Consequently, any disclosure of inside information pursuant to Regulation (EU) no. 596/2014 at the time of the assignment of the Rights would not have an appreciable effect on the conduct of the Beneficiaries, who, at that time, cannot carry out any transaction on the Shares subject to the Plan, as the delivery of the same is deferred to a time subsequent to that of the assignment of the Rights.

The Company will, in any case, comply with the obligations of disclosure to the market, where required by the laws and regulations in *force at* the time.

4. THE CHARACTERISTICS OF THE INSTRUMENTS ALLOCATED

4.1 Description of the forms in which compensation plans based on financial instruments are structured

The Plan provides that the Beneficiaries identified by the Company will be assigned Free Rights, consisting of the right to the free allocation of Shares by the Company.

The assignment of the Rights is communicated to the Beneficiaries by delivering to them a specific Letter of Assignment. The Rights are deemed to have been assigned once the Company has received the Letter of Assignment.

The Rights are assigned in a personal capacity to each Beneficiary and cannot be transferred by deed *inter vivos* or be subject to constraints or be the subject of other acts of disposal for any reason.

Any Shares assigned have regular dividend rights and, therefore, the rights related to them belong to each Beneficiary from the moment the Beneficiary becomes the holder of the Shares.

4.2 Implementation period of the plan

The Plan has a multi-year duration and provides for a single assignment.

4.3 Termination of the plan

The Plan will end on 31 December 2032.

4.4 Maximum amount of financial instruments that can be allocated

The number of shares that can be allocated to beneficiaries under the Plan will be established by the Board of Directors during the implementation of the Plan itself and communicated in accordance with the laws and regulations applicable from time to time. As of today, taking into account the arithmetic mean of the closing price of the Technoprobe stock in the 90 days preceding January 1, 2026, it is estimated that the maximum number of shares that can be allocated is equal to 5,000,000, representing 0.76% of the share capital, in the event of achievement of all performance objectives (except as indicated in Paragraph 4.5).

4.5 Methods and clauses for the implementation of the plan, specifying whether the actual allocation of the instruments is subject to the occurrence of conditions or to the achievement of certain results, including performance; Description of these conditions and results

Following receipt of a specific Letter of Assignment, Beneficiaries interested in joining the Plan must deliver such letter to the Company, with the Plan Regulations attached, duly signed and initialled by them as a sign of acceptance, within 15 (fifteen) working days of receiving the letter, under penalty of forfeiture of the right to join the Plan itself.

The allocation of Shares to each Beneficiary, as a result of the maturation of the respective Rights, is subject to the occurrence of both of the following conditions:

- the relationship between each Beneficiary and the Company or the relevant Subsidiary is still in place and the organizational position within the Company or the relevant Subsidiary has been maintained, except in cases of Good Leaver;
- the Trigger Event and the Performance Condition are verified.

If a Beneficiary changes organizational position within the Company or is transferred to one of the Group Companies, the Board of Directors, after consulting the Nomination and Compensation Committee where necessary, may adjust the Beneficiary's Rights and/or performance objectives. These elements may be modified in relation to the new position held.

The vesting of the Rights and the subsequent allocation of the Shares to the Beneficiaries in a single solution are subject to verification by the Board of Directors of the achievement of the Trigger Event and the Performance Condition.

Trigger event

The vesting of the Rights and the related attribution of the Shares to the Beneficiaries are primarily subject to the verification of the Trigger Event by the end of Performance Period 1.

In particular, the Trigger Event is considered to have occurred if the DIS China company - or one of its vehicles - is admitted to listing on the Shanghai Stock Exchange or a regulated stock market of the People's Republic of China (PRC), with the consequent effective start of trading, by December 31, 2031.

The Trigger Event date coincides with the date of commencement of trading of DIS China shares – or of one of its vehicles – on the Shanghai Stock Exchange or a regulated stock market in the People's Republic of China (PRC), as resulting from official documentation made public by the company and the competent authorities.

Alternatively, the Trigger Event may also consist of a sale of all or more than 20% of the equity interests in DIS Shanghai to a third party not belonging to the Technoprobe Group, through an “arm's length” negotiation between independent counterparties by December 31, 2031.

