- **By 31st March 2023** – Board of Directors to approve the fully-audited draft of Financial Statements as at 31st December 2022;
- **By 30th April 2023** – Convocation of the Ordinary General Shareholders’ Meeting to approve the fully-audited Financial Statements as at 31st December 2022;
- **By 20th July 2023** – Board of Directors to approve preliminary financial figures as at 30th June 2023 (unaudited);
- **By 25th July 2023** – Webinar to present the market with preliminary financial figures as at 30th June 2023;
- **By 29th September 2023** – Board of Directors to approve the half-yearly Financial Report as at 30th June 2023, subject to limited audit.

The calendar is available in the **Investors** area of the Energy S.p.A. website, via the link <https://www.energysynt.com/investors/calendario-finanziario>

The Company will promptly communicate to the market any changes to the calendar.

About Energy

Energy S.p.A., founded in 2013 by Davide Tinazzi, Andrea Taffurelli and Massimiliano Ghirlanda, is a company headquartered in the province of Padua, Italy, as an industry leader in offering energy storage systems for both residential and large-scale applications. Such systems allow energy to be stored then released in accordance with the energy needs of customers. To date, Energy has sold over 45,000 systems that have already been installed nationwide, dedicated to the residential, commercial, industrial, utilities and electric mobility markets. Amongst the most significant projects to be realised are the large plant in Comiso, Sicily, consisting of an agricultural-solar plant and a photovoltaic field, the large installation dedicated to the CAAB in Bologna, Smart Grids in numerous municipalities of Sardinia and Lombardy, along with a Condominium Energy Community in Switzerland where individual hubs exchange energy in line with need. Energy’s sales channels include both generalist electrical distributors and solar specialists, with the company also working with large European EPCs. The proximity of Energy’s logistics to the headquarters of major distributors has led the company to forge strong partnerships with players in the Italian and European markets. The company sources

components from leading international suppliers, combined with proprietary Zero Co₂ software into systems in compliance with EU standards.
