PRESS RELEASE

Resignation of Chief Technology Officer Joseph Parks. CEO Stefano Felici assumes the role on an interim basis

Cernusco Lombardone (LC), November 4, 2026 – Technoprobe, a company listed on Euronext Milan and a leader in the design and manufacture of probe cards (the "Company" or "Technoprobe"), announces that Joseph Parks has tendered his resignation as Chief Technology Officer, effective November 6, 2026, to pursue new professional opportunities.

From the same date, Stefano Felici, CEO of Technoprobe, will also assume the role of Chief Technology Officer on an interim basis, ensuring continuity in the leadership of the Technology Division and in the development of the Group's research and innovation projects.

"*On behalf of everyone at Technoprobe, I would like to express our appreciation to Joe for his work and his contribution to the Company's growth*," said Stefano Felici, CEO of Technoprobe. "*His experience and expertise have been a valuable asset to the Group. We thank him for his commitment and dedication and wish him all the best for the future.*"

Under Stefano Felici's interim leadership, the Technology Division will ensure the coordination of activities and the continuation of ongoing initiatives, in line with the Group's strategic priorities.

As of the date of this press release, Joe Parks holds no shares in the Company. No severance payments or other benefits of any kind are envisaged in connection with the termination, other than standard end-of-service entitlements, nor will any rights under long-term incentive plans be retained

Technoprobe Group

Technoprobe is a leading company in the semiconductor and microelectronics industry. Founded in 1996, Technoprobe specializes in the design and manufacture of electromechanical interfaces known as probe cards, used to test chip functionality. Probe cards are high-tech devices custom-made for individual chips, enabling chips to be tested during the manufacturing process. These technological designs and solutions ensure the functionality and reliability of devices that play a key role in information technology, 5G, the Internet of Things, home automation, automotive and aerospace industries. Technoprobe has been listed on Euronext Milan since May 2, 2023.
