONS HAVE BEEN CARRIED OUT, IN THE LAST TWELVE MONTHS, BY THE OFFEROR ON THE FINANCIAL INSTRUMENTS COVERED BY THE OFFER, SPECIFYING THE NUMBER OF TRANSACTIONS AND FINANCIAL INSTRUMENTS PURCHASED AND SOLD

In the last twelve months, i.e., the twelve months prior to the Announcement Date (i.e., 20 February 2021), the Offeror and (to the best of the Offeror's knowledge) the Persons Acting in Concert with the Offeror have not carried out any purchase or sale transactions involving ASTM Shares.

For the sake of completeness, it should also be noted that:

- Mr. Alberto Rubegni (Chairman of ASTM) declared that on 21 and 22 January 2021, he purchased, respectively, 20,200 ASTM shares at the unit price of EUR 18.7, and 5,600 ASTM shares at the unit price of EUR 18.139;
- (ii) Mr. Umberto Tosoni (Managing Director of ASTM) declared that on 21 January 2021, he purchased 5,100 ASTM shares at the unit price of EUR 18.7003;
- (iii) Ms. Gabriela Moraes (spouse of the Managing Director of ASTM) declared that on 25 January 2021, she purchased 2,000 ASTM shares at the unit price of EUR 17.985;
- (iv) Mr. Alberto Gargioni (Chief Financial Officer of ASTM) declared that on 22 January 2021, he purchased 5,400 ASTM shares at the unit price of EUR 18.95;
- (v) Mr. Stefano Viviano (ASTM Finance Manager) declared that on 22 January 2021, he purchased 1,500 ASTM shares at the unit price of EUR 18.2;
- (vi) Mr. Alberto Pernigotti (ASTM Administration, Budgeting and Control Manager) declared that on 22 January 2021, he purchased 1,500 ASTM shares at the unit price of EUR 18.094;

In addition, ASTM announced, at Mercure's request and on behalf of Mercure on 9 September 2020, that the latter had concluded, on the same date, the purchase of 2,263,636 ASTM shares, representing approximately 1.6% of ASTM's capital stock, through a reverse accelerated book-building procedure aimed exclusively at qualified investors and foreign institutional investors announced on 8 September 2020. The Consideration for the purchase of the said ASTM shares was equal to EUR 21 per share, for a total disbursement of approximately EUR 47.5 million.

Mercure purchased an additional 122,014 shares of ASTM on the market between 11 and 15 September 2020, at a maximum price of EUR 18.6 per share.

# F. TERMS AND CONDITIONS FOR ACCEPTANCE OF THE OFFER, DATES AND PROCEDURES FOR THE PAYMENT OF THE CONSIDERATION AND RETURN OF THE SECURITIES COVERED BY THE OFFER

# F.1 PROCEDURES AND TIME LIMITS ESTABLISHED FOR ACCEPTANCE OF THE OFFER AND FOR DEPOSITING THE FINANCIAL INSTRUMENTS

## F.1.1 Acceptance Period

The Acceptance Period, agreed with Borsa Italiana pursuant to Article 40, paragraph 2, of the Issuers' Regulations, shall have a duration of 20 business days (in compliance with applicable U.S. law by virtue of the initiation of the Offer also in the United States), and shall commence on 13 April 2021, and end on 10 May 2021 (inclusive), unless extended.

The acceptance of the Offer may take place on each Trading Day during the Acceptance Period between 8:30 a.m. and 5:30 p.m.

Pursuant to Article 40-*bis* of the Issuers' Regulations, by the Trading Day following the Payment Date, the Acceptance Period shall be reopened for five Trading Days (the "**Reopening of the Terms**"), namely for the sessions of 18, 19, 20, 21 and 24 May 2021, unless the Acceptance Period is extended if the Offeror, upon publication of the Notice of Provisional Results of the Offer, announces that it has waived the Threshold Condition.

The Consideration will remain unchanged and, therefore, the Offeror will pay each Tendering Shareholder during the Reopening of the Terms a cash Consideration of EUR 25.60, which will be paid on the fifth Trading Day following the end of the Reopening of the Terms period, i.e., on 31 May 2021, unless the Acceptance Period is extended.

Pursuant to article 40-*bis*, paragraph 1, letter a) of the Issuers' Regulations, the terms for accepting the Offer will be reopened for a further period of five Trading Days from the day following the Payment Date, if the Offeror, having reached the threshold of 66.67% of the capital stock of ASTM net of Treasury Shares, with the Offeror's stake including the Shares held by Persons Acting in Concert and any Shares purchased from the Offeror or from Persons Acting in Concert outside the offer itself, in accordance with applicable regulations, but not the threshold of 90%, resulting in the non-fulfillment of the Threshold Condition.

It should be recalled that the ASTM Board of Directors meeting on 19 March 2021, which approved the draft financial statements relating to the company's financial year ending on 31 December 2020, did not propose the distribution of any dividends, reserving the right to evaluate the possibility of calling a Shareholders' Meeting by the end of the 2021 financial year to propose a possible distribution of reserves should the economic and epidemiological outlook improve. Therefore, should – after the closure of the Acceptance Period (including any Reopening of the Terms) – a Shareholders' Meeting be held to decide on the possible distribution of the dividends, these dividends would not be paid to Shareholders who accept the Offer.

# F.1.2 Application procedure and deposit of the Issuer's Shares

Acceptances during the Acceptance Period or in the Reopening of the Terms, if any, by the holders of the Shares (or the representative who has the power to do so) are irrevocable, with the result that, following acceptance of the Offer, it will not be possible to transfer or make other acts of disposal of the Shares themselves for the entire period in which they remain linked to the service of the Offer (except in the cases of revocation permitted by the regulations in force to accept competing offers, pursuant to Article 44 of the Issuers' Regulations).

Acceptance to the Offer shall be made by signing and delivering to an Appointed Intermediary a specific acceptance form (the "Acceptance Form"), duly completed, with the deposit at the same time of the Shares with the said Appointed Intermediary. The Issuer's shareholders who intend to accept the Offer may also deliver the Acceptance Form and deposit the Shares indicated therein with the Depository Intermediaries, as long as the delivery and deposit are made in sufficient time to allow the Depository Intermediaries to deposit the Shares with the Appointed Intermediary by and no later than the last day of the Acceptance Period (or the Reopening of the Terms, if applicable).

The Shares are subject to the securities dematerialization regime provided for in Articles 83-bis et seq.

of CLF, as well as the Consob-Bank of Italy Regulation of 13 August 2018, as subsequently amended and supplemented.

The parties intending to tender their Shares to the Offer must be holders of the Shares in dematerialized form, duly registered in a securities account with one of the Depository Intermediaries, and must apply to their respective intermediaries for appropriate instructions in order to accept the Offer.

The subscription of the Acceptance Form, therefore, in consideration of the aforementioned regime of dematerialization of the securities, will also be valid as an irrevocable instruction given by the individual holder of the Shares to the Appointed Intermediary or to the relevant Depositary Intermediary, with whom the Shares are deposited in a securities account, to transfer the aforementioned Shares into escrow deposits with the said intermediaries, in favor of the Offeror.

The Depository Intermediaries, in their capacity as proxies, shall countersign the Application Form. Shareholders bear the sole risk that Depository Intermediaries do not deliver the Acceptance Form and, if applicable, do not deposit the Shares tendered in acceptance of the Offer with the Appointed Intermediary by the last valid day of the Acceptance Period (or any Reopening of the Terms).

Upon acceptance of the Offer and deposit of the Shares by signing the Acceptance Form, a mandate will be given to the Appointed Intermediary and to the Depositary Intermediary, if any, to perform all the necessary and preparatory formalities for the transfer of the Shares to the Offeror, which will be responsible for the related costs.

The Shares tendered in acceptance of the Offer must be freely transferable to the Offeror and free from any kind of encumbrances and constraint, whether real, obligatory or personal.

During the entire period in which the Shares will be bound to the Offer and, therefore, until the Payment Date or, in case of Reopening of the Terms, the Payment Date following the Reopening of the Terms, the Tendering Shareholder to the Offer may exercise the property rights (for example, right of pre-emption) and social rights (such as the right to vote) related to the Shares, which will remain in the ownership of the same Tendering Shareholders.

Acceptances to the Offer during the Acceptance Period or the Reopening of the Terms by minors or persons under guardianship or custody, pursuant to applicable provisions of law, signed by those exercising parental authority, guardianship or custody, if not accompanied by the authorization of the guardian judge, shall be accepted with reservation and not counted for the purpose of determining the percentage of acceptance of the Offer and their payment shall be made in any case only after authorization has been obtained.

Only Shares which, at the time of acceptance, are duly registered and available in a securities account of the Tendering Shareholder to the Offer and opened by the latter with an intermediary belonging to the centralized management system of Monte Titoli S.p.A. may be tendered in acceptance of the Offer. In particular, the Shares resulting from purchase transactions carried out on the market can be tendered in acceptance of the Offer only after the settlement of the said transactions within the settlement system.

The effectiveness of the Offer is subject to the Conditions of the Offer set forth in Section A, Paragraph A.1, of the Offer Document.

## F.2 INFORMATION ON THE OWNERSHIP AND EXERCISE OF ADMINISTRATIVE AND PROPERTY RIGHTS RELATING TO THE FINANCIAL INSTRUMENTS COVERED BY THE OFFER, WHILE THE OFFER ITSELF IS PENDING

The Shares tendered in acceptance of the Offer during the Acceptance Period, as may be extended, will be transferred to the Offeror on the Payment Date, as may be extended. The Shares tendered in acceptance of the Offer during the period of Reopening of the Terms, if any, will be transferred to the Offeror on the Payment Date following the Reopening of the Terms.

For the entire period during which the Shares will remain restricted in service of the Offer and, therefore, from the date of commencement of the Acceptance Period until the Payment Date, as may be extended (or, in the event of a Reopening of the Terms, until the Payment Date following the Reopening of the Terms), the Tendering Shareholders may exercise all property and administrative rights pertaining to the Shares, but may not assign, in whole or in part, the Shares or, in any event, perform acts of disposition

(including pledges or other encumbrances or attachments) concerning such Shares. During the same period, no interest will be payable by the Offeror (or the Persons Acting in Concert) on the Offer Consideration. Shareholders who have accepted the Offer may not transfer their Shares, except by accepting any competing offers or raises pursuant to Article 44 of the Issuers' Regulations.

# F.3 NOTICES RELATING TO THE PROGRESS AND OUTCOME OF THE OFFER

During the Acceptance Period, as possibly extended, or the period of any Reopening of the Terms, the Intermediary Appointed to Coordinate the Collection of Acceptances will communicate on a daily basis to Borsa Italiana, pursuant to Article 41, paragraph 2, letter d), of the Issuers' Regulations, the data relating to the acceptances received daily and to the total Shares tendered in acceptance of the Offer, as well as the percentage that such quantities represent with respect to the Shares Subject to the Offer.

Borsa Italiana shall publish the said data by means of a specific communication by the day following such notice.

Furthermore, if by the Payment Date, as possibly extended, or by the Payment Date following the Reopening of the Terms, the Offeror or the Persons Acting in Concert purchase, directly and/or indirectly, additional Shares outside of the Offer, the Offeror will inform Consob and the market by the end of the day pursuant to Article 41, paragraph 2, letter c), of the Issuers' Regulations.

The final results of the Offer will be announced by the Offeror, pursuant to Article 41, paragraph 6, of the Issuers' Regulations, by 7:59 a.m. of the Trading Day preceding the Payment Date, as may be extended.

Furthermore, the final results of the Offer as a result of the Reopening of the Terms will be announced by the Offeror, pursuant to Article 41, paragraph 6, of the Issuers' Regulations, by the Trading Day prior to the Payment Date, by means of publication of the Notice of Results of the Offer.

