Banca Mediolanum S.p.A. announces the business results for **June 2026: €1.38 billion**, of which:

- Total net inflows: **€951 million, €6.37 billion YTD**
- Net inflows into managed assets: **€872 million, €4.20 billion YTD**

- General insurance premiums: **€24 million, €129 million YTD**

**Massimo Doris, CEO of Banca Mediolanum**, comments: "A very strong June rounds off the first half of 2026. The month's results were characterised by high-quality net inflows, with a mix heavily weighted towards investments in managed assets, supported by the effectiveness of the initiatives carried out in recent months. I am referring to customers gradually entering the markets through our Double Chance service, as well as those who took advantage of our time deposit offers and subsequently reinvested this liquidity in long-term solutions. Choices such as these further demonstrate the ability of our Family Bankers to guide and support families in making sound asset allocation decisions. I would also like to highlight the excellent contribution from Spain, which closes the first half with €1.1 billion in Total Net Inflows and €845 million in Net Inflows into Managed Assets, further evidence of the appreciation for our model in Spain".

Doris concludes: "I believe we are very well positioned to achieve excellent results in 2026 as well, driven by strong commercial development. In June, we welcomed 18,000 new customers, bringing the total to 110,00 since the beginning of the year - families who have chosen Banca Mediolanum as their partner in pursuing their financial life goals".