The Board of Directors will verify whether the Trigger Event has been reached every six months starting from the Grant Date and until the end of Performance Period 1.

Performance Condition

The vesting of the Rights and the consequent attribution of the Shares to the Beneficiaries are subject, secondly and following the verification of the Trigger Event, to the achievement by DIS China - or one of its vehicles - of a market capitalization of no less than RMB 6.9bn (approximately USD 1,000,000,000) within one year from the occurrence of the Trigger Event, as well as to the maintenance of such capitalization for a continuous period of at least 30 (thirty) days starting from the Trading Date and, in any case, by the end of Performance Period 2.

In the event of the sale of all or more than 20% of the equity interests in DIS Shanghai to a third party not belonging to the Technoprobe Group, the value of the entire company shall likewise not be lower than RMB 6.9 billion (approximately USD 1,000,000,000), as determined through an arm's length negotiation between independent counterparties who then determine its Fair Market Value.

The achievement of the Performance Condition will be verified by the Board of Directors on a quarterly basis starting from the Trading Date and until the end of Performance Period 2.

The granting of the Number of Shares to the beneficiary is subject to the following condition, as well as any other condition potentially included in the plan rules: during the term of the plan, the beneficiary must maintain the Relationship on a continuous basis with a Group company (the condition above, as well as any other condition included in the plan rules).

Participation in the plan does not form part of the beneficiaries' terms of employment and the rights and obligations arising from the beneficiaries' employment relationships with any Group company are separate from and are not affected by their participation in the plan itself.

The granting of Shares does not create any right for the Beneficiary to be eligible for any Plan Cycle and/or to obtain additional Rights. The Company reserves the right to exercise the clawback clause in the event that the beneficiary is responsible, through willful misconduct or gross negligence, for violations of laws and/or regulations, the Code of Ethics, or company rules that are material to or impact the employment contract, affecting the relevant fiduciary basis. The Board of Directors will decide at its sole discretion whether and to what extent to exercise the clawback. The Company may exercise the clawback no later than three years after the granting of the shares.

4.6 Availability constraints on the instruments granted or on the instruments deriving from the exercise of the instruments granted

The Rights will be attributed on a personal basis to each beneficiary and may not be transferred by deed *inter vivos* nor be subject to restrictions or be the subject of other acts of disposition for any reason whatsoever.

4.7 Any termination conditions in relation to the plan in the event that the beneficiaries carry out hedging transactions that allow to neutralize any prohibitions on the sale of the instruments assigned

The Plan does not contain any termination conditions in the event that the Beneficiaries carry out *hedging* transactions that allow the prohibitions on the disposal of Rights and Shares to be neutralized.

4.8 Effects of termination of employment or management

Since the right to receive the Shares is functionally linked to the continuation of the Relationship between the Beneficiaries and the Company or its Subsidiaries, in the event of termination of the Relationship, the following provisions of this Article will apply, unless otherwise determined by the Board of Directors, following the opinion of the Nomination and Remuneration Committee, in a manner more favorable to the Beneficiaries.

In the event of termination of the Relationship following a Bad Leaver event between the beginning and the end of the plan term, the Beneficiary will permanently and entirely lose the right to receive the Shares.

In the event of termination of the Relationship following a Good Leaver event between the beginning and the end of the plan term, the Beneficiary (or his or her heirs) will retain the right to receive a pro-rata number of Shares corresponding to the pro-rata number of Rights to receive Shares assigned prior to the termination date of the Relationship. Specifically, the month of termination will be included in the pro-rata calculation if the termination takes effect after the 15th day thereof.

Finally, it is understood that in the event of transfer of the Relationship to another Subsidiary and/or in the event of termination of the Relationship and simultaneous establishment of a new Relationship within the Subsidiaries, always in the capacity of Beneficiary, the same will retain, mutatis mutandis, all rights attributed to him pursuant to the Plan.

4.9 Indication of other possible causes for cancellation of the Plan

The Beneficiary will permanently lose the right to the allocation of the Shares following: (i) attempted transfer by deed inter vivos or negotiation of the Rights, including, by way of example, any attempted transfer by deed inter vivos or in application of the law, whether directly or indirectly, including through legal transactions aimed at this effect; (ii) subjection of the Rights to pledge or other real rights, charges, seizure, attachment or constraints (current, potential, future and/or conditional) of any nature, whether real or personal or (iii) granting of the Rights as security.