Upon publication of the Notice of the Offer Results, the Offeror will disclose the occurrence of the statutory conditions for the Purchase Obligation pursuant to Article 108, paragraph 2, of CLF or the Purchase Obligation pursuant to Art. 108, paragraph 1, of CLF, and the Purchase Right pursuant to Article 111 of CLF, as well as information on the Delisting.

In the event that the Reopening of Terms applies:

- the provisional results of the Offer following any Reopening of the Terms will be announced to the market by the evening of the last day of any Reopening of the Terms (i.e., by 24 May 2021, unless extended) and in any event by 7:59 a.m. on the first Trading Day following the end of any Reopening of the Terms (i.e., by 25 May 2021, unless extended);
- (ii) the final results of the Offer following any Reopening of the Terms will be announced by the Offeror, pursuant to Article 41, paragraph 6, of the Issuers' Regulations, by the Trading Day prior to the Payment Date following the Reopening of the Terms (i.e., by 28 May 2021, unless extended). At that time, the Offeror will disclose the occurrence of the statutory conditions for the Purchase Obligation pursuant to Article 108, paragraph 2, of CLF or the Purchase Obligation pursuant to Art. 108, paragraph 1, of CLF, and the Purchase Right pursuant to Article 111 of CLF, as well as information on the Delisting.

# F.4 MARKETS ON WHICH THE OFFER IS MADE

The Offer is being made in Italy, as the Shares are listed on the MTA, which is organized and managed by Borsa Italiana, and, except as indicated below, is subject to the disclosure and procedural requirements of Italian law.

The Offer is also being made in the United States of America pursuant to Section 14(e) of the U.S. Securities Exchange Act of 1934 ("**Exchange Act**") and Regulation 14E under the Exchange Act, subject to the exemptions contemplated by Rule 14d-1 under the Exchange Act ("**Cross-Border Exemptions**").

U.S. investors should note that the disclosure and procedural requirements applicable to the Offer differ

significantly from those that would apply to a US tender offer, including the requirements that would apply in the absence of the Cross-Border Exemptions. Moreover, the Conditions of the Offer do not provide for the possibility for Tendering Shareholders to withdraw their acceptance during the Acceptance Period, including in the event of Reopening of the Terms following a possible waiver of the Threshold Condition, other than in the cases of revocation allowed by the Italian law for accepting competing offers. In addition, the rules relating to "*Going Private Transactions*" under Rule 13e–3 under the Exchange Act shall not apply to the Offer.

Provided that market conditions are met, and within the limits allowed by the applicable regulations, including Rule 14e-5 under the Exchange Act, as well as in compliance with the practice applicable in Italy, the Offeror (and/or the Persons Acting in Concert) reserves the right to purchase, after the Announcement Date, also outside of the Offer, Shares of the Issuer on the market with the aim to further increase its stake in the capital stock of the Issuer. To the extent that the information relating to these purchases is made available to the public in Italy, the same information will be made public by means of a press release or equivalent means of communication in order to also inform the Issuer's shareholders in the United States. No purchases will be made outside of the Offer in the United States of America by, or on behalf of, the Offeror and/or the Persons Acting in Concert. If purchases are made at prices in excess of the Consideration, the latter will be adjusted accordingly.

Neither the United States Securities Exchange Commission (SEC) nor any other state regulatory authority in the United States has approved or disapproved this Offer, nor will it comment on the adequacy or completeness of the Offer Document or any other document relating to the Offer.

The Offer is not and will not be made or disseminated in Canada, Japan and Australia, or in any other country in which such an Offer is not permitted in the absence of authorization by the competent authorities or other compliance by the Offeror (collectively, the "**Other Countries**").

The Offer shall not constitute and shall not be construed as an offer of financial instruments addressed to persons residing in the Other Countries. No instrument may be offered and/or sold in the Other Countries without specific authorization in accordance with the applicable provisions of the local law of such Countries or on the basis of specific exemptions and/or derogations from such provisions.

Acceptance of the Offer by parties residing in countries other than Italy and the United States of America may be subject to specific obligations or restrictions provided for by legal or regulatory provisions. It is the sole responsibility of the recipients of the Offer to comply with such regulations and, therefore, to verify their existence and applicability by contacting their advisors and complying with such regulations prior to joining the Offer.

# F.5 DATE OF PAYMENT

Subject to the fulfillment of the Conditions of the Offer (or waiver thereof by the Offeror), payment of the Consideration to the Tendering Shareholder will be made on the Payment Date, corresponding to the fifth Trading Day following the closing date of the Acceptance Period and, therefore, unless the Acceptance Period is extended in accordance with applicable law or regulation, on 17 May 2021.

If the Acceptance Period is extended, payment of the Consideration will occur on the fifth Trading Day following the closing date of the Acceptance Period, as extended. The new Payment Date thus determined will be announced, within the terms set out by the regulations in force, by means of a notice issued pursuant to Article 36 of the Issuers' Regulations.

In the event of a Reopening of the Terms, the payment of the Consideration in respect of the Shares tendered during the Reopening of the Terms, unless the Acceptance Period is extended, will occur on the fifth Trading Day following the close of the Reopening of the Terms, i.e., 31 May 2021 (the "Date of Payment upon Reopening of Terms").

No interest will be paid on the Consideration between the date of acceptance of the Offer and the Payment Date (or, if applicable, the Payment Date following the Reopening of the Terms).

# F.6 METHOD OF PAYMENT FOR THE CONSIDERATION

The Consideration will be paid in cash. The Offeror shall deposit the Consideration in the account

indicated by the Intermediary Appointed to Collect Acceptances, who shall transfer it to the appointed Intermediaries, who will transfer the funds to the Depositary Intermediaries to be credited to the accounts of the respective clients, in accordance with the instructions provided by the Shareholders Accepting the Offer.

The Offeror's obligation to pay the Consideration in accordance with this Offer is understood to be discharged when the funds in question are transferred to the Appointed Intermediaries. Shareholders Accepting the Offer bear full responsibility for the risk that the Appointed Intermediaries or the Depositary Intermediaries fail to transfer these funds to those so entitled or if the transfer is delayed.

# F.7 REGULATING LAW FOR CONTRACTS BETWEEN THE OFFER AND THE POSSESSORS OF FINANCIAL INSTRUMENTS OF THE ISSUING COMPANY AND APPLICABLE JURISDICTION

In relation to the acceptance of this Offer, the regulating law is Italian law and the jurisdiction is the ordinary Italian jurisdiction.

# F.8 PROCEDURES AND TERMS FOR RETURNING ASTM SHARES IN THE EVENT OF INEFFECTIVENESS OF THE OFFER AND/OR ALLOTMENT

If even one of the Conditions of the Offer is not satisfied and the Offeror does not exercise the right to waive it, the Offer shall not be finalized. In this scenario, any shares tendered in acceptance of the Offer shall be remitted to the Tendering Shareholders by the next Open Trading Day after the failure to complete the Offer is announced. The Shares shall thus be returned to the Tendering Shareholders by means of the Depositary Intermediaries at no charge.

Jurisdiction

**Default Events** 

On 1 April 2021, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A., in their capacity as banks issuing performance guarantee in accordance with the Financing Agreement, have issued a Cash Confirmation Letter in favor of the Offeror pursuant to Article 37-*bis* of the Issuer's Regulations.

English courts.

By effect of the Cash Confirmation Letter, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have irrevocably and unconditionally agreed to make the amount owed by the Offeror as payment for the Shares tendered in acceptance of the Offer available to the Intermediary Appointed to Coordinate the Collection of Acceptances for up to a total maximum amount equal to the Maximum Disbursement. Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca –

Banca di Credito Finanziario S.p.A. shall disburse said funds on demand by the Intermediary Appointed to Coordinate the Collection of Acceptances, without the benefit of taking prior enforcement action against the Offeror and without any exceptions, so as to enable it to make the payments due on the related payment dates on behalf of the Offeror.

In addition to the above, in accordance with the Financing Agreement, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have also undertaken the commitment, in the event of Purchase Obligation pursuant to Art. 108, paragraph 1 of the CLF or Purchase Obligation pursuant to Art. 108, paragraph 2 of CLF and upon the occurrence of the related legal requirements—to issue an additional performance guarantee for the Offeror's obligations to pay the full price of all Shares it must purchase in performance of the Purchase Obligation under Art. 108, paragraph 1 of CLF or the Purchase Obligation under Art. 108, paragraph 2 of CLF.

Most recently, in accordance with the Financing Agreement, Intesa Sanpaolo S.p.A., Unicredit S.p.A. and Mediobanca – Banca di Credito Finanziario S.p.A. have also undertaken the commitment—in the event the Offeror exercise the Purchase Right pursuant to art. 111 of the CLF and upon the occurrence of the related legal requirements—to issue an additional performance guarantee for the Offeror's obligation to pay the full price of all Shares it shall acquire by exercising the Purchase Right.

# G.2 REASONS FOR THE TRANSACTION AND FUTURE PROGRAMS PREPARED BY THE OFFEROR

# G.2.1 Reasons for the Offer and programs prepared by the Offeror in relation to the Issuer

The Offer represents the means by which the Offeror intends to acquire all the Shares Subject to the Offer and, consequently, to proceed with the Delisting.

Therefore—should the relevant conditions occur—the Offeror does not intend to restore a float sufficient to ensure the regular trading of the Shares.

More specifically, through the Offer and the Delisting, the Offeror intends to make possible a reorganization of the Issuer aimed at further strengthening it, an operation that can be more easily pursued by taking the status of unlisted company.

In this regard, the Offeror believes that the future programs relating to the Issuer, can be more easily and effectively pursued in a situation of total control and loss of listed company status by ASTM. In fact, this situation is normally characterized by lower costs and an increased degree of managerial and organizational flexibility in light of the advantages arising from the simplification of the ownership structure. In the event of the concentration of all the ordinary shares of ASTM in the possession of the Offeror and the Persons Acting in Concert with the Offeror, the limitations imposed by law in the presence of minority shareholders and the ordinary costs deriving from the disclosure obligations associated with listed company status would be eliminated. Further operational flexibility could be achieved in the context of the private capital market, both in relation to the structuring of new operations aimed at growth through external lines and in relation to the management of existing initiatives.

Following the completion of the Offer (including the possible fulfillment of the Purchase Obligation pursuant to art. 108, paragraph 2, of CLF and/or exercise of the Purchase Obligation pursuant to art. 108, paragraph 1, of CLF and of the Purchase Right pursuant to art. 111 of CLF), the Offeror intends to continue to support the development of the Issuer, consolidating and enhancing the scope of its current activities and at the same time taking advantage of any future growth opportunities in Italy and abroad, in line with a strategic policy aimed at enhancing the business in the medium-long term.

This strategic policy includes, among other things:

- consolidation of the Issuer's position as the primary manager of motorway concessions in Italy, particularly with respect to the ongoing renewal of the concessions presently managed by ASTM that have expired or are about to expire (A21/A5 and A10/A12) and the recent consolidation of its controlling position in SITAF S.p.A.;
- (ii) strengthening of the presence in Brazil, thanks to the consolidation of a solitary controlling position in Ecorodovias that enables the Issuer to contribute to its development by participating in upcoming motorway tenders expected in Brazil and

through the operating efficiency and high standards resulting from application of the *one company* model used by the Group

- (iii) development of the motorway concessions business and the EPC (engineering, procurement and construction) sector abroad, with a special focus on Northern Europe and the U.S., in accordance with the Group's recent pre-qualifications;
- (iv) pursuit of high quality standards and an industrial approach to the development of the investment and maintenance plans for all the assets managed by the Group, thanks to the support of the *one company* model developed by the Group;
- (v) maintenance of high levels of financial soundness of the individual concessionaires and the Group as a whole, in accordance with what has been done historically.

