PRESS RELEASE

## Edil San Felice appoints Luigi Inversi as new Human Resources Director

**Naples, May 20, 2026** – Edil San Felice S.p.A. Società Benefit (the “Company” or “Edil San Felice”), a leading operator in the maintenance of critical infrastructure in Italy and listed on Euronext Growth Milan, announces the appointment of Luigi Inversi as Human Resources Director.

The appointment is part of Edil San Felice’s broader process of strengthening its organizational and managerial structure. As Human Resources Director, Luigi Inversi will work closely with top management with the aim of supporting the Company’s growth through the enhancement of human capital, the evolution of HR processes, and the consolidation of the organizational culture.

Luigi Inversi, a graduate of the University of Naples Federico II, holds an MBA from IPE Business School and a Master’s degree in Human Resources Management from STOA. He has extensive experience in managing and developing human resources in complex industrial, technological, and organizational environments, including at international level, gained through roles of increasing responsibility at leading companies operating in the IT, services, and industrial sectors.

Over the course of his career, he has contributed to the evolution of HR processes, organizational development, and the integration of corporate and operations functions, supporting growth, business transformation, and managerial consolidation initiatives.

Previously, he gained significant experience at Sopra Steria Group, System Management S.p.A., and MBDA, developing cross-functional expertise in performance management, organizational development, industrial relations, compensation policies, and training. Inversi has also obtained the HR Senior Professional certification issued by RINA.

**Lorenzo Di Palma, CEO of Edil San Felice, commented:** *“We are very pleased to welcome Luigi Inversi to our organization. People have always been a central element of our growth strategy. Indeed, our industrial model is based on a clear and distinctive choice: ‘zero subcontracting’, which enables us to ensure high operational and safety standards. However, the significant growth path that has characterized Edil San Felice in recent years, bringing the number of employees to over 350, requires a further evolution of organizational management processes and tools. The appointment of the new Human Resources Director fits into this context, and we are confident that, together with top management, he will be able to contribute to supporting this phase of development while preserving the values and identity that have always characterized Edil San Felice.”*
