## SIGNIFICANT EVENTS IN THE PERIOD

Nothing to report.

## EVENTS AFTER THE END OF THE PERIOD

On May 5, 2026, the Shareholders' Meeting approved the financial statements at December 31, 2025, and reviewed the Group's consolidated financial statements, including the consolidated sustainability reporting, as well as the report on corporate governance and ownership structure, and approved the distribution of an ordinary unit dividend, gross of tax, of 12 Euro cents, with ex-dividend date on July 13, 2026 (record date July 14, 2026) and payment starting July 15, 2026.

The Meeting also resolved on:

- The report on the remuneration policy and on compensation paid, comprising section one on the 2026 remuneration policy and section two on compensation paid for 2025;
- Authorisation to purchase and dispose of treasury shares, subject to revocation, for the unexecuted portion, of the authorisation resolved by the Shareholders' Meeting of May 6, 2025.

## BUSINESS OUTLOOK

At present, the outlook for 2026 remains shaped by a complex geopolitical and market environment marked by high uncertainty, with strong inflationary burden specifically for electronic memory prices and logistics costs.

In this context, which makes forecasting complex, the Group confirms its revenue growth forecast for the year, expected to materialise mainly in the second half, and the goal of keeping margins in line with the prior year that will largely depend on the ability of profitability recovery actions to offset rising memory and logistics costs.

### BASIS OF PRESENTATION

#### 1) General criteria

In compliance with European Regulation no. 1606/2002, the Consolidated Annual Financial Report was prepared in accordance with the International Accounting Standards (IAS/IFRS) issued by the IASB - International Accounting Standard Board and endorsed by the European Union pursuant to European Regulation 1725/2003 and subsequent updates, with all the interpretations of the International Financial Reporting Standard Interpretations Committee ("IFRS-IC"), formerly known as the Standing Interpretations Committee ("SIC") endorsed by the European Commission at the date of approval of the draft Financial Statements by the Parent Company's Board of Directors and contained in the relevant E.U. Regulations published on that date and in compliance with the provisions set forth in CONSOB Regulation 11971 of 14/05/99 and subsequent updates.

#### 2) Reporting formats

The reporting formats adopted are compliant with those required by IAS 1 and were used in the Consolidated Annual Financial Report for the year ended December 31, 2025, in particular:

- current and non-current assets, as well as current and non-current liabilities are shown separately in the Statement of Financial Position. Current assets, which include cash and cash equivalents, are those intended to be realised, sold or used during the Group's normal operating cycle; current liabilities are those expected to be settled in the Group's normal operating cycle or in the twelve months following the end of the year;
- with regard to the Income Statement, cost and revenue items are shown based on grouping by function, as this classification was deemed more explanatory for understanding the Group's results of operations;
- the Statement of Comprehensive Income shows the items that determine profit/(loss) for the period, considering income and expense recognised directly in equity;

- the Statement of Cash Flows is presented using the "indirect method".

This Consolidated Interim Report is prepared in Euro thousands, which is the Group's "functional" and "presentation" currency under IAS 21.

### 3) Use of estimates and assumptions

The preparation of the IFRS-compliant Consolidated Interim Report requires Directors to apply accounting standards and methodologies that, in some cases, are based on valuations and estimates, which in turn refer to historic experience and assumptions based on specific circumstances at any given time. The application of these estimates and assumptions affects the amounts of revenue, expense, assets and liabilities and their disclosure, as well as the disclosure of contingent liabilities. The results of financial statement items for which the above estimates and assumptions were used may differ from those shown owing to the uncertainty surrounding the assumptions and conditions on which the estimates are based.

### 4) Consolidation scope

This Consolidated Interim Report at March 31, 2026 includes the income statement and balance sheet data of Datalogic S.p.A. and all the companies that it directly or indirectly controls.

The list of investments included in the consolidation area appears in Annex 2 of the Explanatory Notes, with an indication of the methodology used.

As required by IAS 33, information on data used to calculate the earning/loss per share is provided below. Basic EPS is calculated by dividing the result for the period, profit and/or loss, attributable to Shareholders of the Parent Company by the weighted average number of shares outstanding during the reporting period. For the purpose of calculating diluted EPS, the weighted average number of shares outstanding is adjusted by assuming the conversion of all potential shares with dilutive effects (such as the share-based incentive plan), while the Group's net result is adjusted for the after-tax effects of conversion.