The Offeror therefore does not rule out the possibility of assessing in the future, at its own discretion, any market opportunities aimed at the aforementioned internal and/or external growth of the Issuer, including the opportunity to carry out extraordinary transactions, such as, purely by way of example, acquisitions, sales, mergers, spin-offs, concerning the Issuer or any of its assets or business units and/or capital increases, the execution of which could have dilutive effects on the Issuer's shareholders.

The Offer will not change in any way the industrial approach adopted by the ASTM Group in the management of motorway infrastructures under concession, nor will it affect the implementation of investment plans or the fulfillment of maintenance obligations set out in the concession agreements, thus fully safeguarding the financial soundness of each single licensee.

The macroeconomic context which the Offeror has taken into account in the decision to make the Offer and in the determination of the Consideration is that following the outbreak of COVID-19 pandemic. From the Offeror's point of view, the pandemic has had a significant and structural impact on the Issuer's activities and on its economic and financial profitability, as shown also by the evolution of share prices. This impact can be seen directly from the traffic trend on the main motorway concessions belonging to the Issuer, whose significant decrease, and recovery to levels comparable to pre-COVID-19 pandemic levels, which is expected by the Offeror only in the medium term, imply a structural decrease in the Issuer's valuation.

In this respect, the Offeror has acknowledged the Issuer's results of 2020, with a decrease of approximately 31% in consolidated EBITDA. From the perspective of motorway traffic on the Italian network managed by the Issuer, the decrease in volume was about 28% as of 31 December 2020, as compared to the same period in 2019 on a consistent basis (corresponding to a decrease of about 24% in toll revenue). In the same context, the Issuer has also confirmed the difficulty of forecasting the economic-financial performance for 2021, confirming the negative impact of the restrictions imposed in the first months of 2021 will have on the performance of ASTM. In this context, the Issuer has certified a decrease in traffic during the first two months of 2021 equal to about 32% compared to the same period in 2020. The persistence of these uncertain conditions led ASTM's Board of Directors, on 19 March 2021, to decide not to distribute dividends for 2021 (as it already did for 2020).

# Merger

#### (A) Merger in the absence of Delisting

In the event the Offeror (together with the Persons acting in Concert) fails to obtain more than a 90% stake in the Issuer, and thus does not achieve the Delisting, the Offeror reserves the right to pursue the Delisting goal, subject to the related approval by the competent corporate bodies, by means of a merger by incorporation of the Issuer into the Offeror (an unlisted company), or some other unlisted company of the group led by Nuova Argo Finanziaria. The merger by incorporation of the Issuer into the Offeror would be a transaction between related parties subject to the related applicable legislation and could qualify, if necessary, as a "merger with indebtedness," resulting in the applicability of Art. 2501–*bis* of the Italian Civil Code. It should be specified that in this scenario, NAF 2, which would—possibly with the Persons Acting in Concert—come to hold a stake in the Issuer that would ensure the Merger's approval by the Issuer's own Extraordinary Shareholders Assembly, would retain its voting rights in the ASTM Shareholders' Assembly.

Shareholders in the Issuer who do not agree to pass the resolution approving the merger would enjoy the right to withdraw pursuant to Art. 2437-*quinquies* of the Italian Civil Code, because in exchange

they would receive shares not listed on a regulated market. If the right to withdraw is exercised, then the liquidation value of the shares would be calculated in accordance with Art. 2437–*ter*, paragraph 3 of the Italian Civil Code, as the mathematical mean of the closing prices during the six months preceding the publication of the call to meeting for approving the Merger.

In particular, it should be noted that, assuming a closing price of the Shares equal to Euro 25.60 per Share for each Trading Day after 29 March 2021, and also assuming, for illustrative purposes, that the notice of convening the shareholders' meeting called to approve the merger by Delisting is published on 30 May 2021 or, alternatively, on 30 June 2021, the withdrawal value would be Euro 23.11 per Share in the first case and Euro 23.94 per Share in the second case. The Offeror assumed that the price of each individual Share of ASTM was equal to the Consideration from the Date of the Offer Document as, in the opinion of the Offeror, the Consideration represents the only certain evaluation reference regarding the future value of the Shares.

It should also be noted that shareholders of the Issuer who decide not to exercise the right to withdraw will become the owners of financial instruments not traded on any regulated market, thus making it very difficult to liquidated their investment in the future.

If the Merger is finalized, then the overall remaining debt bearing on the companies participating in the Merger would be channeled to the company resulting from the Merger. The Issuer's equity, therefore, would be the source of reimbursement of the aforesaid debt and, as a consequence, the Issuer's shareholders who did not participate in the Offer or who exercise the right to withdraw would become the holders of capital stock in a company with a level of debt higher than before the Merger.

In any event, the Offeror reserves the right to consider, at its discretion, the future implementation of possible additional extraordinary transactions and/or corporate and business restructuring that it deems fit, in accordance with the goals and justifications for the Offer, and also with the goals of strengthening ASTM, whether in the absence of listing revocation of the Issuer's shares or in the event of Delisting. In the latter scenario, the Offeror reserves the right to proceed, subject to the related approval by the competent corporate bodies, with a reverse merger of NAF 2 into ASTM, without prejudice to the applicability of Art. 2501–*bis* of the Italian Civil Code.

# Impacts of the Merger on the level of indebtedness

If the Merger is completed, the total residual debt borne by the merging companies would flow into the merged company. Therefore, the Issuer's assets would be a source of repayment of the aforementioned debt and, consequently, holders of Shares of the Issuer who had not joined the Offer or exercised the right of withdrawal would become holders of a stake in the capital stock of a company with a level of indebtedness higher than that prior to the Merger.

Following the Announcement Date, the Fitch and Moody's rating agencies issued, respectively, on 26 February 2021, and 8 March 2021, comments, available on the www.astm.it website, in the "Investor Center – Credit rating" section, on the potential effects of the increase in the level of indebtedness on the credit score of the Issuer. These comment notes from the Fitch and Moody's ratings agencies assume that the Offeror comes to hold 100% of the issuer's capital and thus the assumption of the entire debt.

In this regard, without prejudice to the possible application of the provisions of art. 2501-bis of the Italian Civil Code on mergers following acquisition with indebtedness, on the basis of the information available on the date of this Offer Document, the Offeror is of the opinion that, despite the increase in the level of indebtedness, the Issuer has a capital size and income capacity such as to ensure the sustainability of its financial debt also following the Merger, all the more so if the Merger takes place in the event that the Offeror comes to hold a stake of less than 100% of the Issuer's capital and therefore with the assumption of a lower level of indebtedness than that assumed in the analysis of the Fitch and Moody's rating agencies.

It should be noted that in order to meet the repayment obligations in relation to the amounts due under the Financing Agreement (including capital and interest), it is not excluded that recourse will be made, as appropriate, to the use of cash flows deriving from the possible distribution of dividends and/or available reserves (where they exist), the Issuer and/or, in the event of a Merger, the use of the Issuer's cash flows.

(B) Post-Delisting merger

In the event that Delisting has been obtained, the Offeror reserves the right to proceed, subject to the relative approval by the competent corporate bodies, to the reverse merger of NAF 2 into ASTM, without regard to the applicability of Art. 2501 – *bis* of the Italian Civil Code.

Shareholders of the Issuer who: (i) remain such in the event of the offeror's achievement (together with the Persons acting in concert) of a stake of between 90% and 95% of the issuer's capital stock, and (ii) have not contributed to the resolution approving the Merger, it would be the right of withdrawal exclusively to the use of one of the cases provided for by art. 2437 civ., with the exception of the cases referred to in Art. 2437, paragraph 2, of the Italian Civil Code, as required by art. 6 of the Statute, i.e. in cases of extension of the time limit and introduction or removal of restrictions on the movement of shares. The liquidation value of the shares subject to withdrawal, where provided for, would be determined in accordance with Art. 2437-ter, paragraph 2, of the Italian Civil Code, taking into account the size of the Issuer's assets and its income prospects as well as the possible market value of the shares.

In this regard, it should be noted that the withdrawal value, as determined above, may differ, even to a significant extent, from the Consideration.

In the event that the Merger is completed, the total residual debt borne by the merging companies would flow into the merged company. Therefore, the issuer's assets would be a source of repayment of the aforementioned debt and, consequently, holders of Shares of the Issuer who had not joined the Offer or exercised the right of withdrawal, would become holders of a stake in the capital stock of a company with a level of indebtedness *before* the Merger.

The Offeror also does not exclude the possibility of evaluating, at its discretion, the implementation – in addition to or as an alternative to the Merger operations (with the Issuer) – of any other extraordinary transactions that may be considered appropriate in the light of the objectives and reasons of the Offer such as, but not limited to, acquisitions, further and different mergers and/or capital increases.

On the Date of the Offer Document, the Offeror has not made any formal decision in relation to the foregoing.

It should be noted that in order to meet the repayment of the amounts due under the Financing Agreement (including capital and interest), it is not excluded that recourse will be made, as appropriate, to the use of cash flows deriving from the possible distribution of dividends and/or available reserves (where they exist), the Issuer and/or, in the event of a Merger, the use of the Issuer's cash flows.

#### G.2.2 Investments and related forms of financing

As of the Date of the Offer Document, the Offeror's Board of Directors has not made any decision on significant and/or additional investments other than those normally required for normal business in the industrial sector in which the Issuer operates.

Regarding the investments made by ASTM, see Section G.2.1, above.

#### G.2.3 Planned changes in the Issuer's articles of association

As of the Date of the Offer Document, the Offeror has not identified any modifications or changes to be made to the Issuer's current articles of association. Several changes, however, could be made as a result of the possible Delisting of the Shares under the circumstances described below, in order to adapt the Issuer's articles of association to that of a company with shares not issued for trading on the MTA.

#### G.2.4 Planned changes in the composition of the Issuer's administrative and control bodies

As of the Date of the Offer Document, the Offeror has not yet made any decision on the composition of the administrative (and control) bodies of the Issuer and the companies of the ASTM Group.

For the sake of completeness, it should be noted that on 20 February 2021, Aurelia and Mercure agreed on several guidelines, with effectiveness subject to the Delisting of the Company, regarding certain changes to the Shareholders' Agreement (designed to simplify the operation of ASTM's corporate bodies), with the understanding that these changes would have no novation effect on the governance

and shareholding structure of ASTM (which would still be fully controlled by Aurelia) and will be limited to accounting for ASTM's loss of listed company status.

# G.3 INDICATIONS REGARDING THE RE-ESTABLISHMENT OF THE FLOAT

The Offer is intended to acquire the Issuer's entire capital stock and the Delisting, and thus the Offeror declares henceforth, also on behalf of the Persons Acting in Concert, that it does not intend to restore a float sufficient to assure regular trading of the Issuer's ordinary shares.

If the Offeror and the Persons Acting in Concert, upon conclusion of the Offer based on acceptances of the Offer and the possible purchase of shares outside the said Offer, in accordance with applicable legislation during the Acceptance Period and/or the possible Reopening of the Period, end up holding a total stake greater than 90% but less than 95% of the Issuer's capital stock, then the Offeror will not restore the float and will fulfill, also on behalf of the Persons Acting in Concert, the Purchase Obligation under Art. 108, paragraph 2 of CLF for any shareholders that make this request.

The consideration for the Purchase Obligation under Art. 108, paragraph 2 of CLF shall be equal to the Consideration for the Offer (i.e., EUR 25.60 per Share), in accordance with Art. 108, paragraphs 3 and 4 of CLF, by applying paragraph 3 or paragraph 4 as a function of the number of Shares tendered in response to the Offer, and may be, depending on the situation, equal to the Consideration or determined by Consob in accordance with the criteria of Article 50, paragraph 4 of the Issuer's Regulations.

