PUBLIC DISCLOSURE REQUIREMENTS – 28 APRIL 2026 SHAREHOLDERS’ GENERAL MEETING MINUTES

Arco (TN), May 27, 2026 – Aquafil S.p.A announces that the minutes of the Ordinary Shareholders’ General Meeting, held on 28 April 2026, is available to the public on the Company’s website (<http://ir.aquafil.com/> - Shareholders’ Meetings subsection), as well as deposited at the Company’s Registered Office and on eMarket Storage authorised storage system.

* * *

Aquafil is a pioneer in the circular economy also thanks to the ECONYL® regeneration system, an innovative and sustainable process able to create new products from waste and give life to an endless cycle. The nylon waste is collected in locations all over the world and includes industrial waste but also products – such as fishing nets and rugs – that have reached the end of their useful life. Such waste is processed to obtain a raw material – caprolactam – with the same chemical and performance characteristics as those from fossil sources. The polymers produced from ECONYL® caprolactam are distributed to the Group’s production plants, where they are transformed into yarn for rugs carpet flooring and for clothing.

Founded in 1965, Aquafil is one of the main producers of nylon in Italy and worldwide. The Group is present on three different continents, employing about 2,300 people at 19 production sites located in Italy, Slovenia, United States, China, Croatia, Chile, Thailand and Japan.