If, during the term of the plan:

- * a Change of Control were to occur; or
- * a public purchase offer or a public exchange offer relating to the Shares is concluded; or
- * the listing of the Shares on the EXM is revoked (so-called delisting) or resolutions and/or commitments are made which make the delisting certain;

The Board of Directors will have the power to proceed with the early allocation of Shares to the Beneficiaries, or to provide for the early termination of the Plan. This decision will be binding on the Beneficiaries.

Any early allocation of Shares will be made pro rata to all Beneficiaries. The Shares will be allocated based on a specific resolution of the Board of Directors, unless the Board of Directors, after consulting the Nomination and Compensation Committee, determines otherwise in a manner more favorable to the Beneficiaries.

4.10 Reasons relating to the possible provision of a "redemption" of the shares by the Company

Should objective circumstances arise, in the event that the Beneficiary is found to be responsible, with intent or gross negligence, for violations of laws and/or regulations, of the Code of Ethics or of company rules that have a relevance or have an impact on the employment relationship, affecting the related fiduciary basis, even where such behaviors have not had a direct impact on the maturation of the right to the allocation of the Shares, the Company may withhold all or part of the portion of the bonus due with consequent definitive extinction of any right in this regard, or request - to the extent possible under applicable law - (a) the return of the Shares, deducted a number of Shares with a value corresponding to the tax, social security and welfare charges connected to the allocation of the Shares or if the Shares have already been sold, (b) the return of the sale value, deducted the amount corresponding to the tax, social security and welfare charges connected to the allocation of the Shares, possibly also through compensation with the salaries and/or the Beneficiary's severance pay ("Claw-back Right").

The Board of Directors may also, in its discretion, determine that during the term of the plan, you have engaged in bad faith conduct or have failed to perform your job duties diligently and professionally, either of which has caused material harm to the company (both financially and to its reputation).

In particular, if within 3 years of the Grant Date it is proven that during the plan's duration the Participant has adopted behavior contrary to the law and/or company regulations (violation of the organizational, management and control model and the code of ethics or the company's internal procedures), the Participant will be required to return to the company the same amount of shares received on the date of granting the shares, net of any applicable withholding taxes.

The Company will decide at its sole discretion whether and to what extent to exercise the Claw-back Right.

The Claw-back Right may be exercised by the Company no later than 3 years from the Grant Date, even in the event of termination of the Relationship with the Company before such date.

Given that the refund of the amounts subject to the exercise of the Clawback Right is net of taxes paid, the Beneficiary hereby undertakes to return to the Company any excess tax claimed for reimbursement, including in the form of offset, on the repaid fees when filing the tax return. The Beneficiary also undertakes to cooperate with the Company, as a withholding agent, to obtain a refund of any withholdings applied and paid, but not yet claimed for reimbursement when filing the tax return.

4.11 Any loans or other facilities for the purchase of shares

The Plan does not provide for loans or other facilities for the purchase of Shares.

4.12 Assessment of the expected expense for the Company at the date of its assignment, as determinable on the basis of terms and conditions already defined, for the total amount and in relation to each instrument of the plan

As of the Date of the Information Document, it is not possible to quantify the charge for the Company as it will depend on the number of Rights accrued as well as the market value of the Shares at the time of delivery of the Shares. However, by way of example, based on the maximum number of Shares servicing the Plan (equal to 5,000,000) and the closing price of the Shares on the Date of the Information Document (*i.e.*, Euro 16.350), the maximum expected charge would be equal to Euro 81,750,000.

4.13 Any dilutive effects determined by the Plan

The implementation of the Plan will not have dilutive effects on the Company's share capital as the allocation of the Shares will take place using treasury shares.

4.14 Limits on voting rights and property rights

The Shares subject to assignment pursuant to the Plan will have regular dividend rights and, therefore, the rights related to them belong to each Beneficiary from the moment the Beneficiary becomes the holder of the Shares.

The Plan does not provide for limits on the exercise of property rights and voting rights in relation to the Shares that will be allocated pursuant to the Plan.