The Offeror shall indicate, in the Announcement of the Results of the Offer, the possible existence of the preconditions for the Purchase Obligation under Article 108, paragraph 2 of CLF. In this case, the Announcement of the Results of the Offer shall contain indications concerning (i) the number of Shares remaining (both in terms of the number of Shares and as a percentage of the Issuer's entire capital stock); (ii) the procedures and terms with which the Offeror will fulfill the Purchase Obligation under Art. 108, paragraph 2 of CLF; and (iii) the procedures and timing of the Delisting of the Shares.

It should be specified that as a result of the satisfaction of the preconditions for the Purchase Obligation, the Italian Stock Exchange—in accordance with Article 2.5.1, paragraph 6 of the Exchange Regulations—shall order revocation of the Shares from listing on the MTA to take effect on the first Open Trading Day after the Consideration Payment Date related to the procedure designed to fulfill the Purchase Obligation in accordance with Art. 108, paragraph 2 of CLF, without prejudice to the requirements related to the Purchase Right. Following the fulfillment of the Purchase Obligation in accordance with Art. 108, paragraph 2 of CLF, therefore, the Shares shall be removed from the listing and the Issuer's Shareholders who decided not to tender their Shares and did not ask the Offeror to purchase their Shares, pursuant to Article 108 of CLF, shall become the holders of financial instruments not traded on any regulated market, which will make it difficult to liquidate their investment in the future.

Otherwise if, as a result of the Offer (including the possible Reopening of the Period), the Offeror (together with the Persons Acting in Concert) comes to hold—as a result of acceptances of the Offer and possible purchase on the market, directly or indirectly, by the Offeror and/or by Persons Acting in Concert after the Date of the Offer Document, during the Acceptance Period, and/or during the possible Reopening of the Period, or by fulfilling the Purchase Obligation under Art. 108, paragraph 2 of CLF—a total share equal to at least 95% of the Issuer's capital stock, then the Offeror henceforth declares its intention to draw upon the Purchase Right. By exercising the Purchase Right, the Offeror, should the conditions be met, shall also fulfill the Purchase Obligation under Art. 108, paragraph 1 of CLF with respect to the Shareholders who made this request and thus gave rise to the Joint Procedure.

If the Purchase Right is exercised in accordance with Art. 2.5.1, paragraph 6 of the Exchange Regulations, the Italian Stock Exchange shall order the suspension and/or Delisting of the Issuer's Shares, taking into account the time period allowed for exercising the Joint Procedure.

The Purchase Right shall be exercised in accordance with the time frame and procedures to be agreed on with the Italian Stock Exchange and Consob as soon as possible and, in any event, no more than three months after the Payment Date, by depositing the total value of the purchase price for the remaining Shares.

- H. POSSIBLE AGREEMENTS AND TRANSACTIONS BETWEEN THE OFFEROR, THE SUBJECTS ACTING IN CONCERT AND THE ISSUER OR THE MAJOR SHAREHOLDERS OR THE MEMBERS OF THE ISSUER'S ADMINISTRATIVE AND CONTROL BODIES
- H.1 DESCRIPTION OF THE AGREEMENTS AND FINANCIAL AND/OR COMMERCIAL TRANSACTIONS TO BE VOTED ON OR EXECUTED DURING THE TWELVE MONTHS PRIOR TO PUBLICATION OF THE OFFER, THAT COULD HAVE OR HAVE HAD SIGNIFICANT EFFECTS OF THE ACTIVITIES OF THE OFFEROR AND/OR THE ISSUER

Without prejudice to what is stated in the Offer Document, no agreements or financial and/or commercial transactions were executed or deliberated between the Offeror and/or the Issuer or the major shareholders or the members of the Issuer's administrative and control bodies during the 12 months prior to the publication of the Offer that could have or have had significant effects on the activities of the Offeror and/or the Issuer.

# H.2 AGREEMENTS CONCERNING THE EXERCISE OF VOTING RIGHTS OR THE TRANSFER OF SHARES AND/OR OTHER FINANCIAL INSTRUMENTS OF THE ISSUER

As of the Date of the Offer Document, there are no agreements involving the Offeror or the Persons Acting in Concert concerning the exercise of voting rights or the transfer of the Issuer's Shares or other financial instruments issued by the Issuer other than what is indicated below.

<u>Aurelia SHA, Shareholders' Agreement, Amendment Agreement, New Shareholders' Agreement and</u> <u>Shareholders' Accords</u>

On 27 September 2018, Aurelia and Mercure signed a shareholders' agreement designed to adjust the terms and conditions of their relationship as shareholders in Nuova Argo Finanziaria and on the topic, among other things, of governance and the transfer of Nuova Argo Finanziaria and ASTM shares ("Shareholders' Agreement").

On 13 June 2019, in the context of the merger by incorporation of SIAS S.p.A. into ASTM approved by the respective Boards of Directors that same day, (i) Aurelia, Mercure and Nuova Argo signed the Aurelia SHA, which entered into effect on 31 December 2019, (effective date of the aforesaid merger by incorporation of SIAS S.p.A into ASTM), designed to regulate several aspects of governance and the direct transfer of ASTM shares to Aurelia ownership; (ii) Aurelia and Mercure signed an agreement amending the Shareholders' Agreement (the "Amendment Agreement") that supplemented and updated the text of several provisions of said agreement to account for the effects of the merger by incorporation of SIAS S.p.A. into ASTM.

On 8 September 2020, Mercure, Nuova Argo and Aurelia signed another shareholders' agreement ("**New Shareholders' Agreement**") that regulates several profiles related to Mercure's acquisition of shares in ASTM, as well as several aspects of governance and the direct transfer of ASTM shares to Mercure ownership.

It should also be noted that on 20 February 2021:

- (i) Aurelia entered the Aurelia Pledge;
- (ii) Mercure entered the Mercure Pledge, and
- (iii) Aurelia and Mercure entered the Reallocation Pledge.

In addition, Aurelia and Mercure agreed on several guidelines, with effectiveness subject to the Delisting of the Company, regarding certain changes to the 2018 Shareholders' Agreement, with the understanding that these changes would have no novation effect on the governance and shareholding structure of ASTM (which will remain fully controlled by Aurelia) and will be limited to accounting for ASTM's loss of listed company status.

# I. FEES FOR THE INTERMEDIARIES

As compensation for the functions performed in the context of the Offer, the Offeror shall pay and liquidate the following fees in the form of a commission that includes any and all compensation for intermediation activities:

- (i) for the Intermediary Appointed to Coordinate the Collection of Acceptances, a fixed commission amounting to a maximum of EUR 150,000, for organizing and coordinating the acceptance collection activities for the Offer; and
- (ii) for each Appointed Intermediary (including the Intermediary Appointed to Coordinate the Collection of Acceptances):
  - (a) a commission equal to 0.05% of the value of the Shares tendered in acceptance of the Offer directly and/or indirectly via the Depositary Intermediaries and purchased by the Offeror, up to a maximum of EUR 10,000.00 for each party accepting the Offer; and
  - (b) a fixed fee equal to EUR 5.00 for each Acceptance Form submitted.

The Appointed Intermediaries shall reverse to the Depositary Intermediaries 50% of the commissions from the previous point (ii)(a) in relation to the value of Shares purchase through them, as well as the entire fixed fee indicated in point (ii)(b).

The Offeror resolved upon launching the Offer, in accordance with Articles 102 *et seq.* of the CFA pursuant to a resolution of the board of directors on 20 February 2021.

#### 2.2 Rationale of the Offer

The Offer's rationale is to pursue the acquisition of all Offer Shares and, as a result, the Delisting of the Company.

Therefore - if the relevant conditions are met - the Offeror does not intend restoring a sufficient amount of floating shares to ensure that the Shares have a regular trading performance.

- 4 -

In particular, by the Offer and the Delisting, the Offeror intends to pursue a reorganization aimed at a further strengthening the Issuer, which is more easily pursuable if the Issuer is a private company.

The Delisting, whose terms, conditions and procedures will be detailed in the Offer Document, can be achieved if the Shares tendered in response to the Offer – added to those held by the Persons Acting in Concert, the treasury Shares held by ASTM and the Shares, if any, acquired by the Offeror and the Persons Acting in Concert outside of the Offer itself in accordance with the applicable laws and regulations – exceed 90% of ASTM's share capital (for further information see Paragraph 3.5 below).

In the event that the Delisting is not achieved as a result of the Offer (including any possible Extension, as defined below, and/or the fulfilment of the purchase obligation pursuant to Article 108, paragraph 2, of the CFA, the fulfilment of the purchase obligation pursuant to Article 108, paragraph 1, of del CFA and the exercise of the purchase right pursuant to Article 111 of the CFA), the Offeror reserves the right to achieve the Delisting, subject to approval by the relevant corporate bodies, by means of a merger by incorporation of the Issuer into the Offeror (private company), or into another private company of the group headed by Nuova Argo Finanziaria. The merger by incorporation of the Issuer into the Offerose, as a "merger with indebtedness" (*merger leveraged buy-out*) pursuant to Article 2501-*bis* of the Italian Civil Code as well as a transaction between related parties subject to the relevant applicable regulations.

In any event, the Offeror reserves the right to evaluate in the future, at its own discretion, the implementation of any further extraordinary operations and/or corporate and business reorganisation that may be considered appropriate, in line with the objectives and rationale of the Offer, as well as with the objectives of strengthening ASTM, whether the Delisting is achieved or not. In case of Delisting, the Offeror reserves the right to proceed, subject to approval by the competent corporate bodies, with the reverse merger of NAF 2 into ASTM, pursuant to Article 2501-*bis* of the Civil Code.

As of today, no formal decisions have been taken by the competent bodies of the companies that might be involved in such possible extraordinary transactions.

In addition, the Offeror – through the Offer – intends to recognise the shareholders of ASTM the opportunity to dispose of their Shares at more favourable conditions than those offered by the market, considering the level of liquidity and the market trend of the shares. Indeed, as explained in Paragraph 3.2 below, the Price includes: (i) a premium amounting to 28.8% with respect to the official price of the Shares on the date of 19 February 2021 (last trading day before the publication of the abovementioned communication of this Notice); and (ii) a premium amounting to 36.3% with respect to the arithmetic weighted average of the official prices recorded by the Shares in the six months before the date of this Notice (included). For further information on the premium percentages with respect to the daily weighted average prices of the Shares, please refer to Paragraph 3.2 of this Notice.

For a more detailed description of the rationale of the Offer, please refer to the Offer Document, which will be drawn up and made available to the public within the time limits and in the manner provided for by the applicable legislation.

# 3. ESSENTIAL ELEMENTS OF THE OFFER

## 3.1 Classes and quantity of shares subject to the Offer

The Offer is conducted in Italy and in the United States of America and concerns a maximum of 66,937,880 Shares, representing 47.638% of the Issuer's share capital. As indicated above, the Offer Shares correspond to all the Shares except for: (a) total 60,449,417 Shares owned by Nuova Argo Finanziaria (of which 58,501,677 held directly and 1,947,740 held indirectly through Nuova Codelfa); (b) 2,385,650 Shares owned by Mercure; and (c) 10,741,948 Issuer's treasury Shares.

Following the publication of this Notice and during the Acceptance Period (as defined below), as it might be extended, the Offeror and/or the Persons Acting in Concert reserve the right to purchase Shares outside the Offer within limits set out in the applicable laws and regulations and in any case against the payment of a price not exceeding the Price. Such purchases will be notified to the market in accordance with Article 41, paragraph 2, letter c) of the Issuers' Regulation. Therefore, the number of Offer Shares can be automatically reduced as a result of the acquisitions of Shares by the Offeror (and/or the Persons Acting in Concert) outside the Offer.

The Offer is addressed, indiscriminately and on the same terms and conditions, to all the holders of the Shares.

