Working capital

- Increase in working capital due to the increase in inventories, as a result of the need to **ensure continuity of supplies and to limit the impact of changes in raw material prices**
- Nevertheless lower incidence of NWC on turnover: 23.3% compared to 31.8% at 31 March 2020 and 28.2% at 31 December 2020

Investments

The high levels of activity led the Group to bring forward to 2021 some investments originally planned for 2022, where growth is considered structural, in order to be able to guarantee continuity in supplies to customers and full production efficiency
