PRESS RELEASE

PRYSMIAN NAMED AS PREFERRED BIDDER FOR MAJOR UK HIGH VOLTAGE ENERGY INTERCONNECTION PROJECT

Milan, September 30, 2025 – Prysmian has been selected as the preferred bidder for the high voltage (HDVC) cable interconnector project 'Eastern Green Link 4' by the GB transmission owners, SP Transmission plc and National Grid Electricity Transmission plc.

Contract negotiations are ongoing, and further communication will be made in due course. The value of the award is expected to be approximately €2 billion.

The project, which will run between Scotland and England, via a route in the North Sea, will play a central role in further enhancing the energy security of the United Kingdom. Eastern Green Link 4 will be part of future proofing the British energy grid while facilitating the transition to clean and more affordable energy.

Prysmian has a long history of delivering major interconnectors in the UK, including the Eastern Green Link 1 & 2 projects and the Viking Link interconnector, which is the longest land and subsea high voltage cable interconnector in the world.

Prysmian

Prysmian is a global cable solutions provider leading the energy transition and digital transformation. By leveraging its wide geographical footprint and extensive product range, its track record of technological leadership and innovation, and a strong customer base, the company is well-placed to capitalize on its leading positions and win in new and growing markets. Prysmian's business strategy perfectly matches key market drivers by developing resilient, high-performing, sustainable and innovative cable solutions in the segments of Transmission, Power Grid, Electrification and Digital Solutions. Prysmian is a public company listed on the Italian Stock Exchange, with almost 150 years of experience, over 33,000 employees, 107 plants and 27 R&D centers in over 50 countries, and over €17 billion of revenues in 2024.