The Shares tendered in response to the Offer must be freely transferable to the Offeror and free from any liens and encumbrances of any kind and nature whatsoever, whether *in rem*, obligatory of personal.

As at the date of this Notice, the Issuer has not issued convertible bonds, warrants and/or financial instruments granting voting rights, even limited to specific matters, in ordinary and extraordinary shareholders' meetings, and/or other financial instruments that might grant third parties rights to acquire Shares or, more simply, voting rights (even limited ones) in the future.

#### 3.2 Share price and its determination; aggregate value of the Offer

#### 3.2.1 Share price and its determination

NAF 2 will pay to each adhering shareholder the Price, amounting to Euro 25.60, for each Share tendered in response to the Offer.

The Price has been determined on the assumption that the Issuer does not approve and pay ordinary or extraordinary dividends from profits or reserves, in such case the Price shall be automatically reduced by an amount equal to the dividend per Share.

The Price is net of any applicable stamp duties, if due, and fees, commissions and expenses which will be borne by NAF 2. The substitute tax on capital gains, if due, will be borne by the shareholders adhering to the Offer.

The Price incorporates a premium amounting to 28.8% of the Shares' official price as of the date of of 19 February 2021 (last trading day before the publication of this Notice).

For purposes of determining the Price, no appraisals or fairness opinions from independent parties were obtained and/or used.

# 3.2.3 Total value of the Offer

The maximum disbursement in the event of full acceptance of the Offer by all the holders of the Shares will be Euro 1.713.609.728.

NAF 2 hereby states, pursuant to Article 37-*bis* of the Issuers' Regulation, that it is in a position to fully meet the payment obligations for the Price.

More specifically, the Offeror intends to finance the payment of the Price through financial debt; in this regard, on 20 February 2021, NAF 2 received a letter of commitment from JPMorgan Chase Bank, N.A., Milan Branch relating to (i) the financing of the Offer, for an amount equal to 100% of the maximum price provided for the purposes of the acquisition of the Offer Shares, as well as (ii) the refinancing of debt which ASTM is obliged to repay upon completion of the Offer. It is contemplated that the refinancing facilities will be secured by guarantees substantially similar to those already attached to the existing debt to be refinanced.

The Offeror will obtain and deliver to CONSOB, within the day preceding the publication of the Offer Document, suitable guarantees in accordance with Article 37-*bis*, paragraph 3 of the Issuers' Regulation.

# 3.3 Conditions to the Offer

The Offer's effectiveness is subject to satisfaction of each of the following conditions precedent (the "Offer Conditions"):

a) the acceptances of the Offer must reach, in aggregate, a number of Shares that enables the Offeror to hold an aggregate shareholding at least equal to 90% of the Issuer's share capital (the "Threshold Condition"), including the Shares held by the Persons Acting in Concert, the treasury Shares held by ASTM and the Shares, if any, acquired by the Offeror and the Persons Acting in Concert outside of the Offer in accordance with the applicable laws and regulations;

-7-

- b) no communications have been received, within the second trading day before the date of payment of the Price, from any authority, where prescribed by applicable law, relating to the exercise of veto powers and/or remarks and/or the imposition of conditions regarding the Offer, also pursuant to and for the purposes of any applicable law on "golden power" as set forth in Law Decree 15 March 2012, No 21 and/or any other provision or order that may be issued (la "Authorization Condition");
- c) absence, within the second trading day prior to the date of payment of the Price, of (i) any events or situations which are extraordinary and unforeseeable as at today's date, beyond the Offeror's control, involving significant adverse changes in the political, financial, economic, currency, regulatory or market situation, whether national or international, which have material adverse and prejudicial effects on the Offer and/or on the equity, financial condition, results of operation or profitability of the ASTM Group, or (ii) events or situations concerning the ASTM Group which are outside the control of the Offeror and which are not known to the Offeror and/or to the market at the date of this Notice and which result in, or could reasonably be expected to result in, material adverse changes to the business of the ASTM Group and/or in the assets, liabilities, financial position, profitability or cash flows of the ASTM Group (the "MAC Condition"). The MAC Condition includes, inter alia, all events listed in (i) and (ii) above which occur as a result of, or in connection with, the spread of the COVID-19 pandemic which, although being a phenomenon of public domain as of the date of this Notice, entails consequences which are not in any way foreseeable in any business area, including, without limitation, any crisis, temporary and/or definitive blockage and/or closure of the financial and productive markets and/or distribution network used by the Issuer in carrying out its activity, resulting in, or that may reasonably result in, substantially adverse effects on the Offer and/or changes in the equity, or in the economic or financial situation of the ASTM Group.

The Offeror has identified the threshold under point a) above on the basis of its intention to make a significant investment in the Shares and to achieve the Delisting of the Issuer. In the event that the Threshold Condition is not satisfied, the Offeror reserves the irrevocable right to waive the Threshold Condition and to purchase a smaller number of Shares, provided that – upon completion of the Offer – the Offeror will hold in the aggregate more than two-thirds of the share capital of ASTM, including the Offeror's shareholding, the Shares held by the Persons Acting in Concert, and any Shares acquired by the Offeror and the Persons Acting in Concert outside of the Offer in accordance with the applicable laws and regulations, and in any case a percentage of shareholding that – taking into account the treasury Shares held by ASTM – would allow the holder to validly pass resolutions of the Extraordinary Shareholders' Meeting, pursuant to Articles 2368 and 2369, as applicable.

The Offeror may waive or amend, in whole or in part, the terms of each of the Offer Conditions at any time and at its sole discretion (and, with regard to the Authorization Condition, to the extent of the applicable law), in compliance with the provisions under Article 43 of the Issuers' Regulations and giving notice in accordance with Article 36 of the Issuers Regulation.

In accordance with Article 36 of the Issuers' Regulations, the Offeror will give notice of the satisfaction or no satisfaction of the Offer Conditions, and, in the event that those Offer Conditions have not been satisfied, of any waiver of any or all of those Offer Conditions, within the following terms:

- 8 -

- (a) as to the Threshold Condition, with the announcement of the provisional results of the Offer that will be published by the evening of the last day of the Tender Period and, in any case, by 7:59 a.m. of the first trading day following the end of the Tender Period;
- (b) as to the Authorization Condition, by 7:59 a.m. of the trading day before the date of payment of the Price; and
- (c) as to the MAC Condition, by 7:59 a.m. of the trading day before the date of payment of the Price.

In the event that any of the Offer Conditions are not satisfied and the Offeror does not exercise its right to waive, the Offer shall not be completed. In that case, the Shares tendered to the Offer will be returned to their respective owners, by the end of the trading day following the first announcement declaring the lapse of the Offer. The Shares will be returned to their respective owners being imposed upon those owners.

#### 3.4 Term of the Offer

The acceptance period for the Offer (the "Acceptance Period") will be agreed with Borsa Italiana in compliance with the terms set out in Article 40 of the Issuers' Regulation and the duration will be between a minimum of 15 days and a maximum of 40 trading days, unless otherwise extended or in the case of the potential Reopening of the Terms (as defined below).

In accordance with Article 40-*bis* of the Issuers' Regulation, within the trading day following the payment date at the end of the Acceptance Period, the Acceptance Period shall be reopened for five trading days (the "Reopening of the Terms") if the Offeror, in the press release issued in connection with the disclosure of the provisional results of the Offer, announces that it has waived the Threshold Condition.

In accordance with Article 40-*bis*, paragraph 3 of the Issuers' Regulation, the Reopening of the Terms shall not take place, among other things, if:

- NAF 2 informs the market, at least 5 trading days before the end of the Acceptance Period, that it is has purchased at least half of the Offer Shares; or
- (ii) at the end of the Acceptance Period, the Offeror (together with the Persons Acting in Concert) holds a shareholding that triggers the purchase obligation under Article 108, paragraph 2 of the CFA (*i.e.*, more than 90% of the Issuer's share capital), having the Offeror declared its intention not to restore the floating shares, or to the exercise of the purchase right under Article 111 of the CFA and of the purchase obligation under Article 108, paragraph 1 of the CFA (*i.e.*, at least 95% of the Issuer's share capital).

#### 3.5 Potential Delisting

#### 3.5.1 Purchase obligation under Article 108, paragraph 2 of the CFA

As mentioned in Paragraph 2.2 above, the Offeror intends to carry out the Delisting of the Shares. Accordingly, if, as a result of the Offer, including the possible Reopening of the Terms, the Offeror (together with the Persons Acting in Concert) holds, as a result of the acceptance of the Offer and of any purchases made outside the Offer under the applicable legislation, as possibly reopened following the Reopening of the Terms, an overall shareholding greater than 90%, but less than 95%

-9-

of the Issuer's share capital, the Offeror hereby states its intention not to restore floating shares in an amount sufficient to ensure the regular trading of the Shares.

For the purpose of calculating the threshold provided for in Article 108, paragraph 2 of the CFA, the treasury Shares held by ASTM are added to the total participation held by the Offeror and the Persons Acting in Concert jointly considered.

If these conditions are satisfied, NAF 2 will, therefore, fulfil its obligation to acquire the remaining Shares from the Issuer's shareholders who have so requested in accordance with Article 108, paragraph 2 of the CFA (the "Purchase Obligation under Article 108, paragraph 2 of the CFA"). The price for the completion of the procedure concerning the Purchase Obligation under Article 108, paragraph 2 of the CFA will be determined in accordance with Article 108, paragraphs 3 or 4 of the CFA based on the number of Shares tendered in response to the Offer and may be, as the case may be, equal to the Price or determined by CONSOB in accordance with the criteria set forth in Article 50, paragraphs 4 and 5 of the Issuers' Regulation.

The Offeror will indicate in the notice on the final results of the Offer, which will be published by the Offeror in accordance with Article 41, paragraph 6 of the Issuers' Regulation (the "Notice on the Results of the Offer"), whether the conditions for the Purchase Obligation under Article 108, paragraph 2 of the CFA have been met. If so, the Notice on the Results of the Offer will contain information on (i) the number of the remaining Shares (both in terms of the number of Shares and in terms of the percentage of the Issuer's entire share capital); (ii) the terms and conditions by which NAF 2 will fulfil the Purchase Obligation under Article 108, paragraph 2 of the CFA; and (iii) the terms and timing of the Delisting of the Shares.

It should be noted that, if the conditions for the Purchase Obligation under Article 108, paragraph 2 of the CFA are met, in accordance with Article 2.5.1, paragraph 6, of the regulations of the markets organized and managed by Borsa Italiana (the "Stock Exchange Regulation"), Borsa Italiana will order the Delisting starting from the first trading day following the date of payment of the price relating to Purchase Obligation procedure under Article 108, paragraph 2 of the CFA, without prejudice to the provisions of Paragraph 3.4.2 set out *infra*. Therefore, following the fulfilment of the Purchase Obligation under Article 108, paragraph 2 of the CFA, the Shares will be delisted and the Issuer's shareholders who have decided not to tender their Shares and who have not requested NAF 2 to acquire their Shares, as provided for under Article 108 of the CFA, will hold financial instruments not traded on any regulated market, with the ensuing difficulties in selling their investment in the future.

#### 3.5.2 Purchase obligation under Article 108, paragraph 1 of the CFA and exercise of the right to purchase under Article 111 of the CFA

In the event that, as a result of the Offer, including the possible Reopening of the Terms, the Offeror (together with the Persons Acting in Concert) holds an overall shareholding of at least 95% of the Issuer's share capital within the end of the Acceptance Period (as possibly reopened following the Reopening of the Terms) as a result of the acceptance of the Offer and of any purchases made outside the Offer under the applicable law, as well as a result of the fulfilment of the Purchase Obligation under Article 108, paragraph 2 of the CFA, the Offeror hereby declares its intention to avail itself of the right to acquire the outstanding Shares under Article 111 of the CFA (the "Right to Purchase").

