PRESS RELEASE

€ 3.3 billion Total Net Inflows in the first quarter, € 1.9 billion into Managed Assets

Banca Mediolanum S.p.A. announces the business results for **March 2026**: **€1.74** billion, of which:

- Total net inflows: **€1.34** billion, **€3.34** billion YTD
- Net inflows into managed assets: **€920** million, **€1.87** billion YTD
- Loans granted: **€376** million, **€962** million YTD
- General insurance premiums: **€22** million, **€60** million YTD

Massimo Doris, CEO of Banca Mediolanum, comments: “The net inflow figures for the month of March confirm an extremely solid performance, despite a complex macroeconomic backdrop and the impact on financial markets, which have generated marked volatility. It is precisely in more challenging environments that our Family Bankers are able to make the difference, supporting customers in viewing crises also as moments of opportunity and providing them with the right level of rationality and perspective. Within this approach, the strategy of focusing on automatic investment solutions plays a key role, allowing customers to invest consistently over time and reducing the impact of emotional factors. Therefore, also thanks to the contribution from recurring net inflows, we closed the month of March with 920 million euro of net inflows into managed assets, bringing the first quarter to a result slightly below the record level of 2025, which had benefited from significantly more favorable market dynamics. Finally, loans granted and general insurance premiums continue to grow at a good pace, areas where our Family Bankers are the undisputed leaders among financial advisor networks”.
