PRESS RELEASE

PLANETEL IS CHOSEN FOR THE INTERMONTE VALORE ITALIA INDEX

Treviolo (Bergamo, Italy), 2 July 2026 – Planetel S.p.A. (“**Planetel**”), the parent company of the group of the same name operating nationwide in the telecommunications sector, listed on **Euronext Growth Milan**, the multilateral trading system organised and run by Borsa Italiana S.p.A., has great pleasure in announcing that it has been selected as one of the 100 listed companies that constitute the **Intermonte Valore Italia Index** of Italian small and medium-sized enterprises with market capitalisation of less than one billion Euros not included in the FTSE MIB Index.

The Index aims to promote the universe of listed Italian SMEs by creating a place where entrepreneurs, the capital market and the Italian economic system can come together. It comprises a selection of the Italian economy’s most outstanding players and helps to expand and diversify investment opportunities compared to those to be found in the traditional indexes, in order to offer both domestic and international investors exposure to the best the country’s entrepreneurial fabric has to offer.

The companies included in the Index are selected on the basis of strict technical and financial criteria chosen to ensure that they meet appropriate levels of liquidity, transparency and investability. Amongst the main prerequisites are sufficient floating capital, high governance standards, coverage by financial analysts, sustainable capital and financial structure, level of indebtedness and representative status within the Index.

The Index forms part of **PMI2Change**, the innovative Banca Generali project launched on 1 July 2026 at Palazzo Mezzanotte, the historic Italian Stock Exchange building, which aims to support the growth and competitiveness of Italian entrepreneurs by promoting the development of the country’s listed SMEs. The project tackles the problem of the limited liquidity and visibility of listed SMEs by helping to create the best conditions for a more efficient coming-together of investment capital and businesses.

It is grounded in the consolidated experience of Intermonte, a protagonist on the Italian financial markets with more than thirty years’ experience, especially in SME research, sales & trading, market making and investment banking services. Intermonte has been a member of the Banca Generali Group since 2025.

The Index also provides the basis for the launch by Banca Generali, in partnership with Investlinx and Intermonte, of a new PIR-compliant active ETF that will mainly invest in the companies included in the Index itself. Banca Generali has committed to supporting the launch by raising €100 million from investors in the first few months, and expects a gradual increase in exposure to €500 million in the medium term.

The promoters estimate that the ETF will generate new investment flows of between €1 million and 2 million a day, equivalent to more than 5% of the Index’s total floating capital.

Bruno Pianetti, Chairman and CEO of Planetel, states: *“Planetel’s selection for the Intermonte Valore Italia Index is a major recognition of the growth strategies we’ve deployed, the soundness of our business model and the results these have enabled us to achieve. We’re proud to be part of a project that raises the visibility of listed Italian SMEs and facilitates more and more effective dialogue between companies, capital markets and investors. This milestone further confirms Planetel’s determination to pursue our path of innovation, infrastructural development and long-term sustainable value creation”.*

*Holding company of the Group of the same name that offers telecommunication services at national level, **Planetel S.p.A.** has developed a proprietary fibre optic network for the ultra-broadband connectivity of about 320 municipalities and provides TLC/IT services to over 56,920 customers in Lombardy, Veneto and Campania, through a multi-channel approach. Among the first Italian Internet Service Providers (ISP and WISP) to gradually develop its position in the telecommunication and system integration market, the company has been able to stand out on the territory as a single player offering integrated digital solutions, ASP / Cloud services and other IT solutions. Planetel, formerly a national phone operator, can now provide Business, Wholesale and Residential customers with fibre optic network connections, with the most advanced ultra-broadband connectivity and integrated communication solutions with FTTH-FTTP (Fibre to the Home – Fibre to the Premises) network architectures; its offer covers the entire value chain of ICT services that allows companies to accelerate their digitization process and time-to-market. Planetel's primary assets include a fibre optic network of approximately 3,517 Km. – CLOUD infrastructure in 4 Datacentres – 1,250 Cabinets on the ground.*

Planetel's main goal is the strategic development of a high-speed proprietary backbone – up to 1.4Tb/s – which will allow more stable, faster and more secure connections with a guarantee of greater continuity of service for its customers.