- 10 -

If these conditions are satisfied, by exercising the Right to Purchase, NAF 2 shall also fulfil the purchase obligation under Article 108, paragraph 1 of the CFA vis-a-vis the Issuer's shareholders who have requested it (the "Purchase Obligation under Article 108, paragraph 1 of the CFA"), thus triggering a single procedure (the "Joint Procedure").

The Right to Purchase will be exercised as soon as possible after the completion of the Offer or the Purchase Obligation under Article 108, paragraph 2 of the CFA.

Please consider that, for the purpose of calculating the threshold provided for in Article 108, paragraph 1, of the CFA and Article 111 of the CFA, the treasury Shares held by ASTM are added to the total participation held by the Offeror and the Persons Acting in Concert taken together.

The price due for the Shares purchased as a result of the exercise of the Right to Purchase and of the fulfilment of the Purchase Obligation under Article 108, paragraph 1 of the CFA, will be fixed in accordance with the provisions of Article 108, paragraphs 3 or 4 of the CFA, depending on the number of Shares tendered to the Offer, and may be, as the case may be, equal to the Price or determined by Consob in accordance with the criteria set forth in Article 50, paragraphs 4 and 5, of the Issuers' Regulation.

The Offeror will announce, in a specific section of the Notice on the Results of the Offer, whether the conditions for the exercise of the Right to Purchase have been met. In such case, the Notice on the Results of the Offer will also contain information on: (i) the quantity of the remaining Shares (in terms both of the number of shares and percentage of the entire share capital); (ii) the terms and conditions by which the Offeror will exercise the Right to Purchase and simultaneously fulfil the Purchase Obligation under Article 108, paragraph 1 of the CFA; and (iii) the terms and timing of the Delisting of the Issuer's Shares.

In accordance with Article 2.5.1, paragraph 6 of the Stock Exchange Regulations, if the Right to Purchase is exercised, Borsa Italiana shall suspend and/or dispose the Delisting of the Shares, taking into account the time required to exercise the Right to Purchase.

\*\* \* \*\*

If the Delisting is not achieved upon completion of the Offer (including the Reopening of the Terms of the Offer, if any):

- (i) there may in any case be a shortage of free floating shares such as not to ensure the regular course of trading of the Issuer's Shares and Borsa Italiana may order the suspension and/or delisting of the Issuer's ordinary shares pursuant to Article 2.5.1 of the Stock Exchange Regulations; in such a case, the Offeror hereby declares its intention not to restore a sufficient free float to ensure the regular course of trading of the Issuer's ordinary shares;
- (ii) the Offeror reserves the right to achieve the objective of the Delisting through the merger by incorporation of the Issuer into NAF 2 (an unlisted company), or into another unlisted company of the group headed by Nuova Argo Finanziaria. In such a case, the shareholders of the Issuer who did not vote in favour of the resolution approving the merger would have the right of withdrawal pursuant to Article 2437-quinquies of the Italian Civil Code, since, in such a case, they would receive in exchange unlisted shares

- 11 -

on a regulated market. In case of exercise of the withdrawal right, the liquidation value of the shares subject to withdrawal would be determined pursuant to Article 2437-*ter*, paragraph 3, of the Italian Civil Code, by exclusive reference to the arithmetic average of the closing prices during the six months preceding the publication of the notice of call of the shareholders' meeting called to approve the merger.

To the extent information relating to such purchases is made public in Italy, such information will be disclosed by means of a press release or other means of communication of equivalent scope in order to inform the Issuer's U.S. shareholders. No purchases will be made outside of the Offer in the United States by or on behalf of the Offeror and/or Persons Acting in Concert.

An Offer Document translated into English will be made available to the holders of the Shares resident in the United States of America. The English version of the Offer Document will be merely a courtesy translation and the Italian version of the Offer Document will be the only document submitted to CONSOB for its approval.

Should the Offeror exercise its right to amend the Offer on the last day available according to applicable law (*i.e.*, the date preceding the date set for the close of the Tender Period), the closing of the Tender Period may not take place in a term of less than 3 days from the date of publication of the amendment in compliance with applicable law and regulations.

It should be noted that, on the date hereof, Aurelia holds, directly and through Nuova Argo Finanziaria, a total of 69,361,688 equal to 49.363% of the share capital and 53.448% of the exercisable voting rights in the Shareholders' Meeting (calculated net of treasury shares in portfolio).

The financial instruments subject of the Reallocation Commitment consist of: (i) 18,000,000 of shares of Nuova Argo Finanziaria S.p.A. held by Aurelia, equal to 60% of the related share capital; and (ii) 12,000,000 shares of Nuova Argo Finanziaria S.p.A. held by Mercure, equal to 40% of the related share capital.

## 4. Content of the Reallocation Commitment

In relation to the Offer, on 20 February 2021 Mercure entered into an agreement with Nuova Argo Finanziaria and NAF 2, relevant pursuant to Article 122, paragraph 1 and 5, of the CFL, aimed at regulating, *inter alia*, Mercure's commitment in the event of a successful completion of the Offer (as defined below) to confer in Nuova Argo Finanziaria, at a total value equal to the Price, all shares held by the same in ASTM (the **"Contribution**"), in exchange for a number of Shares of Nuova Argo Finanziaria calculated on the basis of an equity value of Nuova Argo Finanziaria equal to the Shares of ASTM owned by Nuova Argo Finanziaria and NAF 2, in each case multiplied by the Price, less the indebtedness of Nuova Argo Finanziaria and the indebtedness of NAF 2 pre-Merger (as defined below), to be issued in the context of a capital increase to be resolved upon by the shareholders' meeting of Nuova Argo Finanziaria pursuant to Article 2441 of the Italian Civil Code (the **"NAF Capital Increase**"). Mercure's commitment to perform the Transfer is subject to the Successful Completion of the Offer, by this meaning the occurrence of the effectiveness condition of the Offer, or the waiver of the same (where permitted, depending on the case, in accordance with the applicable legislation) by the Board of Directors of NAF 2 (which must always be composed of two members) and, therefore, the successful completion of the Offer").

Upon the completion of the Contribution, the share capital of Nuova Argo Finanziaria will be held by Aurelia, with an estimated equity interest of 58% in Nuova Argo Finanziaria and Mercure, with an estimated equity interest 42% in Nuova Argo Finanziaria (each, the "**Post-Contribution Interest**").

Upon the completion of the Reallocation Commitment, the Parties intend to rebalance their stakes in Nuova Argo Finanziaria through the sale, by Aurelia, and the purchase, by Mercure of the Delta Shares (as defined below), subject to the reallocation of the Suspensive Conditions of the Delta Sale (as defined below), it being understood that Aurelia will remain the sole controlling entity of Nuova Argo Finanziaria and ASTM.

Subject to (i) approval by the relevant corporate bodies of Mercure and Ardian France; (ii) the Successful Completion of the Offer; (iii) the full completion and effectiveness of the merger, which must have place subject to the successful completion of the Offer, of NAF 2 and ASTM pursuant to Article 2501–*bis* of the Italian Civil Code (the "**Merger**") (the conditions set out in points (i), (ii) and (iii), jointly, the "**Conditions Precedent of The Delta Sale**"), at Closing (as defined below), Mercure shall purchase from Aurelia, and Aurelia will sell to Mercure, a number of shares in Nuova Argo Finanziaria equal to the difference between:

- (i) the shares of Nuova Argo Finanziaria representing the Post-Contribution Interest of Aurelia; and
- (ii) the shares of Nuova Argo Finanziaria representing 50.5% of the share capital of Nuova Argo Finanziaria as of the date of the Contribution (the "**Delta Shares**"),

so that, upon completion of the purchase and sale of Delta Shares, the share capital of Nuova Argo Finanziaria will be held by:

- Aurelia, with an equity interest of 50.5%; and
- Mercure, with an equity interest of 49.5%.

The Parties have agreed that the price to be paid for the Delta Shares shall (i) fully reflect the valuation of ASTM at the Price and (ii) take into account the indebtedness of Nuova Argo Finanziaria and NAF 2. Therefore, the aggregate purchase price for the Delta Shares shall be equal to the number of Delta Shares multiplied by the Nuova Argo Finanziaria unitary equity value (the "**Purchase Price**"), provided that:

- (i) the Nuova Argo Finanziaria equity value shall be equal to: the number of ASTM Shares owned by Nuova Argo Finanziaria multiplied by the Price + (*plus*) the number of ASTM Shares owned by NAF 2 multiplied by the Price (*less*) NAF 2 indebtedness pre-Merger (*less*) Nuova Argo Finanziaria debt; and
- (ii) the Nuova Argo Finanziaria equity value shall be equal to the value of Nuova Argo Finanziaria equity value divided by the total shares of Nuova Argo Finanziaria.

Once it has been determined pursuant to the above principles, the Purchase Price will be fixed and will not be subject to any adjustment whatsoever.

The closing of the sale and purchase of Delta Shares (the "**Closing**") shall take place, subject to the satisfaction of the Conditions Precedent of the Delta Sale.

## 5. <u>Duration</u>

The Reallocation Commitment was signed on 20 February 2021 and has entered into force since such date.

If the Conditions Precedent of The Delta Sale are not satisfied in accordance with the Reallocation Commitment, the Parties rights and obligations under the Reallocation Commitment will terminate and cease to have effect and the Parties shall have no claims against each other in respect of any such rights and obligations, other than in case of breach of such provisions occurred prior to their termination.

The mutual undertakings assumed by the Parties pursuant to the Reallocation Commitment shall constitute a preliminary agreement within the meaning and pursuant to Article 1351 of the Italian Civil Code. It should be noted that the actions subject to the New Shareholders' Agreement and representing the Relevant Stake are the subject of the provisions indicated in paragraphs 4.1 and 4.2.1 below, while the shares representing the Available Participation are the subject of the only provisions indicated in paragraph 4.2.2 below.

# 4. Content of the New Shareholders' Agreement

# 4.1. Exercise of voting rights relating to the Relevant Stake

Aurelia committed to exercise voting rights and other corporate rights (other than economic rights) relating to the Relevant Stake in accordance with voting rights and other corporate rights (other than economic rights) exercised by Nuova Argo.

To this end, Nuova Argo will communicate to Aurelia and the Investor, within the business day prior to each meeting of ASTM shareholders, its intentions regarding the exercise of voting rights and other corporate rights (other than economic rights) relating to ASTM shares held by ASTM. In the absence of such communication, the representative of Aurelia who will participate in the shareholders' meeting of ASTM will exercise the right to vote relating to the Relevant Stake in accordance with the votes cast by Nuova Argo.

## 4.2. <u>Transfer of ASTM shares directly held by Aurelia</u>

## 4.2.1 Lock-Up Period of the Relevant Stake

For the entire duration of the New Shareholder's Agreement, Aurelia will not be able to transfer, in whole or in part, the Relevant Stake.

## 4.2.2 Right of first offer of the Available Share

Aurelia grants Nuova Argo a right of first offer that can be exercised if Aurelia intends to transfer, in whole or in part, the ASTM shares representative of the Available Share.

If, within the period of exercise of the right of first offer:

- (i) Nuova Argo does not submit any offer to purchase the Available Share being transferred due to the vote exercised by the directors designated by Aurelia, or
- (ii) (a) during the Board of Directors of New Argo convened to decide on the submission of the offer, the proposal submitted by the directors of Nuova Argo designated by the Investor provides for a consideration higher than the consideration provided for in the proposal presented by the directors nominated by Aurelia and, following the vote of the directors nominated by Aurelia and the Investor, the offer submitted by Nuova Argo is made at the lower price contained in the proposal presented by the directors of Nuova Argo nominated by Aurelia, and (b) the offer presented by Nuova Argo is not accepted by Aurelia,

Then in both cases referred to in points (i) and (ii), the Investor will have a right of first offer on the ASTM shares being sold.

