Technoprobe Group

Technoprobe is a leading semiconductor and microelectronics company. Established in 1996, Technoprobe specializes in the design and manufacture of electro-mechanical interfaces called Probe Cards for chip function testing. Probe Cards are high-tech devices – tailored to the specific chip – that allow you to test the operation of chips during their construction process. These are projects and technological solutions that guarantee the operation and reliability of devices that play a decisive role in the Information Technology, 5G, Internet of Things, home automation, automotive, and aerospace industries. Technoprobe has its headquarters in Italy, in Cernusco Lombardone (LC). Since May 2, 2023, Technoprobe has been listed on the Euronext Milan market. For more information: www.technoprobe.com
