PRESS RELEASE

SECO: order intake of €16,6 million in November 2026 so far, with 49% generated by Physical AI-related verticals

Order flow confirms the growing weight of Physical AI applications in the Group's business and the strength of SECO's integrated Edge and Physical AI offering

- **Order intake in November 2026:** €16,6 million.
- **Physical AI-related verticals:** approximately 49% of total orders, equal to €8,1 million, generated by robotics and drones.

Arezzo, November 17th, 2026 – SECO S.p.A. ("**SECO**" or the "**Company**"), a leader in end-to-end Edge and Physical AI technology solutions for industrial digitalization, announces that in the first two weeks of November 2026 the Group acquired new orders totaling €16,6 million. The orders were equally acquired from new and existing customers.

Approximately 49% of this amount, equal to €8,1 million, was generated by verticals related to Physical AI, namely robotics and drones. The remaining 51% of orders, equal to €8,5 million, relate to the Group's other verticals, in particular Medical and Industrial.

Massimo Mauri, Chief Executive Officer of SECO, commented: *"The order intake achieved in November so far confirms the growing traction of our offering and marks the beginning of our growth path in Physical AI.*
Together with the strengthening of our presence in the Asia-Pacific region announced at the beginning of November, these results reinforce our confidence in the Group's ability to capture the opportunities of a fast-growing market in the years to come".

The order intake figures reported in this press release are management data, have not been audited and are not necessarily indicative of the Group's revenues in future periods, neither include any contribution from Zhejiang Qiyang Intelligent Technology Co., Ltd.