If no offer is submitted, as the case may be, by Nuova Argo and/or the Investor (or the same are not accepted by Aurelia), Aurelia may transfer the shares being sold to any subject, subject to compliance with the additional conditions specified in the New Shareholders' Agreement.

In partial derogation from the above restrictions, Aurelia may freely transfer, in whole or in part, the Available Participation in favor of members of the Gavio family, of companies wholly controlled by them and/or of trusts whose beneficiaries are, exclusively, members of the Gavio family.

# 5. Duration

The New Shareholders' Agreement was executed on 13 June 2019 and entered into force from the Effective Date of the Merger.

The New Shareholders' Agreement will remain in force until the third anniversary of the Effective Date of the Merger.

The Parties have agreed that the New Shareholders' Agreement must be automatically terminated in the event that (i) Aurelia ceases to be a shareholder of Nuova Argo, or (ii) Nuova Argo ceases to be a shareholder of ASTM. In the event that the Investor ceases to be a shareholder of Nuova Argo, the New Shareholders' Agreement will cease to be effective only for the Investor.

# 6. Subject exercising control pursuant to Art. 93 CFL

The shareholders' agreement contained in the New Shareholders' Agreement does not affect the control of ASTM which is exercised indirectly and only by Aurelia, through Nuova Argo, pursuant to Art. 93 CFL.

# 7. Filing of the New Shareholders' Agreement with the Companies Register

The New Shareholders' Agreement was filed in the terms of the law with the Turin Business Register on 18 June 2019.

## 8. Website where essential information relating to the New Shareholders' Agreement is published

The essential information relating to the shareholders' agreement contained in the New Shareholders' Agreement is published, pursuant to Articles 130 and 131, paragraph 2, of the Issuers' Regulation, on the ASTM website (www.astm.it).

January 2, 2020

# Essential information pursuant to art. 122 of Legislative Decree 24 February 1998, n. 58 ("CFL") and art. 130 and 131 of the Regulation adopted with CONSOB resolution no. 11971 of May 14, 1999 as subsequently amended and supplemented ("Issuers' Regulation")

#### ASTM S.p.A.

Pursuant to art. 122 CFL and art. 130 and 131 of the Issuers' Regulation, the following is announced.

#### <u>Premise</u>

- (a) On September 27, 2018 (the "Closing Date"), Aurelia S.r.l. ("Aurelia"), a company whose share capital is entirely held by members of the Gavio family, and Mercure Investment S.à r.l. ("Investor"), a wholly owned subsidiary of Mercure Holding SCA, in turn managed by the General Partner Mercure Management S.à r.l., controlled by Ardian S.A.S., entered into a shareholders' agreement (the "Shareholders' Agreement" or "Agreement"), containing relevant provisions ex Art. 122, paragraphs 1 and 5 CFL, aimed at regulating the terms and conditions of their relationship as members of Nuova Argo Finanziaria S.p.A. ("Nuova Argo") and concerning, *inter alia*, the governance and transfers of shares of Nuova Argo, ASTM S.p.A. ("ASTM") and SIAS Società Iniziative Autostradali e Servizi S.p.A. ("SIAS").
- (b) On 13 June 2019, the Boards of Directors of ASTM and SIAS approved, each to their competence, a corporate integration operation to be carried out through (i) the merger by incorporation of the subsidiary SIAS into the parent company ASTM (the "Merger"); and (ii) the launch by ASTM of a partial voluntary Tender Offer bid on n. 11,377,108 SIAS ordinary shares, equal to 5.00% of the share capital (the "Tender Offer" and, together with the Merger, the "Transaction").
- (c) Taking into account the dilutive effects of the Merger on Nuova Argo's stake in ASTM (as a company resulting from the Merger) and in order to maintain, even after the completion of the Merger, an ownership and governance structure of ASTM substantially equivalent to that in place, on 13 June 2019, Nuova Argo, Aurelia and the Investor entered into, effectively since the Effective Date of the Merger (as defined below), a shareholders' agreement aimed at governing (i) the transfer of ASTM shares and the exercise of corporate rights (other than economic rights) relating to a number of ASTM shares directly held by Aurelia such that, adding this number to the total ASTM shares held directly and indirectly from Nuova Argo, represents from time to time 50% plus a share of the share capital consisting of voting shares (and therefore excluding the own shares held by ASTM) (the" Relevant Stake") and (ii) the transfer of ASTM shares directly held by Aurelia which, from time to time, exceed the Relevant Stake.
- (d) Also on June 13, 2019, the Investor and Aurelia also executed an Amendment Agreement of the Shareholders' Agreement (the "Amendment Agreement") that supplements and updates the text of some provisions of that agreement. The Amendment Agreement provided that the amendments made to the Shareholders' Agreement would enter into force only subject to and from the Effective Date of the Merger (as defined below), with the exception of some limited provisions relating to the exercise of their voting rights in the context of the Merger, which entered into force from the date of execution of the Amendment Agreement. The content of the Shareholders' Agreement, as amended by the Amendment Agreement, has been made known pursuant to Art. 122 of the CFL as well as 130 and 131 of the Issuers Regulation on 18 June 2019.
- (e) The Merger was approved by resolutions taken by the Extraordinary Shareholders' Meetings of ASTM and SIAS held on 16 October 2019 and was completed on 31 December 2019 (the "Effective

**Date of the Merger**"), in accordance with the provisions of the deed of merger registered in the Turin Register of Companies on 20 December 2019. The Merger was carried out through (i) the cancellation without exchange of SIAS shares owned by ASTM on the Effective Date of the Merger and (ii) the cancellation of SIAS shares owned by SIAS shareholders other than ASTM on the Effective Date of the Merger and the simultaneous assignment to the latter, based on the exchange ratio of 0.55 ASTM shares for each SIAS share, of n. 41.516.295 ASTM shares. As a result of the Merger, therefore, ASTM's capital is Equal to Euro 70.257.447,50, divided into no. 140.514.895 ASTM shares.

(f) As from the Effective Date of the Merger, the amendments and updates made to the Shareholders' Agreement by the Amendment Agreement, the effectiveness of which was subject to the completion of the Merger, entered into force; Furthermore, from the Effective Date of the Merger, the agreements of a parasocial nature relating to the exercise of voting rights in the context of the Merger that entered into force on the date of signature of the Amendment Agreement have exhausted their effectiveness.

In the light of the letter (c) and (f) above, the following are reported, pursuant to Art. 122 CFL and Articles 130 and 131, paragraph 2, of the Issuers Regulation, the essential information of the Shareholders' Agreement updated to the Effective Date of the Merger.

#### Investor veto rights in ASTM

Aurelia committed to cause that the resolutions of the Board of Directors of ASTM concerning, among other things, the following matters, not falling within the Excluded Materials, are not approved without the favorable vote of at least one designated director of the Investor (other than the independent director) (the "ListCo Board Vetoed Matters"): (i) any proposal for resolution at the shareholders' meeting concerning the Relevant Matters, (ii) any: (aa) transfer by ASTM, IGLI S.p.A. and/or Primav of the shares of Primav and/or Ecorodovias which entails the termination of the current situation of joint control over Ecorodovias or control over Ecorodovias if ASTM has acquired solitary control over Ecorodovias; (bb) acquisition by ASTM, IGLI S.p.A. and/or Primav of shares in Primav and/or Ecorodovias that may result in the obligation to launch a tender offer pursuant to the law on the shares of Ecorodovias and/or result in IGLI S.p.A. or Primav directly or indirectly having more than 60% of Ecorodovias; (iii) the formulation of voting instructions to the representatives of IGLI S.p.A., respectively, at the shareholders' meeting of Primav or Ecorodovias, concerning the Relevant Matters; (iv) transactions with related parties of a total amount exceeding Euro 1 million for each financial year, with the express exclusion - under certain conditions - of transactions between companies controlled by ASTM or between it and its subsidiaries; (v) bond issuance, collateral issuance or new financial debt assumption operations that are not provided for in the Group's business plan for the 2017-2021 period and which would result in an increase in the consolidated ratio of ASTM's net financial position to EBITDA of more than 4x; (vi) acquisition of new motorway concessions in countries subject to sanctions by, among others, the European Union and the United States of America; (vii) having stopped the provisions of (ii) above, acquisition of motorway concessions or extension or extension of existing concessions whose amount (or effect on the ratio of consolidated net financial position to ASTM EBITDA) exceeds the quantitative thresholds identified in the Shareholders' Agreement; (viii) changes to motorway concessions that are not provided for in the Group's business plan for the 2017–2021 period, the value of which is more than 2% of the net present value of the operating unit within the ASTM group made up of Italian and foreign companies controlled by the same that hold motorway concessions or, in any case, whether the current net value of the concession is negative; (ix) acquisition or transfer of companies or companies and participation in joint ventures

#### Transfer of shares in Nuova Argo and ASTM

#### Nuova Argo

#### Lock-Up period

Nuova Argo's articles of association provide that shareholders may not transfer their stakes in Nuova Argo for a period of 5 years (the "**Lock-Up Period**"). Even after the Lock-Up Period expires, the Investor will not transfer, directly or indirectly, Nuova Argo's shares to any competitor of ASTM without Aurelia's prior consent.

In partial derogation from the above restrictions, each Party may transfer the shares of Nuova Argo to entirely controlled entities, subject to compliance with the additional conditions specified in the Shareholders' Agreement (the "**Permitted Transfer**").

#### Right of first offer on Nuova Argo shares

Each Party grants the other a right of first offer that can be exercised if, after the Lock–Up Period, a Party intends to transfer, in whole or in part, the shares of Nuova Argo to a third party. If no offer is submitted by the non-transferring Party (or is not accepted), the transferring Party may transfer the shares being sold to any entity, subject to compliance with the additional conditions specified in the Shareholders' Agreement.

#### Investor co-sale right (tag-along right)

In the event that Aurelia receives from a third party an offer to purchase all or part of the stake held in Nuova Argo and intends to accept such offer, the Investor will have the right to transfer to the third party transferee, under the terms and conditions specified in the Shareholders' Agreement:

- (i) The entire stake held in Nuova Argo, if as a result of the transfer Aurelia ceases to hold control of Nuova Argo ("**Co-Sale CoC**"); or
- (ii) A percentage of its stake (calculated on the Investor's total stake) equal to the percentage of Aurelia's stake subject to the offer (calculated on the total stake of Aurelia), if Aurelia does not cease to hold control of Nuova Argo as a result of the transfer.

Joint sale procedure

From the 13th anniversary of the Closing Date, Aurelia will have the right to initiate a joint sale procedure to third parties through a competitive auction for the sale of the entire share capital of Nuova Argo, without prejudice to the right of first offer in favor of the Investor for the purchase of the entire stake. The competitive auction will be organized and managed, under the terms and conditions more precisely indicated in the Shareholders' Agreement, by a primary business bank of international standing identified jointly by the Parties or designated by the ICC International Centre for ADR. If Aurelia intends to accept the best offer received as part of the auction procedure, the Investor will be obliged to sell his entire stake under certain conditions identified in the Shareholders' Agreement.

## Investor Put Option

The Parties agree that the Investor will have the right to sell to Aurelia, under the terms and conditions of the Shareholders' Agreement, its entire stake in Nuova Argo if:

- there is a change of control of Aurelia (other than a change of control caused by a transfer in favor of members of the Gavio Family (as defined in the Shareholders' Agreement) that does not result in the obligation to promote a mandatory tender offer bid on ASTM's shares) and the Investor does not exercise the right of first offer that will be provided in the articles of association of Aurelia ("**Put CoC Option**"); or
- (ii) the provisions of Aurelia's articles of association relating, inter alia, to the recognition to the Investor of the right of first offer in the event of transfers of shares of Aurelia and the prohibition of the sale of Aurelia shares for 5 years following the Closing Date (or these provisions are circumvented through transactions carried out through companies that directly or indirectly own the share capital of Aurelia).

