Press Release

Prysmian receives the notice to proceed for the Italy-Tunisia electrical interconnector

Prysmian has received from Terna, the Italian transmission operator, and STEG the Tunisian electricity grid and gas operator, the notice to proceed for the construction of the submarine power interconnection between Italy and Tunisia, ELMED.

The value of the contract is about €460 million and will now be included in Prysmian's backlog of projects.

Further details can be found in the communication made at the time of the award, in [September 2025](#).

Raul Gil, EVP Transmission, Prysmian: *"We are now ready to turn this ambitious project into reality. Utilising Italian assets, such as Arco Felice, our submarine cable factory near Naples, our unique asset monitoring based out of Palermo, and our Italian installation know-how, including our flagship submarine cable laying vessels, we will bring the value of clean renewable generation from Tunisia into the Italian and European energy mix, helping to bring down reliance on fossil fuels, while Tunisia will benefit significantly from direct access to Europe's electricity grid, delivering the stable connection needed to fuel economic growth."*

Prysmian is the leading provider of solutions for energy and digital connections, delivering major electrical transmission projects on land and at sea, modernizing power grids, and unlocking renewable energy, electrification, and digital connectivity worldwide. The company combines engineering excellence with sustainability-driven innovation, enabled by its 34,000 employees, 109 production facilities and 30 R&D centers in over 50 countries. Prysmian is a public company, listed on the Italian stock exchange and recorded 2025 revenues of approximately €20 billion.
