## PRESS RELEASE

### Gas Plus: Longanesi Field – Gas production started with Long Production Test

**Milan, 13 March 2025**

The Gas Plus Group, as the operator of the Longanesi concession in joint venture with its partner Aleanna Italia SpA, has started this afternoon natural gas production from the relevant field and the supply of gas to the Snam network.

Stabilization of the production facilities is currently underway, aimed at the subsequent ramp-up of the production.

Longanesi' reserves (2P) in Gas Plus' share are estimated by the independent reserves auditor SIM at 1.100 million cubic meters.

*Gas Plus is the fourth Italian producer of natural gas (estimates by the Italian Regulatory Authority for Energy, Networks and Environment, "ARERA") after Eni, Energean Italy and Shell Italia E&P. It is active in the main sectors of the natural gas supply chain, in particular in the exploration, production, purchase, distribution and sale to retail customers. As of December 31, 2024, the Group has 41 exploitation concessions located throughout the Italian territory, manages a total of approximately 1,800 kilometres of distribution network located in 40 municipalities, serves a total of approximately 48,500 end customers, with a staff of approximately 130 employees.*