#### Aurelia Call Option

The Parties agree that Aurelia will have the right to purchase, under the terms and conditions of the Shareholders' Agreement, the entire stake held by the Investor in Nuova Argo if certain provisions of the Investor's articles of association are modified or the related provisions of the shareholders' agreement to be executed between the shareholders of Mercure Holding SCA (a company that holds the Investor's entire capital), relating to, *inter alia*, the prohibition of sale to competitors of ASTM and/or SIAS, the lock up of 5 years from the Closing Date or the recognition to Aurelia of a right of first offer in the event of transfers (or such provisions are circumvented through transactions carried out through companies that directly or indirectly own the Investor's share capital).

#### ASTM

## Investor's right of first offer on the transfer of ASTM shares

The Investor will have a first offer right on the shares of ASTM owned by Nuova Argo that can be exercised (i) after the completion of the 5th anniversary of the date of subscription of the Shareholders' Agreement, (a) if Nuova Argo intends to transfer these shares and, as a result of such transfers, comes to hold a stake in ASTM lower than 50% plus one share of the relevant shareholding capital or (b) in the event that Nuova Argo does not hold at least one stake in ASTM of at least 50% plus a share of its share capital, if Nuova Argo intends to transfer those shares, and (ii) at any time, if Nuova Argo intends to divest those shares and continues to own at least 50% plus one of ASTM's shares.

#### Transfer of a minority stake in ASTM

Until the 2nd anniversary of the signing date of the Shareholders' Agreement, Aurelia will cause that Nuova Argo does not transfer any share of ASTM. After the 2nd anniversary of the date of signature of the Shareholders' Agreement and up to the 5th anniversary of the date of signature of the Shareholders'

Agreement, the Parties acknowledge that at any time Nuova Argo has the right to transfer its shareholdings in ASTM provided that it continues to own 50% plus one of ASTM's shares (the "ASTM Minority Stake"), solely through transparent sales procedures in the form of accelerated bookbuilding or market transactions referred to in Art. 144-bis, *paragraph* 1(.b) of the Issuers Regulation ("Fair Sale Procedure").

Between the 2nd and 5th year following the Closing Date, Nuova Argo will be entitled to transfer the ASTM Minority Stake provided that (i) it maintains a stake in ASTM of at least 50% plus one share of its share capital and (ii) the number of ASTM shares thus transferred does not exceed 2% of the issued share capital of ASTM. The limit referred to in (ii) may be exceeded, provided that Nuova Argo continues to maintain a stake in ASTM of at least 50% plus one share of its shares are transferred at a price not lower than the higher of: (aa) the price of each ASTM share as determined in the Shareholders' Agreement and (bb) the average price weighted by the volume of each ASTM share over the last three months prior to the transfer.

# Transfer of holdings held in ASTM

After the completion of the 5th anniversary of the date of signing of the Shareholders' Agreement, without regard to the Investor's right to first offer on the transfer of the ASTM shares mentioned above, Nuova Argo will have the right to transfer its stakes in ASTM without any limitation.

# *Commitments relating to the transfer of the stake held directly by Aurelia in ASTM after the expiry of the New Shareholders' Agreement*

After the expiry of the New Shareholders' Agreement, (i) Aurelia will inform Nuova Argo in advance of its intention to transfer to third parties (other than (aa) the members of the Gavio Family (in the definition contained in the Shareholders' Agreement); (bb) one or more companies wholly owned by members of the Gavio Family; and/or (cc) trustees of a trust whose beneficiaries are, exclusively, members of the Gavio Family) the shares of ASTM directly held by ASTM and (ii) Aurelia and the Investor will cause that Nuova Argo informs Aurelia in advance of its intention to acquire shares of ASTM from third parties. It should be noted, however, that such information obligations cannot be interpreted in such a way as to guarantee a right of first offer or a right of first refusal in favour of Nuova Argo or Aurelia, as the case may be.

# Standtill obligation

The Shareholders' Agreement provides for a standstill clause under which the Parties, if they intend to proceed with the purchase of new shares of ASTM, agreed to proceed exclusively through Nuova Argo. In particular, Aurelia and the Investor, directly or indirectly, individually or with entities acting in concert (other than Nuova Argo): (aa) will not purchase or submit offers for the purchase of, nor will they cause that another entity purchases or submits offers for the purchase of ASTM, without the prior written consent of the other Party; (bb) will not enter into agreements, contracts or acts, nor will they perform or omit to take actions under which the Parties or any other entity purchases or is obliged to purchase a direct or indirect interest in ASTM's shares, without the prior written consent of the other Party. It is understood, however, that the Investor and/or its controlling shareholder may purchase (i) from Aurelia a part of the shares of ASTM directly held by Aurelia in accordance with the provisions of the New Shareholders' Agreement or (ii) on the market, in whole or in part, the shares of ASTM directly held by Aurelia and/or (iii) shares of ASTM only in the case of the exercise of the right of first offer mentioned above.

# Other commitments

# Obligations relating to a mandatory tender offer

If, due to a transaction in which the Gavio Family (in the definition contained in the Shareholders' Agreement) and/or Aurelia participate, which is not expressly authorized by the Investor, Nuova Argo is obliged to promote a mandatory tender offer bid on ASTM (or is otherwise jointly responsible with other parties to promote such mandatory tender offer bid), Aurelia:

- (i) will assume in full any obligation regarding such a mandatory tender offer (including, but not limited to, the obligation to pay the consideration for the offer);
- (ii) will cause that the mandatory tender offer is promoted by a company other than Nuova Argo;
- (iii) will hold harmless and fully indemnify the Investor in relation to any damage, cost, expense and/or sanction related to the mandatory public offer.

#### Exercise of voting rights by Aurelia

Without prejudice to the provisions of the New Shareholders' Agreement, Aurelia committed to cause that members of the Gavio Family exercise voting rights and other administrative rights (other than economic rights) relating to holdings held directly by members of the Gavio Family in ASTM, in accordance with the provisions of the Shareholders' Agreement.

#### Investor trade-in right

If (i) Nuova Argo has a stake in ASTM of at least 50% plus a share of its share capital and (ii) exercises the Co-Sale CoC or the Put CoC Option, the Investor will have the right to trade in, under the terms and conditions provided for in the Shareholders' Agreement, part of Nuova Argo's shares in shares of ASTM, according to an exchange ratio equal to the ratio between : (i) the price for each share of Nuova Argo payable to the Investor and (ii) the price of each ASTM share determined, looking through, on the basis of the share price of Nuova Argo.

## Dividend policy

The Parties agreed to cause that, for the entire duration of the Shareholders' Agreement, Nuova Argo and ASTM, without prejudice to the applicable legal provisions, comply with the following dividend policy:

- (i) Nuova Argo will distribute to its shareholders, for each financial year, the lower between (aa) the available cash exceeding the amount of Euro 1,065,000, net of the compensation granted to the members of the Board of Directors and (bb) the net profit and available reserves resulting from the financial statements; and
- (ii) ASTM will distribute to its shareholders, for each financial year, the lowest amount between (aa) the available fund and (bb) at least 60% of the net profit resulting from the consolidated financial statements (net of the profit shares attributable to minorities of ASTM consolidated companies).

Aurelia and the Investor acknowledge that Article 35 of the Articles of Association of Nuova Argo has been amended to take into account, for the purposes of calculating the Average Annual Return, the higher costs (none excluded, including the costs of advisors and consultants) incurred by Nuova Argo exclusively with reference to the Transaction.

Aurelia and the Investor acknowledge that in the event of extraordinary transactions that will be carried out by Nuova Argo and ASTM, the impact on the Average Annual Return must also be taken into account in the evaluation of the same.

## Capitalization commitments for Nuova Argo

Without prejudice to the Investor's veto rights, if (i) ASTM decide on a capital increase with the pre-

emption right aimed exclusively at financing ASTM infrastructure projects and, (ii) the Board of Directors of Nuova Argo shall decide, with the favorable vote of a director appointed by the Investor, to exercise the pre-emption right in relation to the subscription of such capital increase, Aurelia and the Investor agreed to provide Nuova Argo with the necessary resources to subscribe to this capital increase, up to the total maximum amount of Euro 500 million and provided that the subscription period for that capital increase expires before the fifth year from the date of subscription of the Shareholders' Agreement.

## Deadlock

The Shareholders' Agreement provides that, in order to prevent the occurrence of a decision-making stalemate in the management of Nuova Argo that may harm the activities and prejudice the interest of the company, in the event that the Shareholders' Agreement ceases to apply: (i) the Investor may exercise the right of withdrawal provided for in the articles of association of Nuova Argo, if Aurelia communicates its intention to withdraw from the Shareholders' Agreement, and (ii) Aurelia may exercise a call option for the purchase of the Investor's stake, under the same terms and conditions as provided for in the Shareholders' Agreement, if the Investor communicates his intention to withdraw from the Shareholders' Agreement.

#### Investor dilution

If the Investor comes to hold a stake of less than 25% but more than 12.5% of the share capital of Nuova Argo (the "**Dilution**"), the Investor's rights provided for in the Shareholders' Agreement will be automatically changed. In particular, and by way of example: (aa) the number of Directors of Nuova Argo appointed by the Investor will be reduced to one; (bb) the Investor will not have the right of veto in respect of some of the Nuova Argo Board Vetoed Matters mentioned above; (cc) the Investor will not have the right of veto in respect of some of the ListCo Board Vetoed Matters mentioned above.

In addition to the above, if the stake held by the Investor is equal to or less than 12.5% but more than 5% of the share capital of Nuova Argo (the "**Second Dilution**"), the Investor's rights provided for in the Shareholders' Agreement will be further automatically changed. In particular and by way of example: (aa) the number of Directors of Nuova Argo appointed by the Investor will be reduced to one; (bb) the slate for the appointment of the Board of Directors of ASTM will contain only one candidate designated by the Investor, who will not meet the independence requirements provided under the law and the Corporate Governance Code; (cc) the Investor will not have the right in relation to the shareholders' resolutions of Nuova Argo and ASTM, concerning mergers or demergers, capital increases with the pre-emption right, if the subscription price is lower than the market value of the shares of Nuova Argo or the distribution of dividends for amounts below the dividend policy agreed under the Shareholders' Agreement; (dd) the Investor will lose some additional veto rights in respect of Nuova Argo Board Vetoed Matters.

Without prejudice to the above, if the percentage of the share capital of Nuova Argo held by the Investor becomes equal to or less than 5% (the "**Third Dilution**") all the remaining rights held by the Investor as a result of the Dilution and the Second Dilution will not apply, with the exception of the provisions relating to the Investor's right of co-sale.

Where (aa) the percentage of Nuova Argo's share capital held by the Investor becomes less than 25% of the share capital of Nuova Argo, at Aurelia's written request, the Investor must obtain the resignation of (i) two Directors appointed by the latter in Nuova Argo and (ii) a director appointed by the Investor in ASTM, (bb) the percentage of the share capital of Nuova Argo held by the Investor becomes equal to or less than 12.5% of the share capital of Nuova Ago, at Aurelia's written request, the Investor must obtain the resignation of a further Director appointed by the latter in ASTM and (cc) the percentage of the share capital of Nuova Argo, at the written request of Aurelia, the Investor must obtain the resignation of all and no less than

all the remaining Directors appointed by the latter appointed in ASTM.

Finally, in the event that the Investor comes to hold a stake of more than 50% of the share capital of Nuova Argo, Aurelia will acquire the rights and obligations attributed to the Investor and the Investor will acquire the rights and obligations attributed to Aurelia.

#### 5. Duration

The Shareholders' Agreement was executed on 27 September 2018 (Closing Date), and will remain in force until the third anniversary of the aforementioned date.
